## A Field Guide to Getting Lost

Penguin Paperbacks *A series of autobiographical essays draws on key moments and relationships in the author's life to explore such issues as trust, loss, and desire, in a volume that focuses on a central theme of losing oneself in the pleasures of experience. By the author of River of Shadows and Wanderlust. Reprint. 25,000 first printing.*

## A Book of Migrations

*Verso Books In this acclaimed exploration of the culture of others, Rebecca Solnit travels through Ireland, the land of her long-forgotten maternal ancestors. A Book of Migrations portrays in microcosm a history made of great human tides of invasion, colonization, emigration, nomadism and tourism. Enriched by cross-cultural comparisons with the history of the American West, A Book of Migrations carves a new route through Ireland's history, literature and landscape.*

## Wanderlust

## A History of Walking

*Granta Books What does it mean to be out walking in the world, whether in a landscape or a metropolis, on a pilgrimage or a protest march? In this first general history of walking, Rebecca Solnit draws together many histories to create a range of possibilities for this most basic act. Arguing that walking as history means walking for pleasure and for political, aesthetic, and social meaning, Solnit homes in on the walkers whose everyday and extreme acts have shaped our culture, from the peripatetic philosophers of ancient Greece to the poets of the Romantic Age, from the perambulations of the Surrealists to the ascents of mountaineers. With profiles of some of the most significant walkers in history and fiction - from Wordsworth to Gary Snyder, from Rousseau to Argentina's Mother of the Plaza de Mayo, from Jane Austen's Elizabeth Bennet to Andre Breton's Nadja - Wanderlust offers a provocative and profound examination of the interplay between the body, the imagination, and the world around the walker.*

## Economy and State

*John Wiley & Sons Should governments be involved in economic affairs? Challenging prevailing wisdom about the benefits of self-regulating markets, Nina Bandelj and Elizabeth Sowers offer a uniquely sociological perspective to emphasize that states can never be divorced from economy. From defining property rights and regulating commodification of labor to setting corporate governance standards and international exchange rules, the state continuously manages the functioning of markets and influences economic outcomes for individuals, firms and nations. The authors bring together classical interventions and cutting-edge contemporary research in economic sociology to discuss six broad areas of economy/state connection: property, money, labor, firms, national*

*economic growth, and global economic exchange. A wealth of empirical examples and illustrations reveals that even if the nature of state influence on economy varies across contexts, it is always dependent on social forces. This accessible and engaging book will be essential reading for upper-level students of economic sociology, and those interested in the major economic dilemmas of our times. .*

## Across the Pond

*Atheneum Books for Young Readers From the author of A Field Guide to Getting Lost comes a heartwarming story about new beginnings, burgeoning friendships, and finding your flock. Callie can't wait for her new life to start. After a major friendship breakup in San Diego, moving overseas to Scotland gives her the perfect chance to reinvent herself. On top of that, she's going to live in a real-life castle! But as romantic as life in a castle sounds, the reality is a little less comfortable: it's run-down, freezing, and crawling with critters. Plus, starting off on the wrong foot with the gardener's granddaughter doesn't help her nerves about making new friends. So she comes up with the perfect solution: she'll be homeschooled. Her parents agree, on one condition: she has to participate in a social activity. Inspired by a journal that she finds hidden in her bedroom, Callie decides to join a birding club. Sure, it sounds unusual, but at least it's not sports or performing. But when she clashes with the club leader, she risks losing a set of friends all over again. Will she ever be able to find her flock and make this strange new place feel like home?*

## Into the Wild

*Pan Macmillan With an introduction by novelist David Vann In April 1992, Chris McCandless set off alone into the Alaskan wild. He had given his savings to charity, abandoned his car and his possessions, and burnt the money in his wallet, determined to live a life of independence. Just four months later, Chris was found dead. An SOS note was taped to his makeshift home, an abandoned bus. In piecing together the final travels of this extraordinary young man's life, Jon Krakauer writes about the heart of the wilderness, its terribly beauty and its relentless harshness. Into the Wild is a modern classic of travel writing, and a riveting exploration of what drives some of us to risk more than we can afford to lose.*

## Lost and Founder

# A Painfully Honest Field Guide to the Startup World

Penguin UK 'You won't find a more honest, raw and helpful look into the trenches of founding a tech startup than this book' Nir Eyal, author of *Hooked* 'Rand Fishkin is the real deal' Seth Godin, entrepreneur and author ----- Everyone knows how a startup story is supposed to go: a young, brilliant entrepreneur has an cool idea, drops out of college, defies the doubters, overcomes all odds, makes billions and becomes the envy of the technology world. This is not that story. Rand Fishkin, the founder and former CEO of Moz, is one of the world's leading experts on SEO. Moz is now a \$45 million a year business, but Fishkin's business and reputation took 15 years to grow, and his startup began not in a Harvard dorm room but as a mother-and-son family business that fell deeply into debt. Now Fishkin pulls back the curtain on tech startup mythology, exposing the ups and downs of startup life that most CEOs would rather keep secret. For instance: a minimally viable product can be destructive if you launch at the wrong moment. Growth hacking may be the buzzword du jour, but initiatives to your business can fizzle quickly. Revenue and profitability won't protect you from layoffs. And venture capital always comes with strings attached. In *Lost and Founder* Fishkin reveals the mostly awful, sometimes awesome truth about startup culture with the transparency and humour that his hundreds of thousands of blog readers have come to love. Fishkin's hard-won lessons are applicable to any kind of business environment and this book can help solve your problems, and make you feel less alone for having them. ----- 'This is a truly courageous book. It's one part business-building guide and two parts Indiana Jones-style adventure memoir' Chris Guillebeau, author of *Side Hustle* and *The \$100 Startup* 'Rand Fishkin is like the industry friend we all wish we had - funny, warm, and refreshingly honest about the rollercoaster ride that is founding your own company' Julie Zhou, VP of Product Design at Facebook

## The Consequences of Modernity

John Wiley & Sons In this major theoretical statement, the author offers a new and provocative interpretation of the institutional transformations associated with modernity. We do not as yet, he argues, live in a post-modern world. Rather the distinctive characteristics of our major social institutions in the closing period of the twentieth century express the emergence of a period of 'high modernity,' in which prior trends are radicalised rather than undermined. A post-modern social universe may eventually come into being, but this as yet lies 'on the other side' of the forms of social and cultural organization which currently dominate world history. In developing an account of the nature of modernity, Giddens concentrates upon analyzing the intersections between trust and risk, and security and danger, in the modern world. Both the trust mechanisms associated with modernity and the distinctive 'risk profile' it

*produces, he argues, are distinctively different from those characteristic of pre-modern social orders. This book build upon the author's previous theoretical writings, and will be of fundamental interest to anyone concerned with Giddens's overall project. However, the work covers issues which the author has not previously analyzed and extends the scope of his work into areas of pressing practical concern. This book will be essential reading for second year undergraduates and above in sociology, politics, philosophy, and cultural studies.*

## Orwell's Roses

*Granta Books* *Roses, pleasure and politics: a fresh take on Orwell as an avid gardener, whose political writing was grounded in his passion for the natural world. 'I loved this book... An exhilarating romp through Orwell's life and times' Margaret Atwood 'Expansive and thought-provoking' Independent Outside my work the thing I care most about is gardening - George Orwell Inspired by her encounter with the surviving roses that Orwell is said to have planted in his cottage in Hertfordshire, Rebecca Solnit explores how his involvement with plants, particularly flowers, illuminates his other commitments as a writer and antifascist, and the intertwined politics of nature and power. Following his journey from the coal mines of England to taking up arms in the Spanish Civil War; from his prescient critique of Stalin to his analysis of the relationship between lies and authoritarianism, Solnit finds a more hopeful Orwell, whose love of nature pulses through his work and actions. And in her dialogue with the author, she makes fascinating forays into colonial legacies in the flower garden, discovers photographer Tina Modotti's roses, reveals Stalin's obsession with growing lemons in impossibly cold conditions, and exposes the brutal rose industry in Colombia. A fresh reading of a towering figure of the 20th century which finds solace and solutions for the political and environmental challenges we face today, Orwell's Roses is a remarkable reflection on pleasure, beauty, and joy as acts of resistance. 'Luminous...It is efflorescent, a study that seeds and blooms, propagates thoughts, and tends to historical associations' New Statesman 'A genuinely extraordinary mind, whose curiosity, intelligence and willingness to learn seem unbounded' Irish Times*

## River of Shadows

# Eadweard Muybridge and the Technological Wild West

*Penguin Winner of the National Book Critics Circle Award for Criticism and the Mark Lynton History Prize Through the story of the pioneering photographer Eadweard Muybridge, the author of *Recollections of My Nonexistence* explores what it was about California in the late 19th-century that enabled it to become such a center of technological and cultural innovation. The world as we know it today began in California in the late 1800s, and Eadweard Muybridge had a lot to do with it. This striking assertion is at the heart of Rebecca Solnit's new book, which weaves together biography, history, and fascinating insights into art and technology to create a boldly original portrait of America on the threshold of modernity. The story of Muybridge—who in 1872 succeeded in capturing high-speed motion photographically—becomes a lens for a larger story about the acceleration and industrialization of everyday life. Solnit shows how the peculiar freedoms and opportunities of post-Civil War California led directly to the two industries—Hollywood and Silicon Valley—that have most powerfully defined contemporary society.*

## Axel Honneth

*John Wiley & Sons With his insightful and wide-ranging theory of recognition, Axel Honneth has decisively reshaped the Frankfurt School tradition of critical social theory. Combining insights from philosophy, sociology, psychology, history, political economy, and cultural critique, Honneth's work proposes nothing less than an account of the moral infrastructure of human sociality and its relation to the perils and promise of contemporary social life. This book provides an accessible overview of Honneth's main contributions across a variety of fields, assessing the strengths and weaknesses of his thought. Christopher Zurn clearly explains Honneth's multi-faceted theory of recognition and its relation to diverse topics: individual identity, morality, activist movements, progress, social pathologies, capitalism, justice, freedom, and critique. In so doing, he places Honneth's theory in a broad intellectual context, encompassing classic social theorists such as Kant, Hegel, Marx, Freud, Dewey, Adorno and Habermas, as well as contemporary trends in social theory and political philosophy. Treating the full range of Honneth's corpus, including his major new work on social freedom and democratic ethical life, this book is the most up-to-date guide available. Axel Honneth will be invaluable to students and scholars working across the humanities and social sciences, as well as anyone seeking a clear guide to the work of one of the most influential theorists writing today.*

# A Book of Migrations

## Some Passages in Ireland

*Verso* Recounts the author's travels in Ireland, with reflections on the microcosm of Irish history, with its invasions, colonization, emigration, nomadism, and tourism

## Future War

*John Wiley & Sons* Will tomorrow's wars be dominated by autonomous drones, land robots and warriors wired into a cybernetic network which can read their thoughts? Will war be fought with greater or lesser humanity? Will it be played out in cyberspace and further afield in Low Earth Orbit? Or will it be fought more intensely still in the sprawling cities of the developing world, the grim black holes of social exclusion on our increasingly unequal planet? Will the Great Powers reinvent conflict between themselves or is war destined to become much 'smaller' both in terms of its actors and the beliefs for which they will be willing to kill? In this illuminating new book Christopher Coker takes us on an incredible journey into the future of warfare. Focusing on contemporary trends that are changing the nature and dynamics of armed conflict, he shows how conflict will continue to evolve in ways that are unlikely to render our century any less bloody than the last. With insights from philosophy, cutting-edge scientific research and popular culture, *Future War* is a compelling and thought-provoking meditation on the shape of war to come.

## The Eagle and the Dragon

## Globalization and European Dreams of Conquest in

# China and America in the Sixteenth Century

*John Wiley & Sons* In this important new book the renowned historian Serge Gruzinski returns to two episodes in the sixteenth century which mark a decisive stage in global history and show how China and Mexico experienced the expansion of Europe. In the early 1520s, Magellan set sail for Asia by the Western route, Cortes seized Mexico and some Portuguese based in Malacca dreamed of colonizing China. The Aztec Eagle was destroyed but the Chinese Dragon held strong and repelled the invaders - after first seizing their cannon. For the first time, people from three continents encountered one other, confronted one other and their lives became entangled. These events were of great interest to contemporaries and many people at the time grasped the magnitude of what was going on around them. The Iberians succeeded in America and failed in China. The New World became inseparable from the Europeans who were to conquer it, while the Celestial Empire became, for a long time to come, an unattainable goal. Gruzinski explores this encounter between civilizations that were different from one another but that already fascinated contemporaries, and he shows that our world today bears the mark of this distant age. For it was in the sixteenth century that human history began to be played out on a global stage. It was then that connections between different parts of the world began to accelerate, not only between Europe and the Americas but also between Europe and China. This is what is revealed by a global history of the sixteenth century, conceived as another way of reading the Renaissance, less Eurocentric and more in tune with our age.

## Statebuilding

*John Wiley & Sons* After civil wars end, what can sustain peace in the long-term? In particular, how can outsiders facilitate durable conflict-managing institutions through statebuilding - a process that historically has been the outcome of bloody struggles to establish the state's authority over warlords, traditional authorities, and lawless territories? In this book, Timothy Sisk explores international efforts to help the world's most fragile post-civil war countries today build viable states that can provide for security and deliver the basic services essential for development. Tracing the historical roots of statebuilding to the present day, he demonstrates how the United Nations, leading powers, and well-meaning donors have engaged in statebuilding as a strategic approach to peacebuilding after war. Their efforts are informed by three key objectives: to enhance security by preventing war recurrence and fostering community and human security; to promote development through state provision of essential services such as water, sanitation, and education; to enhance human rights and democracy, reflecting the liberal international order that reaffirms the principles of democracy and human rights, . Improving governance, alongside the state's ability to integrate social differences and manage

*conflicts over resources, identity, and national priorities, is essential for long-term peace. Whether the global statebuilding enterprise can succeed in creating a world of peaceful, well-governed, development-focused states is unclear. But the book concludes with a road map toward a better global regime to enable peacebuilding and development-oriented statebuilding into the 21st century.*

## Social Capital

*John Wiley & Sons Social capital is a principal concept across the social sciences and has readily entered into mainstream discourse. In short, it is popular. However, this popularity has taken its toll. Social capital suffers from a lack of consensus because of the varied ways it is measured, defined, and deployed by different researchers. It has been put to work in ways that stretch and confuse its conceptual value, blurring the lines between networks, trust, civic engagement, and any type of collaborative action. This clear and concise volume presents the diverse theoretical approaches of scholars from Marx, Coleman, and Bourdieu to Putnam, Fukuyama, and Lin, carefully analyzing their commonalities and differences. Joonmo Son categorizes this wealth of work according to whether its focus is on the necessary preconditions for social capital, its structural basis, or its production. He distinguishes between individual and collective social capital (from shared resources of a personal network to pooled assets of a whole society), and interrogates the practical impact social capital has had in various policy areas (from health to economic development). Social Capital will be of immense value to readers across the social sciences and practitioners in relevant fields seeking to understand this mercurial concept.*

## Recollections of My Non-Existence

*Granta Books In 1981, Rebecca Solnit rented a studio apartment in San Francisco, her home for the next twenty-five years. There she began the process of forging a voice in a society that preferred women to be silent. Liberated by West Coast activism, growing gay pride and punk rock, she broke through oppression and over time transformed into a writer and activist who speaks for the marginalised - galvanised to use her own voice for change. Recollections of My Non-Existence is the landmark memoir from a voice of a generation, and a rally cry for generations to come.*

## The Faraway Nearby

Granta Books *Gifts come in many guises. One summer, Rebecca Solnit was bequeathed three boxes of ripening apricots, which lay, mountainous, on her bedroom floor - a windfall, a riddle, an emergency to be dealt with. The fruit came from a neglected tree that her mother, gradually succumbing to memory loss, could no longer tend to. From this unexpected inheritance came stories spun like those of Scheherazade, who used her gifts as a storyteller to change her fate and her listener's heart. As she looks back on the year of apricots and emergencies, Solnit weaves her own story into fairytales and the lives of others - the Marquis de Sade, Mary Shelley and Ernesto 'Che' Guevara. She tells of unexpected invitations and adventures, from a library of water in Iceland to the depths of the Grand Canyon. She tells of doctors and explorers, monsters and moths. She tells of warmth and coldness, of making art and re-making the self.*

## Honour and Violence

*Polity* Anton Blok combines anthropology and history in a comparative exploration of the links between honour and violence in widely different settings. He draws on material from two interrelated projects: micro-studies of the rural mafia in Sicily, and banditry in the Dutch republic, each set in its historical context. Blok discusses the social role of marginal people, such as those in 'infamous occupations' from chimney-sweeping to prostitution, arguing that the most despised members of society are often the most indispensable. He examines how nicknames reflect and reflect on cultural codes, and how the authority of female rulers throughout the centuries has relied on their singleness. The book also includes studies of the social meanings of violence, including public executions, rural banditry, and the minor differences which underlie violent conflicts. Drawing on the work of thinkers from Georg Simmel to Norbert Elias, Anton Blok explores the complex interrelations between honour and violence in European societies. This highly original work will be of great interest to scholars and students of history, anthropology and sociology.

## Hold Still

## A Memoir with Photographs

*Back Bay Books* NATIONAL BOOK AWARD FINALIST ONE OF THE BEST BOOKS OF THE YEARThe New York Times, Washington Post, The San Francisco Chronicle, Vogue, NPR, Publishers Weekly, BookPage A revealing and beautifully written memoir and family history from

acclaimed photographer Sally Mann. In this groundbreaking book, a unique interplay of narrative and image, Mann's preoccupation with family, race, mortality, and the storied landscape of the American South are revealed as almost genetically predetermined, written into her DNA by the family history that precedes her. Sorting through boxes of family papers and yellowed photographs she finds more than she bargained for: "deceit and scandal, alcohol, domestic abuse, car crashes, bogeymen, clandestine affairs, dearly loved and disputed family land . . . racial complications, vast sums of money made and lost, the return of the prodigal son, and maybe even bloody murder." In lyrical prose and startlingly revealing photographs, she crafts a totally original form of personal history that has the page-turning drama of a great novel but is firmly rooted in the fertile soil of her own life.

## Abstraction Matters

### Contemporary Sculptors in Their Own Words

Cambridge Scholars Publishing *From the archaic funerary and sacred stones to the most recent three-dimensional objects, sculpture has been determined by a dualistic tension between the urge for imitation of natural forms (mimesis) and the desire to freely shape autonomous configurations (abstraction). Within such a complex history, the second half of the 20th century has been a particularly intense period. Besides their abstract works, many sculptors developed an extraordinarily rich theoretical discourse. This collection of essays presents some of the most eminent protagonists of this crucial historical moment by focusing on the artists' "own words". In their analysis, the contributors have followed three key-notions - "Sensation", "Idea", and "Language" - that fruitfully collect different artists under a common conceptual arch and show the aesthetic relevance of abstraction in sculpture. This book addresses high-level undergraduate and graduate students, as well as the scholarly community in the fields of aesthetics and art criticism, art history and art theory, visual, cultural and media studies.*

## Navigate Your Faith

### A Christian's Field Guide to Not Getting Lost

*What's the point of being a Christian anymore? Many Christians today are feeling unfulfilled in their walk with God, and they have no idea it's because of the little decisions they're making each day that are leading them into lives of compromise. In *Navigate Your Faith* Ron Pratt uses a fictional American family to expose how the enemy lures believers into prioritizing their own pleasure, entertainment, or career goals over their relationship with Christ. This erodes their passion for Jesus and causes them to become spiritually bored and have powerless Christian lives. Rather than claiming that God will approve of Christians no matter what they do, as some modern ministers do, *Navigate Your Faith* challenges readers to take a hard look at their lives and see if they're simply incorporating Jesus into their lifestyles or allowing Him to set them on a course of His choosing. With proven strategies to rebuild lost intimacy with God, this book will help Christians recognize the deceptive tactics of the enemy, break out of complacency, and make a greater impact on the world around them. This book will help you recognize and avoid the deception of today's nominal Christian culture.*

## Departure Stories

### Betty Crocker Made Matzoh Balls (and other lies)

*Indiana University Press* "We weren't religious per se. The most frequent mention of God in our house was my mother yelling 'Goddammit!'" *Elisa Bernick* grew up "different" (i.e., Jewish) in the white, Christian suburb of New Hope, Minnesota during the 1960s and early 1970s. At the center of her world was her mother, Arlene, who was a foul-mouthed, red-headed, suburban Samson who ultimately shook the walls of their family until it collapsed. Poignant and provocative, *Departure Stories* peers through the broader lens of Minnesota's recent history to reveal an intergenerational journey through trauma that unraveled the Bernick family and many others. Deftly interweaving reporting, archival material, memoir, jokes, scrapbook fragments, personal commentary, and one very special Waikiki Meatballs recipe, Bernick explores how the invisible baggage of place and memory, Minnesota's uniquely antisemitic history, and the cultural shifts of feminism and changing marital expectations contributed to her family's eventual implosion. *Departure Stories: Betty Crocker Made Matzoh Balls (and other lies)* is a personal exploration of erasure, immigrants, and exiles that examines the ways departures—from places, families and memory—have far-reaching effects.
