COLLEGE ADMISSIONS TRADE SECRETS

A TOP PRIVATE COLLEGE COUNSELOR REVEALS THE SECRETS, LIES, AND TRICKS OF THE COLLEGE ADMISSIONS PROCESS

iUniverse True or False: Princeton's Director of Admissions hacked into Yale's secured admissions website to find out who Yale had accepted and rejected. Boston College's average SAT score is up to 1370 and Boston University's average SAT score is up to 1320. Carnegie Mellon offers spots on a priority wait-list to students who send in cash and most of these students get admitted. Well, it's all true. An FBI investigation traced Yale's hacked website back to the computer of Princeton's Director of Admissions, Stephen LeMenager. Boston College's average SAT score is the same as Cornell's and close to Penn's (both Ivies). Carnegie Mellon does have a "priority" wait-list-it costs \$400 to be on it and the admissions rate is 95%. Welcome to the circus. Dazed and Confused. Students see the college list published by their high school's guidance department listing every acceptance and rejection from the prior year. Next to each entry is a GPA, a SAT score and the number of AP classes taken. The list is usually ordered from highest to lowest GPA. The first entry: 4.19 (unweighted), 1430 SAT, 7 AP classes, Princeton-rejected, Yale-rejected, Harvard-rejected, Stanford-rejected, Columbia-rejected, Vassar-accepted. Ouch. Scan down the list looking for Yale. Did anyone get into Yale last year? Down at the ninth entry: 3.93, 1450 SAT, 6 AP classes, Brown-accepted, Yale-accepted, Georgetown-accepted. Okay, anyone else? Scan down to the twenty-second entry: 3.88, 1560 SAT, 7 AP classes, Yale-accepted, Duke-accepted, William and Mary-rejected. This doesn't make any sense, thinks the student. Many of the students with the best grades didn't get into any top colleges and still others were rejected at colleges ranked lower than the colleges to which they were accepted. WHY "GETTING IN" STARTS WITH YOUR RESUME

Xlibris Corporation If you are preparing to apply to colleges and universities in the United States you need this book! College is one of the most expensive investment students will make. Therefore, helping students find the right college for them not only makes for happy students, but helps parents feel more confident about the result. College is not only a big decision that students have to make, but it is also the foundation of their future success. Students and parents are discovering that schools that a few years ago were considered second- and even third-tier schools have elevated their standards significantly. With substantially more students applying, and in some cases fewer spots available, for the select colleges across the country, schools are demanding higher grades and have higher test score criteria, which seemingly place college out of reach. The applicant pool changes annually, thus nothing is carved in stone as to which students are accepted and which are not. However, the best chance of getting in to the school of your choice is to display your passion as to where you are headed in life, starting in 9th grade. High school seniors and college transfer students know how difficult it is to get into the top-tier colleges today. Creating a persuasive, eye-catching application requires creativity, foresight, and a marketable presentation as to what you can offer that will attract schools. That is why the process has to start with a resume. The student applying to college today must show schools why they are different from every other student applying. If you showcase your abilities through the development of a talented resume and a strong essay, admissions committees will have no choice but to fall in love with you! Students must figure out how best to present themselves to admissions committees; difficulties arise when students begin feeling anxiety, their parents begin applying real or perceived pressure, and the student crumbles. The book addresses how to explore your talents, skills, and aspirations to create a picture of who you are; how to identify the schools that are right for you; how to determine which type of application to submit (early action vs. early decision, binding vs. non-binding); exercises to help determine what you can bring to a college or university that will create interest; ideas for essay topics, a step-by-step guide to writing a college application essay, and sample essays to get your creative juices flowing; techniques you can use in the interview to convince admissions committees you are the right candidate for their schools; how to put your summers and out-of-school time to beneficial use (with internships, jobs and/or community service); and more. Students who fall under The DREAM Act and Student Adjustment Act will have an opportunity to understand this favorable bi-partisan legislation and the benefits it offers them and their communities. This section also includes a listing of various grants, loans, and scholarships for which students can apply. Colleges and universities across America have one goal: to get the best students that fit within their ideals, thoughts, and personality.
