**Woodall's RV Owner's Handbook The Essential Cult TV Reader** *University Press of Kentucky* The Essential Cult TV Reader is a collection of insightful essays that examine television shows that amass engaged, active fan bases by employing an imaginative approach to programming. Once defined by limited viewership, cult TV has developed its own identity, with some shows gaining large, mainstream audiences. By exploring the defining characteristics of cult TV, The Essential Cult TV Reader traces the development of this once obscure form and explains how cult TV achieved its current status as legitimate television. The essays explore a wide range of cult programs, from early shows such as Star Trek, The Avengers, Dark Shadows, and The Twilight Zone to popular contemporary shows such as Lost, Dexter, and 24, addressing the cultural context that allowed the development of the phenomenon. The contributors investigate the obligations of cult series to their fans, the relationship of camp and cult, the effects of DVD releases and the Internet, and the globalization of cult TV. The Essential Cult TV Reader answers many of the questions surrounding the form while revealing emerging debates on its future. **Living the RV Life Your Ultimate Guide to Life on the Road** *Simon and Schuster* Whether you're downsizing or thrill-seeking—or anything in between—find out if the RV lifestyle is right for you, and learn how to transition from a life of traditional home-ownership to one on the road. **America's Schools** *Brookings Institution Press* During the 1980s, widespread dissatisfaction with America's schools gave rise to a powerful movement for educational change, and the nation's political institutions responded with aggressive reforms. Chubb and Moe argue that these reforms are destined to fail because they do not get to the root of the problem. The fundamental causes of poor academic performance, they claim, are not to be found in the schools, but rather in the institutions of direct democratic control by which the schools have traditionally been governed. Reformers fail to solve the problem-when the institutions ARE the problem. The authors recommend a new system of public education, built around parent-student choice and school competition, that would promote school autonomy—thus providing a firm foundation for genuine school improvement and superior student achievement. **Vintage Camper Trailers** *Gibbs Smith Vintage*
