### KEY=REVIEW - MCKENZIE SIDNEY

#### FITNESS FOR LIFE

*Human Kinetics A high school textbook designed to promote lifelong fitness and well-being, encouraging students to develop an effective, entertaining exercise and nutrition program, explaining the benefits of good health and describing various types of fitness activities.*

#### FITNESS FOR LIFE UPDATED

*Human Kinetics The e-book for Fitness for Life, Updated Fifth Edition allows you to highlight, take notes, and easily use all the material in the book in seconds. The e-book is delivered through Adobe Digital Editions® and when purchased through the Human Kinetics site, access to the content is immediately granted when your order is received. Fitness for Life is the original and best-selling high school text for promoting lifelong physical activity and healthy lifestyles that result in lifelong fitness, wellness, and health. Fitness for Life has been updated to make it better than ever. The updated edition retains the strengths of the fifth edition and has been enhanced with a test bank, an online study guide, and an array of other new features to keep teachers and students on the cutting edge. Fitness for Life helps students to -meet national, state, and local physical education grade-level standards; -learn about and meet national health goals for the year 2010; -become informed consumers on matters related to lifelong physical activity and fitness; -learn self-management skills that lead to adopting healthy lifestyles; -take personal responsibility for program planning and setting individualized goals; -recognize and overcome the barriers to reaching their activity and fitness goals; -use technology to promote healthy living and to separate fact from fiction; and -assess personal progress using a variety of tools, including FITNESSGRAM/ACTIVITYGRAM. The book's pedagogically sound format includes lesson objectives that are consistent with state and national health and fitness goals. The chapter and unit structure is consistent with a school-year structure and works with your schedule no matter what schedule you're on! The following are new features in the Updated Fifth Edition: -New focus on MyPyramid and the 2005 dietary guidelines -Online study guide and test bank -Increased emphasis on diversity awareness -Wrap-around lesson plans to accompany lesson plan book and CD-ROM -And much more—request a desk copy to see! View chapter excerpt and ancillary samples at [www.FitnessforLife.org](http://www.FitnessforLife.org)! Every chapter of the fully updated student text includes the following elements: -Two lessons designed for the classroom portion of the class -Three activities designed for use in the activity portion of the class -A self-assessment that helps students to build a fitness profile to be used in program planning -A taking charge feature designed to reinforce self-management skills and concepts -A self-management skill feature that includes guidelines for learning self-management skills and reinforces taking charge -A chapter review New ancillaries beef up already comprehensive ancillaries -The teacher ancillary package includes the following: -Lesson plans in CD-ROM and book format—Daily lesson plans guide teachers in working through the material and integrating the other ancillaries. -Wrap-around lesson plans—A wrap-around set of lesson plans is available for those schools that require or prefer this format. -CD-ROM and print version of teacher resources and materials—Includes worksheets, quizzes, blackline masters, and student workbooks. These can be copied from the print version or kept safe and printed out year after year from the CD-ROM. -CD-ROM of activity and vocabulary cards—This includes 8.5- x 11-inch cards depicting activities with instructions and vocabulary cards for use in studying fitness terminology covered in the book. -CD-ROM of the presentation package—This CD-ROM includes a PowerPoint presentation for every lesson in the book, making class time easy for you and more engaging for your students. -In-service DVD—Learn the program philosophy, objectives, and teaching strategies presented by Chuck Corbin. This DVD is useful for presenting your program's objectives to parents and administrators. -Spanish e-book on CD-ROM and online Spanish vocabulary—You'll find the full text in a Spanish translation on the CD-ROM, and all vocabulary is translated to Spanish on the Web site. -FitnessforLife.org Web site—The student text uses icons throughout to direct students to the Web site for more information. Additional content updates will continue to be added to the Web site as new information on health and wellness emerges. The Web site also includes the two newest ancillaries: -Online study guide—Use as a supplement to regular coursework, as an independent study for students who are unable to attend class, or as a make-up assignment for a student who missed a class. The online study guide also allows students to create online electronic portfolios that can be used as evidence of meeting physical education outcomes and standards. Access is free to teachers and students with an adoption of 25 or more copies. -Test bank—Quickly and easily create exams from more than 500 multiple-choice, essay, and matching questions. You can easily customize the exams to meet your needs, and you can make them unique for each class period you teach. -Award-winning DVDs—Two DVDs each include five 20-minute segments that illustrate key concepts, activities, and assessments featured in the text, including the Telly Award-winning segments. -The Lifetime Fitness DVD includes Introduction to Physical Activity, Cardiovascular Fitness, Muscle Fitness, Flexibility, and Body Composition. -The Wellness DVD includes Introduction to Wellness, Nutrition, Stress Management, the Activity Pyramid, and Planning Healthy Lifestyles. -Additional supplementary instructional materials are also available for purchase: -Physical Education Soundtracks—Two CDs contain the cadence for PACER and other fitness tests, music intervals, and music for exercise routines. -Physical Activity Pyramid Posters—Explains the FIT formula for all types of physical activities. How Fitness for Life Benefits Students -Fitness for Life helps students meet national, state, and local physical education standards and helps students achieve national health goals outlined in Healthy People 2010. -Fitness for Life is based on the HELP philosophy, which specifies the goal of promoting health for everyone with an emphasis on lifetime activity designed to meet personal needs. -Fitness for Life helps students learn the value and benefits of lifelong physical activity. Just as important, they learn that physical activity can and should be fun—and thus they are more likely to become and remain active throughout their lives. -Students learn how to create an activity and fitness plan, set individual goals, assess their status and progress, manage their time and responsibilities, and overcome barriers to regular physical activity. They learn to use technology to benefit their fitness rather than detract from it. And they experience the various components of health-related fitness, activity, and wellness through participation in the many labs and activities that are a crucial part of the Fitness for Life program. -Fitness for Life enables students to have success, build confidence in their ability to lead an active lifestyle, and take control of their own health. And research has shown that the program is effective in promoting physically active behavior after students finish school. -Fitness for Life complements the total learning process, contributing learning experiences in science, math, and language arts, including extensive vocabulary enhancement. How Fitness for Life Benefits Teachers -Teachers can present this course knowing that it is consistent with national and state standards. -Fitness for Life helps students understand lifelong fitness concepts and learn the keys to adopting and maintaining healthy behavior throughout their lives. -The program is easily adaptable to any schedule and includes block plans of all types. -The organization of the text and the comprehensive ancillaries make teaching this course as simple as possible, with a minimum of preparation time—even for those with no experience in teaching this type of course. -Workbooks and materials completed by students in the online study guide can be used in creating student portfolios that provide evidence of students' accomplishment of national, state, and local outcomes and standards. Compatibility With FITNESSGRAM®/ACTIVITYGRAM® and Physical Best Author Chuck Corbin has been a member of the FITNESSGRAM/ACTIVITYGRAM Scientific Advisory Board since its inception. The FITNESSGRAM/ACTIVITYGRAM assessments embedded in the Fitness for Life self-assessment program—as well as the book's approach to teaching health-related fitness and physical activity—are consistent with the stated philosophy of the FITNESSGRAM/ACTIVITYGRAM Scientific Advisory Board. Fitness for Life is also fully compatible with Physical Best resources; in fact, the Physical Best program offers teacher training for Fitness for Life course instructors. All three programs are based on the HELP philosophy, which promotes health for everyone with a focus on lifetime activity of a personal nature. Dr. Corbin is recognized nationally and internationally as the leader in teaching health-related fitness and activity to middle and high school students. He wrote the first high school textbook on this subject, which has often been imitated but never equaled. Dr. Corbin has received numerous national awards in physical education and has authored, coauthored, or edited more than 70 books and videos. Fitness for Life (winner of the Texty Award of the Text and Academic Authors Association), Concepts of Physical Fitness (winner of the McGuffey Award), and Concepts of Fitness and Wellness are the most widely adopted high school and college texts in the area of fitness and wellness. Two of Dr. Corbin's video programs have earned Telly Awards for Excellence for educational videos. He is first author of the national physical activity standards for children, published by COPEC and NASPE. Adobe Digital Editions® System Requirements Windows -Microsoft® Windows® 2000 with Service Pack 4, Windows XP with Service Pack 2, or Windows Vista® (Home Basic 32-bit and Business 64-bit editions supported) -Intel® Pentium® 500MHz processor -128MB of RAM -800x600 monitor resolution Mac PowerPC® -Mac OS X v10.4.10 or v10.5 -PowerPC® G4 or G5 500MHz processor -128MB of RAM Intel® -Mac OS X v10.4.10 or v10.5 -500MHz processor -128MB of RAM Supported browsers and Adobe Flash versions Windows -Microsoft Internet Explorer 6 or 7, Mozilla Firefox 2 -Adobe Flash® Player 7, 8, or 9 (Windows Vista requires Flash 9.0.28 to address a known bug) Mac -Apple Safari 2.0.4, Mozilla Firefox 2 -Adobe Flash Player 8 or 9 Supported devices -Sony® Reader PRS-505 Language versions -English -French -German*

#### FITNESS FOR LIFE, 6E

*Human Kinetics Fitness for Life, Sixth Edition, is the award-winning text that continues to set the standard for teaching personal fitness (fitness education) at the high school level. It will help students become physically literate individuals who have the knowledge, skills, and confidence to enjoy a lifetime of healthful physical activity. This classic, evidence-based book will guide students in becoming informed consumers on matters related to lifelong physical activity and fitness, taking responsibility for setting individualized goals, and making their own plans for active living. To accomplish this overarching goal, they learn a variety of self-management skills, including self-assessment.*

#### FITNESS FOR LIFE: MIDDLE SCHOOL

*Human Kinetics A winner of the Texty Award for textbook excellence with its first edition, Fitness for Life: Middle School is even stronger in its second edition. Fitness for Life: Middle School is thoroughly updated to address the new national physical education standards, physical activity guidelines, FITT formulas, and USDA nutrition guidelines. In addition, it is greatly expanded and offers plenty of new material: New material on coordinated school health, nutrition, skills, and safety (making the book easy to use in schools with combined PE/health classes) New integration of fitness concepts into math, science, and language arts New technology sections that engage students in applying technology to their fitness A new student interactive web textbook A new teacher online bundle New Interactive Web Texts Offer Great Benefits The student interactive web textbook contains the same content as the print book but uses interactive audio, video, worksheets and other great activities to help students engage with the material and enhance learning. The interactive web textbook offers audio vocabulary and definitions in English and Spanish. Introductory videos at the beginning of each lesson help students assess their knowledge going in, while videos at the end of each lesson help students put what they've learned into context. (School systems interested in adopting the interactive web textbook should contact their Human Kinetics K-12 sales consultant.) The teacher online bundle provides teachers with all the materials they need to teach the course—lesson plans, worksheets, rubrics, quizzes, slides, newsletters, and other supporting resources. Teachers can easily access the materials on their computers, laptops, or mobile devices, and they can print whatever they need for use in the classroom or in activities. Loose-Leaf Packs Available Teachers also have the option of purchasing binder-ready resources. This loose-leaf pack includes all the resources from the teacher web text except the slides and the test bank. The loose-leaf pack allows teachers to have all the printable resources already printed for them on hole-punched paper, ready to be put in a binder in any order they choose. They can even leave some material out and add materials of their own. Flexible in Its Application Fitness for Life: Middle School, Second Edition, is the middle school version of the award-winning Fitness*

for *Life, Sixth Edition*. As such, it is a great bridge to the high school program. Teachers can use the units and chapters in a fitness unit, a single-semester class, or a yearlong course, with any configuration of days, in either a gym or a classroom. One of the only personal fitness textbooks available for middle schoolers, *Fitness for Life: Middle School, Second Edition*, offers a foundation for students to get physically active and remain active throughout their lives.

## **FITNESS FOR LIFE CANADA**

---

### **PREPARING TEENS FOR HEALTHY, ACTIVE LIFESTYLES**

*Human Kinetics Fitness for Life Canada* is an evidence-based program focused on shifting teens from dependence to independence when it comes to healthy behaviours, including physical activity, fitness, and healthy eating. It includes an array of web-based resources for students and teachers and more than 100 lesson plans.

---

## **FITNESS FOR LIFE CANADA WITH WEB RESOURCES**

---

### **PREPARING TEENS FOR HEALTHY, ACTIVE LIFESTYLES**

*Human Kinetics Fitness for Life Canada: Preparing Teens for Healthy, Active Lifestyles* is the only health and fitness education program backed by research and focused on shifting teens from dependence to independence when it comes to lifelong healthy lifestyles. Through *Fitness for Life Canada*, students are engaged in the process of personal program planning for a variety of health behaviours including physical activity, fitness, and health eating. This evidence-based and standards-based program follows a pedagogically sound scope and sequence to enhance student learning and progress and presents the science of healthy living at age-appropriate levels. Research clearly demonstrates that active and healthy adults use a variety of self-management skills to maintain their positive behaviours. *Fitness for Life Canada* helps students develop numerous self-management skills—such as self-assessment, self-monitoring, goal setting, finding social support, overcoming barriers, and managing time—to prepare them to independently engage in healthy lifestyles. Students also learn to engage in community physical activity opportunities, with national sport and health organizations, and with technology that supports healthy lifestyles. Through *Fitness for Life Canada*, students explore these aspects: The foundations of active and healthy living, including adopting healthy lifestyles and self-management skills and setting goals and planning personal programs Learning the basics for lifelong activity and health, including engaging in smart and safe physical activity, knowing how much activity is enough, and understanding healthy eating Beginning activity and building fitness, including participating in moderate- and vigorous-intensity physical activity and developing cardiorespiratory endurance Building muscle fitness and flexibility, including understanding muscle fitness applications and ergogenic aids Maintaining a healthy lifestyle, including achieving a healthy body composition, choosing nutritious foods, and making good consumer choices Creating positive and healthy experiences, including managing stress, developing lifelong leadership skills, understanding reproductive and sexual wellness, and making wise choices regarding alcohol, drugs, and tobacco *Fitness for Life Canada* has extensive teacher resources with more than 100 lesson plans (classroom and activity based) that provide teachers with numerous options for student assessment and opportunities to demonstrate evidence of student learning (e.g., quizzes, tests, worksheets, student demonstrations, student projects). Teachers can integrate the program with existing curricula or deliver it as a stand-alone program. They can also apply our *Fitness Club* approach to deliver fitness education to large numbers of students using multiple activity areas. Teacher Ancillaries are available free with the adoption and purchase of a class set of the student text. Special Features in Chapters and Units Every chapter in the student text features two classroom lessons, one feature that engages students with prominent Canadian sport organizations and health organizations, and a chapter review. The book devotes multiple lessons to personal program planning, implementation, and evaluation. Go to *Sample Content* to view sample page layouts that show these special features. Each unit offers a *Consumer Corner* feature. The teacher web resources feature the same chapter content as the student text plus three physical activity lessons per chapter that help students apply what they've learned from the classroom lessons. In addition, the chapters have a series of other prominent features: Lesson objectives direct student learning. Lesson vocabulary helps students understand multiple uses of words (definitions in glossary and online). Art includes a version of the physical activity pyramid for teens. Photos and design give the chapters a refreshing student-friendly look with its dynamic four-color design. Muscle art identifies the muscles used in each exercise. *Fit Facts* give quick information about relevant topics. Quotes from famous people reveal their thoughts on fitness, health, and wellness. *Fitness Technology* offers opportunities for students to use and study technology. *Science in Action* provides in-depth coverage of innovations in fitness, health, and wellness. *Self-Assessment* allows students to evaluate their fitness, health, and wellness as the first step in personal planning for improvement. *Taking Charge* and *Self-Management* allow students to learn self-management skills for adopting healthy behaviors and interacting with other students to solve problems encountered by hypothetical teens. *Taking Action* features activities that are supported by the lesson plans. *Consumer Corner* helps students become good consumers of information on fitness, health, and wellness as they learn how to separate fact from fiction. *Web-Based Resources* *Fitness for Life Canada* provides physical educators with numerous delivery and assessment options in health and physical education. Specifically, the program has more than 100 detailed activity- and classroom-based lesson plans that can be delivered out of the box for beginner teachers and are modifiable for experienced teachers. The lesson plans are supported with assessment and teaching materials such as worksheets, activity cards, PowerPoint slides, quizzes, chapter and unit tests, an online test bank, portfolios (including digital), demonstrations (live, video, and pictures), journals and reflections (written and video), class presentations and video presentations, and supplemental project ideas. For students, web resources are included with each student text and feature the following: Video clips that demonstrate the self-assessments in each chapter Video clips that demonstrate the exercise in selected chapters Worksheets without answers Review questions from the text presented in an interactive format so students can check their level of understanding Expanded discussions of topics marked by web icons in the text Vocabulary terms with definitions Teacher web resources are available free with any class set purchase and include the following: An introduction that describes the body of knowledge and pedagogical foundations behind *Fitness for Life Canada* as well as the evidence supporting its effectiveness Daily lesson plans, including five lessons per chapter: two classroom plans and three activity plans Worksheets with answers Premade chapter and unit quizzes with answers Activity cards and task cards Presentation package of slides with the key points for each lesson A test bank that teachers can use to make their own quizzes if they prefer Summary *Fitness for Life Canada* develops higher-order physical literacy knowledge and skills that help students become active and healthy adults. *Fitness for Life Canada* focuses on developing students' knowledge of health and health-related fitness concepts, training principles, and personal physical activity and fitness program planning. That knowledge is combined with numerous self-management skills that are critical for maintaining physical activity, healthy eating, and general health behaviours. In short, *Fitness for Life Canada* enhances engagement, learning, and assessment while paving the way to a healthy lifestyle throughout the life span.

## **FITNESS FOR LIFE 6TH EDITION WITH WEB RESOURCE-PAPER**

---

*Human Kinetics Publishers Fitness for Life, Sixth Edition*, is the award-winning text that continues to set the standard for teaching personal fitness (fitness education) at the high school level. It will help students become physically literate individuals who have the knowledge, skills, and confidence to enjoy a lifetime of healthful physical activity. This classic, evidence-based book will guide students in becoming informed consumers on matters related to lifelong physical activity and fitness, taking responsibility for setting individualized goals, and making their own plans for active living. To accomplish this overarching goal, they learn a variety of self-management skills, including self-assessment. The program is based on established educational theory as outlined in the online teacher's guide. *Fitness for Life, Sixth Edition*, helps students in these ways: Become physically literate individuals as defined by SHAPE America. Meet the national, state, and local grade-level standards and outcomes developed by SHAPE America for physical education and fitness education. Meet college and career readiness standards by learning and using critical thinking, decision making, and problem-solving skills. Meet national physical activity guidelines of the USDHHS, exercise prescription guidelines of ACSM, and health goals of Healthy People 2020. Use the HELP philosophy of promoting health for everyone with an emphasis on lifetime activity and healthy lifestyles designed to meet personal needs. Use the Stairway to Lifetime Fitness concept, created by author Chuck Corbin, to encourage higher-order learning (move from dependence to independence). Use the Physical Activity Pyramid, created by the authors, to help students understand the FITT formula and benefits of the major types of physical activities. Become informed consumers on matters related to lifelong physical activity and fitness and other healthy lifestyles (e.g., good nutrition and stress management). Learn self-management skills that lead to adopting healthy lifestyles. Perform self-assessments, including all tests in the Fitnessgram battery and the Presidential Youth Fitness Program. Take personal responsibility for setting individualized goals and personal program planning. Develop a love for lifetime fitness activities. Benefit from the expertise of internationally renowned authors and educators Charles B. "Chuck" Corbin and Guy C. Le Masurier and contributing author and educator Karen McConnell. - Publisher.

## **A LIFETIME OF HEALTH**

---

### **PHYSICAL FITNESS FOR LIFE**

### **EDUCATING THE STUDENT BODY**

### **TAKING PHYSICAL ACTIVITY AND PHYSICAL EDUCATION TO SCHOOL**

*National Academies Press Physical inactivity is a key determinant of health across the lifespan. A lack of activity increases the risk of heart disease, colon and breast cancer, diabetes mellitus, hypertension, osteoporosis, anxiety and depression and others diseases. Emerging literature has suggested that in terms of mortality, the global population health burden of physical inactivity approaches that of cigarette smoking. The prevalence and substantial disease risk associated with physical inactivity has been described as a pandemic. The prevalence, health impact, and evidence of changeability all have resulted in calls for action to increase physical activity across the lifespan. In response to the need to find ways to make physical activity a health priority for youth, the Institute of Medicine's Committee on Physical Activity and Physical Education in the School Environment was formed. Its purpose was to review the current status of physical activity and physical education in the school environment, including before, during, and after school, and examine the influences of physical activity and physical education on the short and long term physical, cognitive and brain, and psychosocial health and development of children and adolescents. *Educating the Student Body* makes recommendations about approaches for strengthening and improving programs and policies for physical activity and physical education in the school environment. This report lays out a set of guiding principles to guide its work on these tasks. These included: recognizing the benefits of instilling life-long physical activity habits in children; the value of using systems thinking in improving physical activity and physical education in the school environment; the recognition of current disparities in opportunities and the need to achieve equity in physical activity and physical education; the importance of considering all types of school environments; the need to take into consideration the diversity of students as*

recommendations are developed. This report will be of interest to local and national policymakers, school officials, teachers, and the education community, researchers, professional organizations, and parents interested in physical activity, physical education, and health for school-aged children and adolescents.

## **FITNESS AND WELLNESS IN CANADA**

---

### **A WAY OF LIFE**

"Developed specifically for the Canadian audience and written for first-year undergraduate students taking a general education fitness and wellness course, *Fitness and Wellness in Canada: A Way of Life* uses an engaging learning environment to provide students with the tools they need to become fit and well for life. In addition to providing students with an overview of the health-related components of fitness, *Fitness and Wellness in Canada: A Way of Life* teaches students how to embrace healthy eating and enjoy being physically active. Students learn how to establish fitness and wellness goals for now and throughout their lives. They learn how to manage stress, reduce the risk of metabolic syndrome and cancer, remain free from addiction, and develop a healthy sexuality"--

---

## **HEALTH FOR LIFE**

---

Human Kinetics *Health for Life* is an innovative new resource that teaches high school students the fundamentals of health and wellness, how to avoid destructive habits, and how to choose to live healthy lives.

---

## **HEALTH FOR LIFE**

Human Kinetics *Health for Life* provides the keys necessary for adopting healthy habits and committing to healthy living in high school and throughout the life span. The text covers all of the components of personal well-being, including physical, mental, emotional, social, and spiritual health. It provides students the knowledge in making healthy choices and fosters the skill development required for taking healthy actions. *Health for Life* helps students in these ways:

- Analyze how key influences affect their health and wellness, such as family, peers, media, and technology
- Explore consumer topics and use appropriate resources to find answers to challenging questions
- Sharpen their interpersonal communication skills as they share health knowledge; debate controversial topics; demonstrate refusal, negotiation, and refusal skills; manage interpersonal conflicts; and promote healthy living among their peers
- Use decision-making skills and apply healthy living skills as they identify solutions to problems posed
- Evaluate their own health habits as they relate to a variety of behaviors
- Create goals for behavior change and establish plans for healthy living
- Communicate health information with family and advocate for healthy living at home and in their communities
- Discover how health and technology intersect on various topics

The text is divided into seven units of 20 chapters. The chapters help students explore a range of topics, including mental health, nutrition, physical activity, stress management, healthy relationships, avoiding destructive habits, and making good health choices throughout life. *Health for Life* has an abundance of features that help students connect with content in personal ways and retain the information. Here's a glance at some of those features:

- Lesson Objectives, Lesson Vocabulary, Comprehension Check, and Chapter Review help students prepare to dive in to the material, understand it, and retain it (standard NHES 1).
- Connect spurs students to analyze various influences on their health and wellness (standard NHES 2).
- Consumer Corner aids students in exploring consumer health issues (standard NHES 3).
- Healthy Communication gets students to use and expand their interpersonal communication skills as they share their views about various health topics (standard NHES 4).
- Skills for Healthy Living and Making Healthy Decisions help students learn and practice self-management so they can make wise choices related to their health and wellness (standard NHES 5).
- Planning for Healthy Living assists students in applying what they've learned as they set goals and establish plans for behavior change (standard NHES 6).
- Self-Assessment offers students the opportunity to evaluate their health habits and monitor improvement in health behaviors (standard NHES 7).
- Take It Home and Advocacy in Action prepare students to advocate for health at home and in their communities (standard NHES 8).
- Health Science and Health Technology focus on the roles of science and technology as they relate to health and where science and technology intersect regarding health issues.
- Living Well News challenges students to integrate health literacy, math, and language skills to better understand a current health issue.

In addition, *Health for Life* is reinforced by its online resources for teachers and students. Following are highlights of these two invaluable resources. **Teacher Web Resource** The Teacher Web Resource contains the following:

- Complete lesson plans; the first three lessons have a corresponding PowerPoint slide show
- An answer key to all worksheets and quizzes
- A test package that includes tests for each chapter; tests consist of multiple-choice, true-or-false, fill-in-the-blank, and short essay questions

All lesson plans and assessments support identified learning objectives. Each lesson plan includes these features:

- Preparing the Lesson (lesson objectives and preparation)
- Bell Ringer (a journal question for students, or a quiz or activity to begin class)
- Lesson Focus (main points of the lesson paired with a student worksheet)
- Lesson Application (main activity paired with a worksheet)
- Reflection and Summary (lesson review)
- Evaluate (student quiz or test or worksheet review)
- Reinforcing the Lesson (Take It Home and Challenge activities)

**Student Web Resource** The Student Web Resource contains these features:

- All worksheets, quizzes, and other materials referred to in the lesson plans
- Vocabulary flip cards and other interactive elements from the iBook edition
- Expanded discussion of selected topics that are marked by web icons in the text
- Review questions from the text, presented in an interactive format for students to fill out to check their level of understanding

Delivering the content that will help students value and adopt healthy lifestyles, and loaded with the features and online resources that will help students understand and retain the content, *Health for Life* promises to be one of the most crucial texts for students today.

## HEALTH OPPORTUNITIES THROUGH PHYSICAL EDUCATION

---

*Human Kinetics* This innovative new textbook, with a full suite of related resources, has been created to support student development and enhancement of healthy behaviors that influence their lifestyle choices and fitness, health, and wellness. A key feature of this curriculum is the complete integration of physical education and health concepts and skills to maximize student interest, learning, and application. This objective was accomplished by combining the expertise of our author teams from two related textbooks--*Fitness for Life, Sixth Edition*, and *Health for Life*. This is not just a health textbook with a few physical education concepts thrown in. School systems that want a single textbook to help them address both physical education and health education standards will find that this book provides them a unique and cost-effective option. *Health Opportunities Through Physical Education* is available in print and digital formats, including an iBooks interactive version for iPads plus other e-book formats that students can use across a variety of platforms. Part I, *Fitness for Life*, will help students become physically literate individuals who have the knowledge, skills, and confidence to enjoy a lifetime of healthful physical activity. The book will guide students in becoming informed consumers on matters related to lifelong physical activity and fitness, taking responsibility for setting individualized goals, and making their own plans for active living. To accomplish this overarching goal, they learn a variety of self-management skills, including self-assessment. The program is based on established educational theory, which is outlined in the teacher web resources. And they learn all of this through a combination of classroom and physical activity lessons that meet national, state, and local physical activity guidelines and help instill a love for lifetime fitness activities. Part I also enables students to achieve the following goals:

- Meet college and career readiness standards by learning and using critical thinking, decision making, and problem-solving skills
- Use the Stairway to Lifetime Fitness concept, created by author Chuck Corbin, to encourage higher-order learning (move from dependence to independence)
- Perform self-assessments, including all tests in the Fitnessgram battery and the Presidential Youth Fitness Program

Part I includes many features that actively engage students by allowing them to:

- Assess their own fitness and other health and wellness factors to determine personal needs and assess progress resulting from healthy lifestyle planning.
- Use Taking Charge and Self-Management features to learn self-management skills (e.g., goal setting, self-monitoring, self-planning) for adopting healthy lifestyles.
- Learn key concepts and principles, higher-order information, and critical thinking skills that provide the basis for sound decision making and personal planning.
- Do reading and writing assignments as well as calculations that foster college and career readiness.
- Try out activities that are supported by lesson plans offered in the teacher web resources and that can help students be fit and active throughout their lives.
- Take part in real-life activities that show how new information is generated by using the scientific method.
- Become aware of and use technology to learn new information about fitness, health, and wellness and learn to discern fact from fiction.
- Use the web and the unique web icon feature to connect to relevant and expanded content for essential topics in the student web resource.
- Find Academic Connections that relate fitness topics to other parts of the curriculum such as science, language arts, and math.
- Use other features such as fitness quotes, consumer corner, Fit Facts, and special exercise features (including exercise and self-assessment videos) that promote higher-order learning.
- Focus their study time by following cues from Lesson Objectives and Lesson Vocabulary elements in every chapter.
- Use the chapter-ending review questions to test their understanding of the concepts and use critical thinking and project assignments to meet educational standards, including college and career readiness standards.

Part II, *Health for Life*, teaches high school students the fundamentals of health and wellness, how to avoid destructive habits, and how to choose to live healthy lives. This text covers all aspects of healthy living throughout the life span, including preventing disease and seeking care; embracing the healthy lifestyles choices of nutrition and stress management; avoiding destructive habits; building relationships; and creating healthy and safe communities. Part II also has an abundance of features that help students connect with content:

- Lesson Objectives, Lesson Vocabulary, Comprehension Check, and Chapter Review help students prepare to dive in to the material, understand it, and retain it.
- Connect feature spurs students to analyze various influences on their health and wellness.
- Consumer Corner aids students in exploring consumer health issues.
- Healthy Communication gets students to use and expand their interpersonal communication skills as they share their views about various health topics.
- Skills for Healthy Living and Making Healthy Decisions help students learn and practice self-management so they can make wise choices related to their health and wellness.
- Planning for Healthy Living assists students in applying what they've learned as they set goals and establish plans for behavior change.
- Self-Assessment offers students the opportunity to evaluate their health habits and monitor improvement in health behaviors.
- Find Academic Connections that relate fitness topics to other parts of the curriculum such as science, language arts, and math.
- Take It Home and Advocacy in Action prepare students to advocate for health at home and in their communities.
- Health Science and Health Technology focus on the roles of science and technology as they relate to health and where science and technology intersect regarding health issues.
- Living Well News challenges students to integrate health literacy, math, and language skills to better understand a current health issue.

## MY PERSONAL BOOK

---

*Lulu.com* Although there is nothing wrong with following the stories of people whom we admire and who inspire us, we should also take some time to focus on our own lives. In *My Personal Book*, author Sarah Ote Khoury offers a simple, fill-in workbook to help you reflect on your past and its impact on your present and future. Designed in a journal format, *My Personal Book* encourages self-expression and increasing self-awareness, and it has been designed to help you discover and rediscover yourself and the qualities that make you unique as a person. The author suggests that the reader use *My Personal Book* every five-to-ten years and start a MPB collection, updating each MPB with new people, new stories and experiences. Because every stage of our life has different story to tell and lesson to learn. *My Personal Book* helps you appreciate who you are so you can live your life with zest and passion.

## EXERCISE TECHNIQUE MANUAL FOR RESISTANCE TRAINING

---

*Human Kinetics* "This is a resource for strength and conditioning professionals, health and fitness instructors, and personal trainers who use resistance training exercises in their own programs or in programs designed for others. College and university faculty and students will find that this manual and the online video clips complement hands-on instruction and aid in teaching exercise technique without requiring the use of a weight room. Further, this manual is a primary preparation resource for those preparing for NSCA's Certified Strength and Conditioning Specialist (CSCS), NSCA-Certified Personal Trainer (NSCA-CPT), Certified Special Population Specialist (CSPS), and Tactical Strength and Conditioning-Facilitator (TSAC-F) certification exams"--

---

## EXPLAINING DIVERGENT LEVELS OF LONGEVITY IN HIGH-INCOME COUNTRIES

---

*National Academies Press* During the last 25 years, life expectancy at age 50 in the United States has been rising, but at a slower pace than in many other high-income countries, such as Japan and Australia. This difference is particularly notable given that the United States spends more on health care than any other nation. Concerned about this divergence, the National Institute on Aging asked the National Research Council to examine evidence on its possible causes. According to *Explaining Divergent Levels of Longevity in High-Income Countries*, the nation's history of heavy smoking is a major reason why lifespans in the United States fall short of those in many other high-income nations. Evidence suggests that current obesity levels play a substantial part as well. The book reports that lack of universal access to health care in the U.S. also has increased mortality and reduced life expectancy, though this is a less significant factor for those over age 65 because of Medicare access. For the main causes of death at older ages -- cancer and cardiovascular disease -- available indicators do not suggest that the U.S. health care system is failing to prevent deaths that would be averted elsewhere. In fact, cancer detection and survival appear to be better in the U.S. than in most other high-income nations, and survival rates following a heart attack also are favorable. *Explaining Divergent Levels of Longevity in High-Income Countries* identifies many gaps in research. For instance, while lung cancer deaths are a reliable marker of the damage from smoking, no clear-cut marker exists for obesity, physical inactivity, social integration, or other risks considered in this book. Moreover, evaluation of these risk factors is based on observational studies, which -- unlike randomized controlled trials -- are subject to many biases.

---

## FITNESS MEASURES AND HEALTH OUTCOMES IN YOUTH

---

*National Academies Press* Physical fitness affects our ability to function and be active. At poor levels, it is associated with such health outcomes as diabetes and cardiovascular disease. Physical fitness testing in American youth was established on a large scale in the 1950s with an early focus on performance-related fitness that gradually gave way to an emphasis on health-related fitness. Using appropriately selected measures to collected fitness data in youth will advance our understanding of how fitness among youth translates into better health. In *Fitness Measures and Health Outcomes in Youth*, the IOM assesses the relationship between youth fitness test items and health outcomes, recommends the best fitness test items, provides guidance for interpreting fitness scores, and provides an agenda for needed research. The report concludes that selected cardiorespiratory endurance, musculoskeletal fitness, and body composition measures should be in fitness surveys and in schools. Collecting fitness data nationally and in schools helps with setting and achieving fitness goals and priorities for public health at an individual and national level.

## PSYCHOLOGY AND THE CHALLENGES OF LIFE

---

*John Wiley & Sons* A long-respected standard in the psychology of adjustment, *Psychology and the Challenges of Life, Eleventh Edition* has been thoroughly updated and contemporized to provide students the ability to reflect on how psychology relates to the lives we live and the roles that psychology can play in helping us with the challenges we face. Authors Jeffrey Nevid and Spencer Rathus explore the many applications of psychological concepts and principles used to meet the challenges of daily life, while encouraging students to apply concepts to themselves through active learning exercises, self-assessment questionnaires, and journaling exercises.

---

## FINANCIAL & MANAGERIAL ACCOUNTING

---

Cengage Learning Give your students a solid foundation in core accounting concepts while helping learners develop a true appreciation for why accounting is important to business and a prosperous society. Warren/Reeve/Duchac's *FINANCIAL AND MANAGERIAL ACCOUNTING, 14E* clearly demonstrates how accounting is much more than simply data and black and white rules. Instead, students see how accounting provides key information used to make critical business decisions. A new chapter schema provides context for how each chapter's content fits into the big picture. The book focuses on why accounting is important and consistently reinforces connections to the big picture by connecting journal entries to the accounting equation. Fresh organization progresses from the simplest to the more complex topics with reorganized and fully integrated coverage of the new Revenue Recognition standard, reorganized coverage of adjustments, and reorganized managerial accounting chapters Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

## WOMEN'S FITNESS PROGRAM DEVELOPMENT

---

Human Kinetics Meet the unique needs of all females, young and old, in health and fitness settings. *Women's Fitness Program Development* introduces a groundbreaking model for women's health and fitness. - Build a solid theoretical basis for girls' and women's health and fitness programming. - Develop programs that take into account how females see the world. - Find touchstones that motivate clients to achieve a lifetime of fitness. - Design your classes around women's physical, psychological, social, and emotional needs. - Learn about appropriate exercises and positions for females at different life stages. Written by a fitness expert with more than 30 years' experience teaching dance and exercise to girls and women, this book is thoughtful, research-based, and packed with insight. It is a practical resource for instructors, trainers, health care providers--any professional working with girls and women in a health and fitness setting. *Women's Fitness Program Development* is divided into four sections: Adolescence, Pregnancy, Postpartum Period, and Menopause. Each section defines terminology; suggests how to set goals and priorities; and provides appropriate exercise components, prescriptions, modifications, and program evaluation strategies. The text includes the following special features: - 60 photos illustrating appropriate exercises and positions for different life stages - Instructions for female-focused exercises, such as strengthening the pelvic floor and centering the body - Sidebars with practical instructional tips - 30 forms for screening, assessment, participant worksheets, evaluation, and other program needs - Examples from current programs focused on girls and women Ann Cowlin provides information relevant to all stages of the female life cycle. She includes a 10-week creative physical activity curriculum for adolescent girls, detailed explanations of contraindications for exercise and conditions requiring assessment and warning signs in pregnancy, plus exercise guidelines for pregnant women. Cowlin also includes insightful ideas for working with pregnant and parenting adolescent girls. She addresses approaches for dealing with physical conditions resulting from pregnancy, birth, and the extended postpartum period; and she offers sample group fitness sessions for midlife women.

### MASTER YOUR MIND AND DEFY THE ODDS - CLEAN EDITION

---

David Goggins New York Times Bestseller Over 2.5 million copies sold For David Goggins, childhood was a nightmare - poverty, prejudice, and physical abuse colored his days and haunted his nights. But through self-discipline, mental toughness, and hard work, Goggins transformed himself from a depressed, overweight young man with no future into a U.S. Armed Forces icon and one of the world's top endurance athletes. The only man in history to complete elite training as a Navy SEAL, Army Ranger, and Air Force Tactical Air Controller, he went on to set records in numerous endurance events, inspiring *Outside* magazine to name him *The Fittest (Real) Man in America*. In this curse-word-free edition of *Can't Hurt Me*, he shares his astonishing life story and reveals that most of us tap into only 40% of our capabilities. Goggins calls this *The 40% Rule*, and his story illuminates a path that anyone can follow to push past pain, demolish fear, and reach their full potential.

### HOW NEW BREAKTHROUGHS IN PRECISION MEDICINE CAN TRANSFORM THE QUALITY OF YOUR LIFE & THOSE YOU LOVE

---

Simon and Schuster What if there were scientific solutions that could wipe out your deepest fears of falling ill, receiving a life-threatening diagnosis, or feeling the effects of aging? What if you had access to the same cutting-edge tools and technology used by peak performers and the world's greatest athletes? In a world full of fear and uncertainty about our health, it can be difficult to know where to turn for actionable advice you can trust. Today, leading scientists and doctors in the field of regenerative medicine are developing diagnostic tools and safe and effective therapies that can free you from fear. In this book, Tony Robbins, the world's #1 life and business strategist who has coached more than fifty million people, brings you more than 100 of the world's top medical minds and the latest research, inspiring comeback stories, and amazing advancements in precision medicine that you can apply today to help extend the length and quality of your life. This book is the result of Robbins going on his own life-changing journey. After being told that his health challenges were irreversible, he experienced firsthand how new regenerative technology not only helped him heal but made him stronger than ever before. *Life Force* will show you how you can wake up every day with increased energy, a more bulletproof immune system, and the know-how to help turn back your biological clock. This is a book for everyone, from peak performance athletes, to the average person who wants to increase their energy and strength, to those looking for healing. *Life Force* provides answers that can transform and even save your life, or that of someone you love.

## BIGGER LEANER STRONGER

---

---

### THE SIMPLE SCIENCE OF BUILDING THE ULTIMATE MALE BODY

---

Oculus Publishers If you want to be muscular, lean, and strong as quickly as possible without steroids, good genetics, or wasting ridiculous amounts of time in the gym and money on supplements...then you want to read this book. Here's the deal: Getting into awesome shape isn't nearly as complicated as the fitness industry wants you to believe. You don't need to spend hundreds of dollars per month on the worthless supplements that steroid freaks shill in advertisements. You don't need to constantly change up your exercise routines to "confuse" your muscles. I'm pretty sure muscles lack cognitive abilities, but this approach is a good way to just confuse you instead. You don't need to burn through buckets of protein powder every month, stuffing down enough protein each day to feed a third world village. You don't need to toil away in the gym for a couple of hours per day, doing tons of sets, supersets, drop sets, giant sets, etc. (As a matter of fact, this is a great way to stunt gains and get nowhere.) You don't need to grind out hours and hours of boring cardio to shed ugly belly fat and love handles and get a shredded six-pack. (How many flabby treadmills have you come across over the years?) You don't need to completely abstain from "cheat" foods while getting down to single-digit body fat percentages. If you plan cheat meals correctly, you can actually speed your metabolism up and accelerate fat loss. In this book you're going to learn something most guys will never know: The exact formula of exercise and eating that makes putting on 10 to 15 pounds of quality lean mass a breeze...and it only takes 8-12 weeks. This book reveals secrets like... The 6 biggest myths and mistakes of building muscle that stunt 99% of guys' muscle gains. (These BS lies are pushed by all the big magazines and even by many trainers.) How to get a lean, cut physique that you love (and that girls drool over) by spending no more than 5 percent of your time each day. The 4 laws of muscle growth that, when applied, turn your body into an anabolic, muscle-building machine. You'll be shocked at how easy it really is to get big once you know what you're doing... How to develop a lightning-fast metabolism that burns up fat quickly and leaves you feeling full of energy all day long. The carefully-selected exercises that deliver MAXIMUM results for your efforts, helping you build a big, full chest, a wide, tapered back, and bulging biceps. A no-BS guide to supplements that will save you hundreds if not THOUSANDS of dollars each year that you would've wasted on products that are nothing more than bunk science and marketing hype. How to get shredded while still indulging in the "cheat" foods that you love every week like pasta, pizza, and ice cream. And a whole lot more! The bottom line is you CAN achieve that "Hollywood hunk" body without having your life revolve around it--no long hours in the gym, no starving yourself, no grueling cardio that turns your stomach. Imagine, just 12 weeks from now, being constantly complimented on how you look and asked what the heck you're doing to make such startling gains. Imagine enjoying the added benefits of high energy levels, no aches and pains, better spirits, and knowing that you're getting healthier every day. SPECIAL BONUS FOR READERS! With this book you'll also get a free 75-page bonus report from the author called "The Year One Challenge." In this bonus report, you'll learn exactly how to train, eat, and supplement to make maximum gains in your first year of training. By applying what you learn in the book and in this report, you can make more progress in one year than most guys make in three, four, or even five (seriously!). Scroll up, click the "Buy" button now, and begin your journey to a bigger, leaner, and stronger you!
