YouTube: An Insider's Guide to Climbing the Charts

"O'Reilly Media, Inc." **Want to make a splash on YouTube? Even go viral? You've come to the right place. This book is written by two veteran 'Tubers who live their art and know what they're talking about -- especially Alan Lastufka, a.k.a. "falofautumndistro," who has over 13,000 YouTube subscribers and over 4 million views. Alan and co-author Michael W. Dean show you how to make a quality video, and how to optimize, encode, upload, and promote it. This book can't promise you'll be rich and famous, but it can tell you how to make great video art, and what you need to do to get your work seen. You'll learn about: Storytelling and directing Shooting, editing, and rendering Creating your very own channel Broadcasting user-generated content Re-broadcasting commercial content Cultivating a devoted audience Fitting into the YouTube community Becoming a success story Join Alan, who makes part of his living from YouTube,**

and Michael, a successful filmmaker, author, and D.I.Y. art pioneer. They'll take you from the basics of gear to making it big on YouTube, with a focus on networking and interaction. You'll also sit in on informative interviews with YouTube stars LisaNova, Hank Green (vlogbrothers), WhatTheBuckShow, nalts, and liamkylesullivan. Alan and Michael understand viral marketing -- and they know what it takes to get your work on everyone's YouTube radar. And, once you read this book, so will you.

The Complete Guide to Digital Photography

Sterling Publishing Company, Inc. An illustrated introduction to digital photography, examining hardware such as cameras, computers, scanners, and printers and the relationship between them; looking at image-editing software, tools, and techniques; featuring step-by-step instructions for taking professional-quality photographs; and discussing special-effects options.

Handbook of Research on Globalized Agricultural Trade and New Challenges for Food Security

IGI Global Free trade promotes economic growth through international competition and the efficient allocation of resources while also helping to stabilize food supplies between countries that have an overabundance of product and countries that have a shortage. However, sudden price surges can threaten the social cohesion of developing countries and may lead to malnutrition and stunted growth. Balancing trade liberalization and protectionism is imperative for the provision of food security for all. The Handbook of Research on Globalized Agricultural Trade and New Challenges for Food Security is an essential publication that seeks to improve food security, food independence, and food sovereignty in the conditions of globalized agricultural trade and addresses the contemporary issues of agricultural trade including major commodities and food products traded between major countries, directions of trade, and trends. The book also examines the effects of tariff escalations, administrative restrictions, other forms of trade protectionism on food security, and the emerging trade tensions between major actors such as the US, China, the EU, and Russia. Featuring research on topics including plant fertility, dietary diversity, and protectionism, this book is ideally designed for government officials, policymakers, agribusiness managers, stakeholders, international tradesmen, researchers,

industry professionals, academicians, and students.

Global Production and Consumption of Fast Food and Instant Concentrates

IGI Global **Globalization and industrialization have caused serious changes to the food and services markets, which have led to an increase in the consumption of fast food in the daily diet. Annually, the number of fast-food restaurants increases and volumes of the industrial production of fast-food products grow. The systematic consumption of fast food has many risks, such as developing alimentary diseases and serious chronic illnesses. This increasing consumption is a critical problem as younger generations are primary consumers of fast food. Global Production and Consumption of Fast Food and Instant Concentrates compares healthy and fast foods, considers an ecological-hygienic assessment of the impact of fast food on the body in observations of people and in experiments in vivo, and discusses key questions of the interrelation of food and health. Covering topics such as nutrition and food culture, it is ideal for food industry professionals, scientists, medical professionals, researchers, academicians, practitioners, instructors,**

and students.

Plant Science

Structure, Anatomy and Physiology in Plants Cultured in Vivo and in Vitro

BoD - Books on Demand **Over seven chapters, this book helps readers to integrate knowledge of plant anatomy, physiology, and morphogenesis as well as consider the conditions of the different environments to which plants are exposed. It highlights the importance of knowledge of the anatomy of plant tissues for different applications. In addition to the variety of physiological studies presented here, the book also emphasizes anatomical studies in botanical quality control of medicinal herbs with human health benefits. It is reflected in this book that studies on plant structure have greatly benefited from the new approaches and techniques available today.**

Automation 2018

Advances in Automation, Robotics and Measurement Techniques

Springer This book consists of papers presented at Automation 2018, an international conference held in Warsaw from March 21 to 23, 2018. It discusses the radical technological changes occurring due to the INDUSTRY 4.0, with a focus on offering a better understanding of the Fourth Industrial Revolution. Each chapter presents a detailed analysis of interdisciplinary knowledge, numerical modeling and simulation as well as the application of cyber-physical systems, where information technology and physical devices create synergic systems leading to unprecedented efficiency. The theoretical results, practical solutions and guidelines presented are valuable for both researchers working in the area of engineering sciences and practitioners looking for solutions to industrial problems.

I Wanna Take Me a Picture

Teaching Photography and Writing to Children

Beacon Press Acclaimed photographer Wendy Ewald has worked with children around the world, using photography to enable them to express what they think and feel. *I Wanna Take Me a Picture* is an accessible and practical guide to getting children involved in photography. It uses basic assignments—self-portraiture, family portraiture, community, and dreams—to teach everything from framing and point of view to how to set up a darkroom and develop film. "Ms. Ewald was one of the first—and remains the most committed—artists to bring photography into the lives of children who have little else."—Taylor Holliday, *The Wall Street Journal*

Beethoven and His World

A Biographical Dictionary

Oxford University Press on Demand **Following the author's acclaimed biographical dictionaries on Schubert and Mozart, 'Beethoven and His World' offers an extremely comprehensive and up-to-date survey of the composer's relations with a multitude of persons with whom he associated on a personal or professional basis: relatives, friends, acquaintances, librettists, poets, publishers, artists, patrons, and musicians. With more than 450 entries, the dictionary is the result of a wide-ranging examination of primary and secondary sources, and critically assesses the use which scholars have made of the considerable documentation now available. In particular, there are numerous references to Beethoven's**

correspondence and conversation books, which have recently been published in excellent new editions. The book places the composer and his music in a fuller context and a wider perspective than might be possible in a traditional biography; it will appeal to all music lovers, both the scholar and the non-specialist alike.
