There are mainly two types of GST viz. Central GST and State GST. For transaction within a State, there are two components of GST Central GST (CGST) and State GST (SGST) being levied on the value of goods and services. In case of inter-state transactions, the Centre would levy and collect the Integrated GST (IGST). The IGST would roughly be equal to CGST plus SGST. Central Government levied CGST for intra-State supply and IGST for inter-State supply. State Governments including Union Territories with legislatures levied SGST or Union territories without legislatures levied UTGST for intra-State supply. The Goods and Services Tax (GST) has simplified indirect tax in India. Previously, the indirect tax structure comprises of so many different taxes levied by the Central Government (Central Excise duty, Additional duties of excise, Additional duties of customs, Service Tax) and taxes levied by the various State Governments (State VAT / Sales Tax, Central Sales Tax, Purchase Tax, Entertainment Tax, Luxury Tax, Entry Tax, Taxes on lottery, betting & gambling). But now almost all Indirect Taxes unified as GST across the country on Goods and Services. However, Basic Customs Duty, Export Duty, Toll Tax, Road and Passenger Tax, Electricity Duty, Stamp Duty and Property Tax has not been subsumed in GST. Auth n Capture Introduction to India's Digital Payments Ecosystem Notion Press FinTech, especially digital payments, is a fascinating space. More than trillion dollars' worth of digital payments are done, and we are 'just getting started'. Online payments space is attractive and intriguing to many. A young graduate wants to build a career in this domain, a user wants to know how payments are done and a merchant wants to know the processes. Just like India, full of diversity, even India's payments ecosystem is full of different types of payment instruments, payment service providers, and solutions that adhere to complex processes while getting constantly shaped and re-shaped by Government, RBI, new business models, and other market forces. One can refer RBI website or read Visa documents or NPCI's product specs to learn. But those documents are far too technical and loaded with heavy jargons. The blogs of the FinTech companies are more like sales pitches than giving neutral understanding about the topic. How can one go about learning about this domain? I had that question when I started my career in FinTech. Over the years, I learnt from others and from experience. Based on my learnings, I started a blog 'Auth n Capture'. After more than 2 years and ~60 articles later, here I am writing this book. This book is a beginner's guide for FinTech enthusiasts and professionals to understand the basics of India's payments ecosystems.
