The Development of Armoured Forces, Their Tactics and Operational Potential** *Arms & Armour* This is one of the most significant military books of the twentieth century. By an outstanding soldier of independent mind, it pushed forward the evolution of land warfare and was directly responsible for German armoured supremacy in the early years of the Second World War. Published in 1937, the result of 15 years of careful study since his days on the German General Staff in the First World War, Guderian's book argued, quite clearly, how vital the proper use of tanks and supporting armoured vehicles would be in the conduct of a future war. When that war came, just two years later, he proved it, leading his Panzers with distinction in the Polish, French and Russian campaigns. Panzer warfare had come of age, exactly as he had forecast. This first English translation of Heinz Guderian's classic book - used as a textbook by Panzer officers in the war - has an introduction and extensive background notes by the modern English historian Paul Harris. **Locus of a Boat Designer 2** Horiuchi presents an illustrated record of the development of new vehicles on water, land, and in the sky, in which he has been actively involved. Their success inspired every studio in Hollywood and Europe to release everything from serious knockoffs to spoofs on the genre featuring debonair men, futuristic gadgets, exotic locales, and some of the world's most beautiful actresses whose roles ranged from the innocent caught up in a nefarious plot to the femme fatale. Profiled herein are 107 dazzling women, well-known and unknown, who had film and television appearances in the spy genre. They include superstars Doris Day in Caprice, Raquel Welch in Fathom, and Ann-Margret in Murderer's Row; international sex symbols Ursula Andress in Dr. No and Casino Royale, Elke Sommer in Deadlier Than the Male, and Senta Berger in The Spy with My Face; and forgotten lovelies Greta Chi in Fathom, Alizia Gur in From Russia with Love, and Maggie Thrett in Out of Sight. Each profile includes a filmography that lists the actresses' more notable films. Some include the actresses' candid comments and anecdotes about their films and television shows, the people they worked with, and their feelings about acting in the spy genre are offered throughout. A list of websites that provide further information on women in spy films and television is also included. **Shadows in the Light** *Open Road Media* The author of The Worm in the Bottle offers a probing examination of our contemporary world in this second poetry collection. Since 1961, they have continued to sell at a rate of some 30,000 copies a year. From 1951's Dangerous Assignment to today's Burn Notice, we've watched cloak-and-dagger adventures from popular successes like Alias and Mission: Impossible to thoughtful mini-series like The Sandbaggers to cartoons and even live animals in shows like Lancelot Link, Secret Chimp. Our TV secret agents have worn masks and capes (Adventures of Zorro), fought in the historical past (Hogan's Heroes, Jack of All Trades), been as stylish as Napoleon Solo in The Man From U.N.C.L.E., or have been as frumpy as George Smiley in Tinker, Tailor, Soldier, Spy. No one knows more about the wide vista of these undercover operatives than Dr. Wesley Britton, author of the highly-acclaimed 2004 history of the genre, Spy Television. Now, Britton has compiled the first indispensable reference book on television espionage unveiling the secrets behind our beloved favorites, the nuggets we might have missed, and the programs that disappeared without a trace after their short original runs. Britton provides the behind-the-scenes creative process for TV spies drawn from both extensive research and his interviews with many participants. He uncovers the reasons why some dramas were either unforgettable hits or regrettable misses. But The Encyclopedia of TV Spies is more than a historical overview. Britton offers analysis of the elements that made key shows innovative and trend-setting and why some of the best productions ever made never jelled with the networks or audiences. And, like a "Special Edition" DVD, The Encyclopedia of TV Spies also includes extra features including articles on tie-in novels and how to collect TV spy music. In short, no entertainment library is complete without The Encyclopedia of TV Spies, and no fan of television should be without it. Every reader should expect to discover surprises and suggestions for their own viewing, and will find themselves seeking out the best dramas and comedies available on DVD or online. **That Air Forever Dark An Adventure** *Daniel & Daniel Pub* "Vacation turns to nightmare for a group of Americans on an excursion to New Guinea, when their plane makes a forced landing in a swamp populated by headhunters who have never seen white people before." However, the benefits from the introduction of the technology may be unevenly distributed among the population, especially if the markets do not function properly. While the microeconomic literature on technology adopted and diffusion focuses on "who" and "when," the macroeconomic literature has focused on the overall impact of globalization on inequality. In this paper the authors bring these two strands of the literature together by studying the diffusion of plastic reinforced fiber boats in a fishing village in Tamil Nadu and by analyzing the dynamics of income inequality during this process." -- Cover verso. **Piloting, Seamanship and Small Boat Handling A Complete Illustrated Course on the Operation of Small Boats** *Liquid Atomization* *Routledge* Covering the basics of liquid atomization, this book familiarizes readers with the physical processes of liquid atomization, the main types of atomizers and their design, measurements of spray characteristics, experimental investigations of atomizers, and application of atomizers. This primary question underpins Ishikawa's analysis of selected work by Buraku writer, Nakagami Kenji (1946-1992). In spite of his Buraku background, Nakagami's privilege as a writer made it difficult for him to "hear" and "represent" those voices silenced by mainstream social structures in Japan. This "paradox of representing the silenced voice" is the key theme of the book. Gayatri Spivak theorizes the (im)possibility of representing the voice of "subalterns," those oppressed by imperialism, patriarchy and heteronormativity. Arguing for Burakumin as Japan's "subalterns," Ishikawa draws on Spivak to analyze Nakagami's texts. The first half of the book revisits the theme of the transgressive Burakumin man. This section includes analysis of a seldom discussed narrative of a violent man and his silenced wife. The second half of the book focuses on the rarely heard voices of Burakumin women from the Akiyuki trilogy. Satoko, the prostitute, unknowingly commits incest with her half-brother, Akiyuki. The aged Yuki sacrifices her youth in a brothel to feed her fatherless family. The mute Moyo remains traumatized by rape. Ishikawa's close reading of Nakagami's representation of the silenced voices of these sexually stigmatized women is this book's unique contribution to Nakagami scholarship. **International Law Cases and Materials** West Academic Updated with an emphasis on current issues, this classic casebook emphasizes developments in international law, with expertly edited cases and problems for class discussion.
