Export and Import Price Index Manual Theory and Practice International Monetary Fund A joint production by six international organizations, this manual explores the conceptual and theoretical issues that national statistical offices should consider in the daily compilation of export and import price indices. Intended for use by both developed and developing countries, it replaces guidance from the United Nations that is now more than a quarter-century old and thus badly outdated. The chapters cover many topics; they elaborate on the different practices currently in use, propose alternatives whenever possible, and discuss the advantages and disadvantages of each alternative. Given its comprehensive nature, the manual is expected to satisfy the needs of many users in addition to national statistical offices and international organizations, particularly businesses, policymakers, and researchers. **Export and Import Price Index Manual: Theory and Practice** OECD Publishing A joint production by six international organizations, this manual explores the conceptual and theoretical issues that national statistical offices should consider in the daily compilation of export and import price indices. Intended for use by both ... **Consumer Price Index Manual Theory and Practice** International Labour Organization The consumer price index (CPI) measures the rate at which prices of consumer goods and services change over time. It is used as a key indicator of economic performance, as well as in the setting of monetary and socio-economic policy such as indexation of wages and social security benefits, purchasing power parities and inflation measures. This manual contains methodological guidelines for statistical offices and other agencies responsible for constructing and calculating CPIs, and also examines underlying economic and statistical concepts involved. Topics covered include: expenditure weights, sampling, price collection, quality adjustment, sampling, price indices calculations, errors and bias, organisation and management, dissemination, index number theory, durables and user costs. **Consumer Price Index Manual, 2020 Concepts and Methods** INTERNATIONAL MONETARY FUND The Consumer Price Index Manual: Concepts and Methods contains comprehensive information and explanations on compiling a consumer price index (CPI). The Manual provides an overview of the methods and practices national statistical offices (NSOs) should consider when making decisions on how to deal with the various problems in the compilation of a CPI. The chapters cover many topics. They elaborate on the different practices currently in use, propose alternatives whenever possible, and discuss the advantages and disadvantages of each alternative. The primary purpose of the Manual is to assist countries in producing CPIs that reflect internationally recommended methods and practices. **The System of Macroeconomic Accounts Statistics An Overview** International Monetary Fund Designed to meet the basic needs of economists and statisticians, this pamphlet is unique in providing an explanation of the key principles underlying macroeconomic statistics when viewed as an integrated system. It highlights the interrelationships between the various sectors and provides a bridge linking the various macroeconomic accounts statistics-national accounts, balance of payments, government finance statistics, and monetary and financial statistics-to assist the reader in understanding the main concepts underlying these statistics. It does so by simplifying many of the concepts, explaining common features and differences, showing how the four key statistical areas harmonize, and providing examples to demonstrate the practical application and uses of the concepts within the conceptual framework. The pamphlet completely updates Pamphlet No. 29, Macroeconomic Accounts: An Overview, by Poul Hølst-Madsen, which was published in 1985. **A Manual on Statistics of International Trade in Services** International Monetary Fund The Manual sets out an internationally agreed framework for the compilation and reporting of statistics on international trade in services in the broad sense. It addresses the growing need, including in international trade negotiations and agreements, for more detailed, comparable, and comprehensive statistics on this type of trade in its various forms. The recommendations will enable countries to progressively expand and structure the information they compile in an internationally comparable way. The Manual conforms with and explicitly relates to the System of National Accounts 1993 and the fifth edition of the IMF's Balance of Payments Manual. It is published jointly by the United Nations, European Union, IMF, OECD, UNCTAD, and World Trade Organization. **Compilation Manual for an Index of Services Production** OECD Publishing The OECD Compilation Manual for Index of Services Production contains guidelines and methodologies to measure short-term production activities of the services sector by national agencies and international organisations. **A Practical Guide to Trade Policy Analysis** This Guide to Trade Policy Analysis provides the main tools for the analysis of trade policy. Written by experts with practical experience in the field, this publication outlines the major concepts of trade policy analysis and contains practical guidance on how to apply them to concrete policy questions. The Guide has been developed to contribute to the enhancement of developing countries' capacity to analyse and implement trade policy. It is aimed at government experts engaged in trade negotiations, as well as students and researchers involved in trade-related study or research. **Eurostat-OECD Methodological Manual on Purchasing Power Parities (2012 Edition)** OECD Publishing This manual gives a complete, detailed and up-to-date description of the Eurostat-OECD PPP Programme, including its organisation, the various surveys carried out by participating countries and the ways PPPs are calculated and disseminated. It also provides guidance on the use of PPPs. **IMF Research Bulletin Price Index Concepts and Measurement** University of Chicago Press Although inflation is much feared for its negative effects on the economy, how to measure it is a matter of considerable debate that has important implications for interest rates, monetary supply, and investment and spending decisions. Underlying many of these issues is the concept of the Cost-of-Living Index (COLI) and its controversial role as the methodological foundation for the Consumer Price Index (CPI). Price Index Concepts and Measurements brings together leading experts to address the many questions involved in conceptualizing and measuring inflation. They evaluate the accuracy of COLI, a Cost-of-Goods Index, and a variety of other methodological frameworks as the bases for consumer price construction. **Export-import Theory, Practices, and Procedures** Taylor & Francis Export-Import Theory, Practices, and Procedures is the first book on the market to truly serve the needs of the academic/professional audience, going beyond the usual soft coverage of international trade operations. Discussing theoretical issues in depth, such as the role of exports/imports in the global economy and pertinent regulatory and policy issues, this innovative text offers comprehensive explorations of import processes as well as export activities and incorporates the most relevant and current research information in these areas. New to this edition are important discussions of trends in regional integration agreements, international transfer pricing, terms of sale, US export regulations, export financing programs, and more Expanded coverage in this edition of topics such as taxation of international trade operations, export counseling, export channels of distribution, export sales contracts, transportation, import procedures and techniques and more Other topics include: Exploration of trade agreements such as the GATT/WTO, NAFTA, and the European Economic Community (EEC), and how they affect trade In-depth treatment of investment and intellectual property policies, rules on government procurements, safeguard, and services of NAFTA Documentation, risks, and different forms of insurance, as well as assessing the risks of foreign trade Price setting in international trade, export sales contracts, exchange rates, methods of payment for exporting and importing goods, the benefits and theories of countertrade, the entry process for imports, and import relief to domestic industry Export-Import Theory, Practices, and Procedures, Second Edition combines an innovative conceptual and theoretical approach, a deep and broad analytical treatment, and an engaging and accessible presentation style to offer one of the most useful textbooks on the market for students and practitioners alike. Guidelines contain recommendations on key methodological issues that impact various dimensions of the quality of those indicators, including their periodicity, timeliness, accessibility, accuracy and coherence. The report also offers guidelines on the provision of methodological information (metadata) by national agencies. The overall aim of this publication is to help national agencies develop the capacity to compile priority short-term and other economic indicators in accordance with existing international statistical standards and recommended practice."--Page vii **Occupational Outlook Handbook Understanding Economic Statistics: An OECD Perspective** OECD Publishing Drawing on OECD statistics in particular, 'Understanding Economic Statistics: an OECD perspective' shows readers how to use statistics to understand the world economy. It gives an overview of the history, key concepts and the main providers of economic statistics. **An Advanced Guide to Trade Policy Analysis The Structural Gravity Model** An Advanced Guide to Trade Policy Analysis provides the most recent tools for analysis of trade policy using structural gravity models. **Handbook on Deriving Capital Measures of Intellectual Property Products** OECD Publishing This handbook considers intellectual property products (IPPs) collectively by type and detailed transaction in order that estimates for national accounts valuations be comparable across countries. **Eurostat-OECD Methodological Guide for Developing Producer Price Indices for Services** OECD Publishing Complements the International Producer Price Index Manual (PPI Manual) published by the IMF in 2004, by adding detailed descriptions of PPI measurement in a series of specific service industries. **Monthly Bulletin Quarterly National Accounts Manual Concepts, Data Sources, and Compilation** International Monetary Fund This Manual provides guidance to compilers of national accounts on the concepts, data sources, and compilation methods required for development of a system of quarterly national accounts. More and more countries are recognizing that quarterly national accounts are an essential tool for management and analysis of their economy. The Manual is intended particularly for compilers who already have a knowledge of annual national accounting concepts and methods, and provides techniques for the development of a consistent time series of annual and quarterly accounts. It serves as a complement to the System of National Accounts 1993, which has only a limited discussion of quarterly accounts, and will also prove useful as a tool for sophisticated users of quarterly national accounts. **Understanding National Accounts Second Edition Second Edition** OECD Publishing This is an update of OECD 2006 "Understanding National Accounts". It contains new data, new chapters and is adapted to the new systems of national accounts, SNA 2008 and ESA 2010. **International Merchandise Trade Statistics Concepts and Definitions 2010** United Nations Publications This edition provides a comprehensive methodological framework for collection and compilation of international merchandise trade statistics in all countries, irrespective of the level of development of their statistical system. The conceptual framework reflects both the multipurpose nature of these statistics and concern for availability of the adequate data sources and data compilation procedures. It is intended primarily for the producers of international trade statistics, particularly the staff of national statistical offices and/or customs involved in the collection and compilation of merchandise trade statistics, but may be also useful to researchers and other users interested in better understanding the nature of trade statistics. **World Development Indicators 2014** World Bank Publications World Development Indicators (WDI) is the World Bank's premier annual compilation of data about development. This year's print edition and e-book have been redesigned to allow users the convenience of easily linking to the latest data on-line. **Measuring the Real Size of the World Economy The Framework, Methodology, and Results of the International Comparison Program (ICP)** World Bank Publications This volume provides a comprehensive review of the statistical theory and methods underlying the estimation of purchasing power parities (PPPs) and real expenditures, the choices made for the 2005 International Comparison Program (ICP) round, and the lessons learned that led to improvements in the 2011 ICP. **Measuring the Non-Observed Economy: A Handbook** OECD Publishing This essential Handbook makes underground, hidden, grey economies intelligible and consistently quantifiable. An invaluable tool for statistics producers and users and researchers, the book explains how the non-observed economy can be measured and ... **A Basic Guide to Exporting** Simon and Schuster Here is practical advice for anyone who wants to build their business by selling overseas. The International Trade Administration covers key topics such as marketing, legal issues, customs, and more. With

real-life examples and a full index, *A Basic Guide to Exporting* provides expert advice and practical solutions to meet all of your exporting needs. **Toward a More Accurate Measure of the Cost of Living Final Report to the Senate Finance Committee A Manual on Statistics of International Trade in Services** International Monetary Fund The Manual sets out an internationally agreed framework for the compilation and reporting of statistics on international trade in services in the broad sense. It addresses the growing need, including in international trade negotiations and agreements, for more detailed, comparable, and comprehensive statistics on this type of trade in its various forms. The recommendations will enable countries to progressively expand and structure the information they compile in an internationally comparable way. The Manual conforms with and explicitly relates to the System of National Accounts 1993 and the fifth edition of the IMF's Balance of Payments Manual. It is published jointly by the United Nations, European Union, IMF, OECD, UNCTAD, and World Trade Organization. **European System of Accounts ESA 2010 Asia and Global Production Networks Implications for Trade, Incomes and Economic Vulnerability** Edward Elgar Publishing This timely book deploys new tools and measures to understand how global production networks change the nature of global economic interdependence, and how that in turn changes our understanding of which policies are appropriate in this new environment. **The Future of Productivity** OECD Publishing This book addresses the rising productivity gap between the global frontier and other firms, and identifies a number of structural impediments constraining business start-ups, knowledge diffusion and resource allocation (such as barriers to up-scaling and relatively high rates of skill mismatch). **The Rice Crisis Markets, Policies and Food Security** Routledge The recent escalation of world food prices – particularly for cereals – prompted mass public indignation and demonstrations in many countries, from the price of tortilla flour in Mexico to that of rice in the Philippines and pasta in Italy. The crisis has important implications for future government trade and food security policies, as countries re-evaluate their reliance on potentially more volatile world markets to augment domestic supplies of staple foods. This book examines how government policies caused and responded to soaring world prices in the particular case of rice, which is the world's most important source of calories for the poor. Comparable case studies of policy reactions in different countries, principally across Asia, but also including the USA, provide the understanding necessary to evaluate the impact of trade policy on the food security of poor farmers and consumers. They also provide important insights into the concerns of developing countries that are relevant for future international trade negotiations in key agricultural commodities. As a result, more appropriate policies can be put in place to ensure more stable food supplies in the future. Published with the Food and Agriculture (FAO) Organization of the United Nations **Advanced International Trade Theory and Evidence - Second Edition** Princeton University Press Trade is a cornerstone concept in economics worldwide. This updated second edition of the essential graduate textbook in international trade brings readers to the forefront of knowledge in the field and prepares students to undertake their own research. In *Advanced International Trade*, Robert Feenstra integrates the most current theoretical approaches with empirical evidence, and these materials are supplemented in each chapter by theoretical and empirical exercises. Feenstra explores a wealth of material, such as the Ricardian and Heckscher-Ohlin models, extensions to many goods and factors, and the role of tariffs, quotas, and other trade policies. He examines imperfect competition, offshoring, political economy, multinationals, endogenous growth, the gravity equation, and the organization of the firm in international trade. Feenstra also includes a new chapter on monopolistic competition with heterogeneous firms, with many applications of that model. In addition to known results, the book looks at some particularly important unpublished results by various authors. Two appendices draw on index numbers and discrete choice models to describe methods applicable to research problems in international trade. Completely revised with the latest developments and brand-new materials, *Advanced International Trade* is a classic textbook that will be used widely by students and practitioners of economics for a long time to come. Updated second edition of the essential graduate textbook *Current approaches and a new chapter on monopolistic competition with heterogeneous firms* Supplementary materials in each chapter Theoretical and empirical exercises Two appendices describe methods for international trade research **Potential Exports and Nontariff Barriers to Trade Bhutan National Study** Asian Development Bank This publication explores how Bhutan could boost its exports by addressing nontariff barriers to trade. It focuses on sanitary and phytosanitary measures and technical barriers to trade, and on export products that have the potential to increase their market share in Bangladesh, India, Maldives, Nepal, and Sri Lanka. It considers options including legal reforms, the upgrade of quality standards and laboratory equipment, and institution building of accrediting bodies and conformity assessment bodies. Practical recommendations suggest ways forward for both the public and private sectors. **World Food and Agriculture - Statistical Yearbook 2020** Food & Agriculture Org. This publication offers a synthesis of the major factors at play in the global food and agricultural landscape. Statistics are presented in four thematic chapters, covering the economic importance of agricultural activities, inputs, outputs and factors of production, their implications for food security and nutrition and their impacts on the environment. The Yearbook is meant to constitute a primary tool for policy makers, researchers and analysts, as well as the general public interested in the past, present and future path of food and agriculture. **UNCTAD Handbook of Statistics 2019** United Nations This publication was first launched in 1967. Over the past 50 years, the handbook has evolved to incorporate new statistics and ensure that readers have access to the best possible information available. This edition continues in this tradition and introduces 'nowcasted' estimates for total merchandised trade, total services trade and GDP on a worldwide basis. **Eurostat-OECD Methodological Guide for Developing Producer Price Indices for Services Second Edition** Second Edition OECD Publishing This second edition of the SPPI Guide develops further the conceptual framework and adds detailed descriptions of PPI measurement for a wide range of individual service industries. **Balance of Payments Compilation Guide** International Monetary Fund A companion document to the fifth edition of the Balance of Payments Manual, the Balance of Payments Compilation Guide shows how the conceptual framework described in the Manual may be implemented in practice. The primary purpose of the Guide is to provide practical guidance for using sources and methods to compile statistics on the balance of payments and the international investment position. The Guide is designed to assist balance of payments compilers and statisticians in understanding the relative strengths and weaknesses of various approaches. The material reflects the emergence of new data sources and adaptations in the application of statistical methodologies to changing circumstances. Discussed in the Guide are all of the tasks that a BOP compiler normally performs. Appendices contain a set of model BOP questionnaires and a set of model BOP publication tables. Relationships between the balance of payments statistics and relevant aspects of national accounts are covered as well. **Unctad Handbook of Statistics 2020** UN First launched in 1967 this handbook has evolved to incorporate new statistics to ensure that readers have access to the best possible information available. This edition continues in this tradition and introduces 'nowcasted' estimates for total merchandised trade, total services trade and GDP on a worldwide basis. **China Statistical Yearbook**
