GREEN DEEN

WHAT ISLAM TEACHES ABOUT PROTECTING THE PLANET

Berrett-Koehler Publishers A Muslim environmentalist explores the fascinating intersection of environmentalism and Islam. Muslims are compelled by their religion to praise the Creator and to care for their community. But what is not widely known is that there are deep and long-standing connections between Islamic teachings and environmentalism. In this groundbreaking book, Ibrahim Abdul-Matin draws on research, scripture, and interviews with Muslim Americans to trace Islam's preoccupation with humankind's collective role as stewards of the Earth. Abdul-Matin points out that the Prophet Muhammad declared "the Earth is a mosque." Using the concept of Deen, which means "path" or "way" in Arabic, Abdul-Matin offers dozens of examples of how Muslims can follow, and already are following, a Green Deen in four areas: "waste, watts (energy), water, and food."
