Lemon-Aid Used Cars and Trucks 2011-2012

Dundurn *As Toyota skids into an ocean of problems and uncertainty continues in the U.S. automotive industry, Lemon-Aid Used Cars and Trucks 2011-2012 shows buyers how to pick the cheapest and most reliable vehicles from the past 30 years. Lemon-Aid guides are unlike any other car and truck books on the market. Phil Edmonston, Canada's automotive Dr. Phil for 40 years, pulls no punches. Like five books in one, Lemon-Aid Used Cars and Trucks is an expos of car scams and gas consumption lies; a do-it-yourself service manual; an independent guide that covers beaters, lemons, and collectibles; an archive of secret service bulletins granting free repairs; and a legal primer that even lawyers cant beat! Phil delivers the goods on free fixes for Chrysler, Ford, and GM engine, transmission, brake, and paint defects; lets you know about Corvette and Mustang tops that fly off; gives the lowdown on Honda, Hyundai, and Toyota engines and transmissions; and provides the latest information on computer module glitches.*

Lemon-Aid Used Cars and Trucks

2009-2010

Dundurn For the first time in one volume, Phil Edmonston, Canada's automotive "Dr. Phil," covers all used vehicles, packing this guide with insider tips to help the consumer make the safest and cheapest choice possible from cars and trucks of the past 25 years.

Lemon-Aid New Cars and Trucks 2011

Dundurn As U.S. and Canadian automakers and dealers face bankruptcy and Toyota battles unprecedented quality-control problems, Lemon-Aid guides steer the confused and anxious buyer through the economic meltdown unlike any other car-and-truck books on the market. Phil Edmonston, Canada's automotive "Dr. Phil" for more than 40 years, pulls no punches. In this all-new guide he says: Chrysler's days are numbered with the dubious help of Fiat. Electric cars and ethanol power are PR gimmicks. Diesel and natural gas are the future. Be wary of "zombie" vehicles: Jaguar, Land Rover, Saab, and Volvo. Mercedes-Benz - rich cars, poor quality. There's only one Saturn you should buy. Toyota - enough apologies: "when you mess up, 'fess up."

Plunkett's Automobile Industry Almanac 2009

The Only Comprehensive Guide to Automotive Companies and Trends

Plunkett Research, Ltd. Franklin, Jack, Marla, Thadius, and Caitlin... this unlikely group of assorted misfits are the Cemeterians, a group that will take on any job - no, really, we mean any bloody job (money's a bit tight right now)! Trudge through disgusting sewers to battle manatee-massacring mermaids and soggy cultists, creep through creepy, fog-littered cemeteries straight out of an ancient Hammer Film soundstage, confront undead lecherous lodgers and other assorted beasties, creepies, and ghoulies. It all comes down to whether an adolescent giant Automaton, a truly mad, Mad Scientist, a surly Necromancer, a Banshee's granddaughter, and a reluctant furry monster straight from under your little sister's bed can manage not to kill each other - or, at least, quit fighting over the tele-privilege-schedule long enough to get the job done! Not likely.

Lemon-Aid Used Cars and Trucks 2012–2013

Dundurn *Lemon-Aid guides* steer the confused and anxious buyer through the economic meltdown unlike any other car-and-truck books on the market. U.S. automakers are suddenly awash in profits, and South Koreans and Europeans have gained market shares, while Honda, Nissan, and Toyota have curtailed production following the 2011 tsunami in Japan. Shortages of Japanese new cars and supplier disruptions will likely push used car prices through the roof well into 2012, so what should a savvy buyer do? The all-new *Lemon-Aid Used Cars and Trucks 2012-2013* has the answers, including: More vehicles rated, with some redesigned models that don't perform as well as previous iterations downrated. More roof crash-worthiness ratings along with an expanded cross-border shopping guide. A revised summary of safety- and performance-related defects that are likely to affect rated models. More helpful websites listed in the appendix as well as an updated list of the best and worst "beaters" on the market. More "secret" warranties taken from automaker internal service bulletins and memos than ever.

Lemon-Aid New Cars and Trucks

2012

Dundurn *Phil Edmonston, Canada's automotive "Dr. Phil," pulls no punches. He says there's never been a better time to buy a new car or truck, thanks to a stronger Canadian dollar and an auto industry offering reduced prices, more cash rebates, low financing rates, bargain leases, and free auto maintenance programs. In this all-new guide he says: Audis are beautiful to behold but hell to own (biodegradable transmissions, "rodent snack" wiring, and mind-boggling depreciation) Many 2011-12 automobiles have "chin-to-chest head restraints, blinding dash reflections, and dash gauges that can't be seen in sunlight, not to mention painful wind-tunnel roar if the rear windows are opened while underway Ethanol and hybrid fuel-saving claims have more in common with Harry Potter than the Society of Automotive Engineers GM's 2012 Volt electric car is a mixture of hype and hypocrisy from the car company that "killed" its own electric car more than a decade ago You can save \$2,000 by cutting freight fees and "administrative" charges Diesel annual urea fill-up scams cost you \$300, including an \$80 "handling" charge for \$25 worth of urea Lemon-Aid's 2011-12 Endangered Species List: the Chinese Volvo, the Indian Jaguar and Land Rover, the Mercedes-Benz Smart Car, Mitsubishi, and Suzuki*

Lemon-Aid New and Used Cars and Trucks 2007–2018

Dundurn *A Globe and Mail bestseller! • "Dr. Phil," Canada's best-known automotive expert, and George Iny walk you through another year of car buying. MASH 2016 Test Level 4 Evaluation of MNDOT Concrete Parapet with Brush Curb and Upper Beam and Post Rail with New Tapered End Section

The Minnesota Department of Transportation (MnDOT) desires to use a concrete parapet with a brush curb, upper beam and post rail, and a new tapered end section along high-speed highways and roadways when bridge structures are encountered. The MnDOT combination bridge railing system was full-scale crash tested according to the Test Level 4 (TL-4) procedures described in the Manual for Assessing Safety Hardware (MASH 2016). The combination bridge railing system consisted of a 21-in. tall concrete parapet with a 6-in. tall and 2-in. wide brush curb at the lower front face and eight rail and post assemblies, which consisted of one steel rail welded onto two or three steel posts with their own welded base plates. The steel assemblies were anchored to the top face of the concrete parapet. In full-scale crash test nos. MNCBR-1, MNCBR-2, and MNCBR-3, the bridge railing system was evaluated according to MASH 2016 test designation nos. 4-12, 4-11, and 4-10, respectively. The 2013 International Durastar 4300 SBA single-unit truck impacted the system 60 1/8 in. upstream from the centerline of the splice between post nos. 6 and 7 with a speed of 57.4 mph at an angle of 15.4 degrees. The 2014 Dodge Ram 1500 crew cab pickup truck impacted the system 69.9 in. upstream from the centerline of post no. 23 with a speed of 63.9 mph at an angle of 25.1 degrees. The 2009 Kia Rio small car impacted the system 70 7/16 in. upstream from the centerline of post no. 23 with a speed of 62.5 mph at an angle of 25.5 degrees. The vehicles were successfully contained and redirected, resulting in minimal plastic deformation to the upper steel railing and moderate to minimal scraping and gouging of the concrete parapet. The combination bridge railing system was found to meet the AASHTO MASH 2016 TL-4 impact safety criteria.

Travelling Sprinkler

Serpent's Tail *Paul Chowder is a poet, but he's fallen out of love with writing poems. He hasn't fallen out of love with his ex-girlfriend Roz, though. In fact he misses her desperately. As he struggles to come to terms with Roz's new relationship with a doctor, Paul turns to his acoustic guitar for comfort and inspiration, and fills his days writing protest songs, going to Quaker meetings, struggling through Planet Fitness workouts, wondering if he could become a techno DJ, and experimenting with becoming a cigar smoker. Written in Baker's beautifully unconventional prose, and scored with musical influences from Debussy to Tracy Chapman to Paul himself, Travelling Sprinkler is an enchanting, hilarious, and deeply necessary novel. 'I think the job of the novelist is to write about interesting things, including things that might not seem all that interesting at first glance, and to offer evidence that life is worth living' Nicholson Baker*

Heads I Win, Tails I Win

Why Smart Investors Fail and How to Tilt the Odds in Your Favor

Penguin *INVESTING IS ONE OF THE FEW AREAS IN LIFE WHERE EVEN VERY SMART PEOPLE LET HOPE TRIUMPH OVER EXPERIENCE* According to Wall Street Journal investing columnist Spencer Jakab, most of us have no idea how much money we're leaving on the table—or that the average saver doesn't come anywhere close to earning the "average" returns touted in those glossy brochures. We're handicapped not only by psychological biases and a fear of missing out, but by an industry with multimillion-dollar marketing budgets and an eye on its own bottom line, not yours. Unless you're very handy, you probably don't know how to fix your own car or give a family member a decent haircut. But most Americans are expected to be part-time fund managers. With a steady, livable pension check becoming a rarity, we've been entrusted with our own finances and, for the most part, failed miserably. Since leaving his job as a top-rated stock analyst to become an investing columnist, Jakab has watched his readers—and his family, friends, and colleagues—make the same mistakes again and again. He set out to evaluate the typical advice people get, from the clearly risky to the seemingly safe, to figure out where it all goes wrong and how they could do much better. Blending entertaining stories with some surprising research, Jakab explains ·How a typical saver could have a retirement nest egg twice as large by being cheap and lazy. ·Why investors who put their savings with a high-

performing mutual fund manager end up worse off than if they'd picked one who has struggled. ·The best way to cash in on your hunch that a recession is looming. ·How people who check their brokerage accounts frequently end up falling behind the market. ·Who isn't nearly as good at investing as the media would have you think. He also explains why you should never trust a World Cup-predicting octopus, why you shouldn't invest in companies with an X or a Z in their names, and what to do if a time traveler offers you economic news from the future. Whatever your level of expertise, Heads I Win, Tails I Win can help you vastly improve your odds of investment success.

The Shock Doctrine

The Rise of Disaster Capitalism

Penguin UK *'Impassioned, hugely informative, wonderfully controversial, and scary as hell'* John le Carré *Around the world in Britain, the United States, Asia and the Middle East, there are people with power who are cashing in on chaos; exploiting bloodshed and catastrophe to brutally remake our world in their image. They are the shock doctors. Exposing these global profiteers, Naomi Klein discovered information and connections that shocked even her about how comprehensively the shock doctors' beliefs now dominate our world - and how this domination has been achieved. Raking in billions out of the tsunami, plundering Russia, exploiting Iraq - this is the chilling tale of how a few are making a killing while more are getting killed. 'Packed with thinking dynamite ... a book to be read everywhere'* John Berger *'If you only read one non-fiction book this year, make it this one'* Metro Books of the Year *'There are a few books that really help us understand the present. The Shock Doctrine is one of those books'* John Gray, Guardian *'A brilliant book written with a perfectly distilled anger, channelled through hard fact. Increasing Psychological Well-being in Clinical and Educational Settings Interventions and Cultural Contexts

Springer This volume deals with strategies aimed at increasing psychological well-being in both clinical and non-clinical settings, with a special focus on the impact of cross-cultural influences on these processes. Consisting of two parts, the book first examines clinical interventions for increasing well-being and positive functioning in adult populations. It looks at cultural differences in the experience of psychological well-being, presents an analysis of the concept of psychological well-being and discusses various interventions, including Well-Being Therapy and Cognitive Behavioral Therapy. Other concepts discussed are post-traumatic growth, wisdom and motivation. The second part of the book deals with psychological interventions in childhood and adolescence and has a strong emphasis on educational settings. It provides an overview of the main evidence-based psychotherapies for affective disorders in youths, and looks at the importance and impact of positive education, resilience, and hope. The book presents models for intervention and discusses several therapies in detail.

Health Equity in Brazil

Intersections of Gender, Race, and Policy

University of Illinois Press *Brazil's leadership role in the fight against HIV has brought its public health system widespread praise. But the nation still faces serious health challenges and inequities. Though home to the world's second largest African-descendant population, Brazil failed to address many of its public health issues that disproportionately impact Afro-Brazilian women and men. Kia Lilly Caldwell draws on twenty years of engagement with activists, issues, and policy initiatives to document how the country's feminist health movement and black women's movement have fought for much-needed changes in women's health. Merging ethnography with a historical analysis of policies and programs, Caldwell offers a close examination of institutional and structural factors that have impacted the quest for gender and racial health equity in Brazil. As she shows, activists have played an essential role in policy development in areas ranging from maternal mortality to female sterilization. Caldwell's insightful portrait of the public health system also details how its weaknesses contribute to ongoing failures and challenges while also imperiling the advances that have been made.*
