## AUTO REPAIR FOR DUMMIES

---

---

*John Wiley & Sons* Auto Repair For Dummies, 2nd Edition (9781119543619) was previously published as Auto Repair For Dummies, 2nd Edition (9780764599026). The top-selling auto repair guide--400,000 copies sold--now extensively reorganized and updated Forty-eight percent of U.S. households perform at least some automobile maintenance on their own, with women now accounting for one third of this \$34 billion automotive do-it-yourself market. For new or would-be do-it-yourself mechanics, this illustrated how-to guide has long been a must and now it's even better. A complete reorganization now puts relevant repair and maintenance information directly after each automotive system overview, making it much easier to find hands-on fix-it instructions. Author Deanna Sclar has updated systems and repair information throughout, eliminating discussions of carburetors and adding coverage of hybrid and alternative fuel vehicles. She's also revised schedules for tune-ups and oil changes, included driving tips that can save on maintenance and repair costs, and added new advice on troubleshooting problems and determining when to call in a professional mechanic. For anyone who wants to save money on car repairs and maintenance, this book is the place to start. Deanna Sclar (Long Beach, CA), an acclaimed auto repair expert and consumer advocate, has contributed to the Los Angeles Times and has been interviewed on the Today show, NBC Nightly News, and other television programs.

## POGGIO CIVITATE (MURLO)

---

*University of Texas Press* **Poggio Civitate in Murlo, Tuscany, is home to one of the best-preserved Etruscan communities of the eighth through the sixth centuries BCE. In this book, Anthony Tuck, the director of excavations, provides a broad synthesis of decades of data from the site. The results of many years of excavation at Poggio Civitate tell a story of growth, urbanization, ancient industrialization, and dissolution. The site preserves traces of aristocratic domestic buildings, including some of the most evocative and enigmatic architectural sculpture in the region, along with remnants of non-elite domestic spaces, enabling illuminating comparisons across social strata. The settlement also features evidence of large-scale production systems, including tools and other objects that reflect the daily experiences of laborers. Finally, the site contains the story of its own destruction. Tuck finds in the data clear indications that Poggio Civitate was methodically dismantled, and he posits hypotheses concerning the circumstances around this violent social and political act.**
