CIMA Official CIMA Publishing Organising For Success CIPD Publishing Performance Drivers A Practical Guide to Using the Balanced Scorecard John Wiley & Sons A Practical Guide to Using the Balanced Scorecard performance drivers Nils-Goran Olve, Jan Roy and Magnus Wetter Since the groundbreaking work of Robert S. Kaplan and David P. Norton, the concept of the Balanced Scorecard has achieved increasing popularity in the business world. Previously, many organizations had built their business objectives around financial targets and goals that bore little relation to a long-term strategic vision. Typically, this leaves a gap between the development of a company's strategy and its implementation. The business scorecard, however, provides a more 'balanced view' by looking at not just-financial concerns, but also customers, internal business processes, and learning and growth. But it is not just a system of performance measurement - by focusing on future potential success it can be used as a dynamic management system that reinforces, implements and drives corporate strategy forward. In this book, the authors draw on their extensive experience with scorecard projects to provide a step-by-step method for introducing the Balanced Scorecard into an organization. This is done through the use of some of the most important practical examples in existence, with case studies from ABB, Coca Cola, Electrolux, British Telecom, Nat West, Skandia and Volvo. The desired strategic control system using scorecards that is presented focuses on creating and communicating a total comprehensive picture to all members of the organization from the top down, a long-term view of what the company's strategic objectives really are, how to make use of knowledge gained through experience and the required flexibility of such a system to cope with the fast-changing business environment. This book will provide senior and operational managers, consultants and business academics with a comprehensive view of emerging Balanced Scorecard practice supported by both business advice and a theoretical foundation. Reflections on the relations between the Balanced Scorecard and other areas, such as TQM, information systems and intellectual capital and knowledge management are also made. P2 ADVANCED MANAGEMENT ACCOUNTING - EXAM PRACTICE KIT P1 MANAGEMENT ACCOUNTING - EXAM PRACTICE KIT [CIMA Publishing](#) Is Law for You? Deciding If You Want to Study Law ACCA STRATEGIC BUSINESS LEADER Workbook Accounting in a Nutshell Accounting for the non-specialist [Elsevier](#) Designed primarily for middle and junior management who deal with financial information without really understanding the content; students who are studying accounting as a non-specialist subject, for example on a business studies or engineering course. The book serves as a basic reference to be used throughout the course. It will also be particularly helpful in providing the basic grounding that is required before moving on to the more technical and in-depth study of the subject that may be required on some courses. Students who are embarking on a course of study to become a professional accountant will also find this book of major benefit. In addition to revisions through out, a new new chapter 'Making long-term investment decisions' covering capital investment decisions, extends and rounds out the final part of the book: using Financial Information to Manage a Business. The chapter deals with the investment appraisal process and covers the main investment appraisal techniques from the point of view of a non-specialist: payback periods, accounting rate of return and discounted cash flow methods are just some of the new topics covered. The focus will be on the level of understanding that a non-specialist requires in the work place as such, in keeping with the rest of the book, the chapter includes practical examples and exercises to enhance the reader's understanding. * Jargon free and easy to understand - no prior knowledge of the subject necessary * Focuses on the principles and use of accounting information * Review questions to assess progress at each stage and many fully worked exercises and examples Performance Attribution: History and Progress [CFA Institute Research Foundation](#) The objective of performance attribution is to explain portfolio performance relative to a benchmark, identify the sources of excess return, and relate those sources to active decisions by the portfolio manager. This review charts the development of attribution from its beginning with Fama decomposition in the 1970s, through its foundations in the 1980s, into its issues of multiperiod and multicurrency attribution in the 1990s, and ending on its more detailed models for fixed-income and risk-adjusted attribution in recent years. Types of attribution (including returns based, holdings based, and transaction based) are also discussed as is money-weighted attribution and developments associated with notional funds. Sustainability Accounting and Reporting [Springer Science & Business Media](#) This is the fourth in a series publishing the best contributions on environmental management accounting (EMA) from around the world. This volume brings together international examples of leading thinking and practice in this rapidly developing area. This is the most comprehensive volume to date covering theory, practice and case studies on sustainability accounting and reporting. It covers tools, frameworks, concepts as well as case studies and empirical analysis. Get to the Point How to Write Well at Work Writing is one of the key factors in professional success.
