Designing Web Navigation

Optimizing the User Experience

"O'Reilly Media, Inc." **Thoroughly rewritten for today's web environment, this bestselling book offers a fresh look at a fundamental topic of web site development: navigation design. Amid all the changes to the Web in the past decade, and all the hype about Web 2.0 and various "rich" interactive technologies, the basic problems of creating a good web navigation system remain. Designing Web Navigation demonstrates that good navigation is not about technology-it's about the ways people find information, and how you guide them. Ideal for beginning to intermediate web designers, managers, other non-designers, and web development pros looking for another perspective, Designing Web Navigation offers basic design principles, development techniques and practical advice, with real-world examples and essential concepts seamlessly folded in. How does your web site serve your business objectives? How does it meet a user's needs? You'll learn that navigation design touches most other aspects of web site development. This book: Provides the foundations of web navigation and offers a framework for navigation design Paints a broad picture of web navigation and basic human information behavior Demonstrates how navigation reflects brand and affects site credibility Helps you understand the problem you're trying to solve before you set out to design Thoroughly reviews the mechanisms and different types of navigation Explores "information scent" and "information shape" Explains "persuasive" architecture and other design concepts Covers special contexts, such as navigation design for web applications Includes an entire chapter on tagging While Designing Web Navigation focuses on creating navigation systems for large, information-rich sites serving a business purpose, the principles and techniques in the book also apply to small sites. Resource Efficiency and Climate Change

Material Efficiency Strategies for a Low-carbon Future

UN "The International Resource Panel (IRP) was established to provide independent, coherent and authoritative scientific assessments on the use of natural resources and their environmental impacts over the full life cycle. The Panel aims to contribute to a better understanding of how to decouple economic growth from environmental degradation while enhancing well-being. The Secretariat is hosted by the United Nations Environment Programme. IRP assessments demonstrate the opportunities for governments, businesses and wider society to work together to create and implement policies that ultimately lead to sustainable resource management, including through better planning, technological innovation and strategic incentives and investments. Materials are vital to modern society, but their production is an important source of greenhouse gases. Emissions from material production are now comparable to those from agriculture, forestry, and land use change combined, yet they have received much less attention from the climate policy community. The IRP authors propose looking beyond energy efficiency to reduce global carbon footprint. This report was developed by the IRP in response to a request from the Group of 7. It conducts a rigorous assessment of the contribution of material efficiency to GHG abatement strategies. More concretely, it assesses the potential reduction of GHG emissions from material efficiency strategies applied in residential buildings and light duty vehicles, and reviews policies that address these strategies. The IRP modelling results show that increasing material efficiency can help enhance efforts in moving towards the 1.5° C target set by the Paris Agreement." -- Page 4 of cover

The Daily Show (The Book)

An Oral History as Told by Jon Stewart, the Correspondents, Staff and Guests

Hachette UK **The complete, uncensored history of the award-winning The Daily Show with Jon Stewart, as told by its correspondents, writers, and host. For almost seventeen years, The Daily Show with Jon Stewart brilliantly redefined the borders between television comedy, political satire, and opinionated news coverage. It launched the careers of some of today's most significant comedians, highlighted the hypocrisies of the powerful, and garnered 23 Emmys. Now the show's behind-the-scenes gags, controversies, and camaraderie will be chronicled by the players themselves, from legendary host Jon Stewart to the star cast members and writers-including Samantha Bee, Stephen Colbert, John Oliver, Steve Carell, Lewis Black, Jessica Williams, John Hodgman, and Larry Wilmore-plus some of The Daily Show's most prominent guests and adversaries: John and Cindy McCain, Glenn Beck, Tucker Carlson, and many more. This oral history takes the reader behind the curtain for all the show's highlights, from its origins as Comedy Central's underdog late-night program hosted by Craig Kilborn to Jon Stewart's long reign to Trevor Noah's succession, rising from a scrappy jester in the 24-hour political news cycle to become part of the beating heart of politics-a trusted source for not only comedy but also commentary, with a reputation for calling bullshit and an ability to effect real change in the world. Through years of incisive election coverage, Jon Stewart's emotional monologue in the wake of 9/11, his infamous confrontation on Crossfire, passionate debates with President Obama and Hillary Clinton, feuds with Bill O'Reilly and Fox, the Indecisions, Mess O'Potamia, and provocative takes on Wall Street and racism, The Daily Show has been a cultural touchstone. Now, for the first time, the people behind the show's seminal moments come together to share their memories of the last-minute rewrites, improvisations, pranks, romances, blow-ups, and moments of Zen both on and off the set of one of America's most groundbreaking shows.**

Reconomics

The Path To Resilient Prosperity

RECONOMICS is the first book that shows how to boost economic growth and community resilience simultaneously. It also reveals the surprising factor that sabotages most revitalization / resilience efforts. **RECONOMICS** is THE guide to healing economies, societies and nature together! "RECONOMICS is a must-read for every mayor, resilience activist, planning commissioner and urban redevelopment professional who has been frustrated in their attempts to revitalize a place. It succinctly describes why most revitalization plans fail, analyzes what's missing, and provides a simple, easy-to-follow strategic process for success." - Kevin L. Maevers, D.Mgmt., AICP; President, Arivitas Strategies, LLC, La Quinta, CA; Vice Director of Policy, IES, California Chapter, American Planning Association. "Storm Cunningham is so far ahead of the community revitalization game, I'm in awe." - Sarah Sieloff, Executive Director, Center for Creative Land Recycling (September 2019) "RECONOMICS hits the nail on the head!" - Nalin Seneviratne, Director of City Centre Development, Sheffield City Council, Sheffield, England "Storm Cunningham's RECONOMICS Process raises the bar for community and regional revitalization. It's a powerful package, succinctly capturing the process that we have doggedly tried to identify over time, not always knowing the next step. The RECONOMICS Process brings a holistic dimension to redevelopment, inextricably linking vision and task." - Eric Bonham, P.Eng, Board of Partnership for Water Sustainability in British Columbia, Former Director, BC Ministry of Environment & BC Ministry of Municipal Affairs "Storm Cunningham is the world's thought leader on community revitalization and natural resource restoration." - George Ochs, Managing Director of Real Assets, JP Morgan. "RECONOMICS should be mandatory reading for all Mayors, Chief Executives and Directors of Planning in cities and regions." - Rick Finc, Principal, RFA Development Planning, Edinburgh, Scotland "RECONOMICS is very concentrated, highly sophisticated and stunningly accurate." - Merrit Drucker, Anacostia Waterfront Trust, Washington, DC "Storm Cunningham's RECONOMICS transformed our latest project, which uses his 3Re strategy." - Dumas F. Lafontant, Director, Lower Roxbury Coalition, Boston, Massachusetts Does your city or region have an actual process for reliably creating resilient, inclusive economic growth...or just the usual vision, plan and projects? The reliable production of ANYTHING requires a process. Everyone knows this...except most leaders of local renewal initiatives. Over 95% of community revitalization and resilience projects fail to achieve their goals, and a shocking percentage of them fail outright. The reason is the same in almost all cases: lack of a complete renewal process. There's always at least one crucial element of the process missing. Since most leaders don't know what the minimum viable process is, they can't fill the gap. In RECONOMICS, that complete strategic renewal process is revealed for the first time. It can be applied at the community, regional or national levels. If you have ANY role in improving your local future, you need to read this book. What it reveals can easily double the ROI (revitalization on investment) of your redevelopment, renewal and climate adaptation efforts.

Richard M. Nixon

A Life in Full

Hachette UK From the late 1940s to the mid-1970s, Richard Nixon was a polarizing figure in American politics, admired for his intelligence, savvy, and strategic skill, and reviled for his shady manner and cutthroat tactics. Conrad Black, whose epic biography of FDR was widely acclaimed as a masterpiece, now separates the good in Nixon -- his foreign initiatives, some of his domestic policies, and his firm political hand -- from the sinister, in a book likely to generate enormous attention and controversy. Black believes the hounding of Nixon from office was partly political retribution from a lifetime's worth of enemies and Nixon's misplaced loyalty to unworthy subordinates, and not clearly the consequence of crimes in which he participated. Conrad Black's own recent legal travails, though hardly comparable, have undoubtedly given him an unusual insight into the pressures faced by Nixon in his last two years as president and the first few years of his retirement.

The Mommy Psychologist

The Child Psychologist Who Thought She Had All the Answers to Parenting Until She Became One Herself

Createspace Independent Pub Just like *A Girlfriend's Guide to Pregnancy* is the must-have book for any pregnant woman, *The Mommy Psychologist* is the must-have book for any new mother. If you are a mother, a mother-to-be, or thinking about becoming a mother then you must read this book. Grab a cup of coffee or a glass of wine and get ready to learn the real deal on motherhood. The stuff none of the other parenting books tell you. You might be surprised to learn that after natural childbirth, your vagina will look like Mike Tyson went nine rounds on it or that breastfeeding on the toilet cures constipation. *The Mommy Psychologist* is not another prescriptive, how-to guide on parenting. The last thing we need is another parenting book lining the shelves promising parental success if we apply the correct mathematical formula to our babies. It's narrated by a Child Psychologist who thought she had all the answers to parenting until she became one herself. She exposes her faults unapologetically in an account that is both hilarious and heartbreaking. She makes sense of the emotional extremes of motherhood and shows how seemingly contradictory emotions about motherhood can co-exist. Each chapter tackles a specific parenting topic ranging from dealing with infant sleep problems to dispelling some of the common myths associated with autism. *The Mommy Psychologist* doesn't give mothers the illusion that if they apply certain steps to a problem they will get a specific result. Instead, mothers are encouraged to view parenting through the lens of self empowerment and suggestions are provided to help them use the information they have at their disposal, but mostly, to feel better about themselves. Mothers are urged to do what feels right for them in any given parenting situation. It is written with a voice that marries education with the practical experience only gained through the act of being a mother.
