Mediaeval Feudalism

Cornell University Press "In the following pages I have tried to explain, as simply and concisely as possible, the historical significance of the feudal system. . . . My purpose has not been to give a comprehensive description of Europe in the feudal age, or even of feudal society. I have taken for granted that the reader will be familiar with the main political events of the Middle ages: the barbarian invasions, the formation of the Carolingian Empire, the establishment of the later monarchies, the Crusades, and the like. I have omitted all but cursory mention of the manorial system and the revival of commerce . . . . I have, in other words, restricted the discussion to the few institutions that may be said to have constituted feudalism proper, or to have been peculiarly associated with it."--from the Preface  
This reprint of the first single-volume work in English (originally published in 1942) to treat the principles of feudalism gives a clear and concise account of the origin, growth, and decay of the feudal system. Special attention is paid to the principles of feudal tenure, chivalry, the military life of the nobility, and the workings of feudal government, as illustrated by actual cases.

# History Continues

University of Chicago Press In this engaging intellectual autobiography, **Georges Duby** looks back on a career that has led him to be called one of the most distinguished historians in the Western world. Since its beginning in the 1940s, Duby's career has been rich and varied, encompassing economic history, social history, the history of mentalites, art history, microhistory, urban history, the history of women and sexuality, and, most recently, the Church's influence on feudal society. In retracing this singular career path, Duby candidly remembers his life's most formative influences, including the legendary historians Marc Bloch and Lucien Febvre, the Annales School so closely associated with them, and the College de France. Duby also offers insights about the proper methods of gathering and using archival data and on constructing penetrating interpretations of the documents. Indeed, his discussion of how he chose his subjects, collected his materials, developed the arguments, erected the scaffolding and constructed his theses offers the best introduction to the craft available to aspiring historians. Candid and charming, this book is both a memoir of one of this century's great scholars and a history of the French historical school since the mid-twentieth century. It will be required reading for anyone interested in the French academic milieu, medieval history, French history, or the recording of history in general. Georges Duby, a member of the Academie francaise, for many years held the distinguished chair in medieval history at the College de France. His numerous books include *The Age of Cathedrals*; *The Knight, the Lady, and the Priest*; *Love and Marriage in the Middle Ages*; and *The Three Orders*—all published by the University of Chicago Press.

The Social Novel in England  
1830-1850 (RLE Dickens)

Routledge Library Editions: Charles  
Dickens

Routledge **This is the first English translation of *Le Roman social en Angleterre* by Louis Cazamian, which is widely recognized as the classic survey of Victorian social fiction. Starting from the eighteenth century, Cazamian traces the ways in which rationalism and romanticism intertwined and competed, particularly in relation to radical political philosophy. He shows how industrialization polarized England, setting the industrial bourgeoisie in the van of progress in the first decades of the nineteenth century, until their political and economic triumph stirred up a passionate reaction against them. This reaction propelled novelists such as Charles Dickens who lies at the centre of his discussion. For this translation Martin Fido has provided a substantial foreword, and has revised and completed the bibliographical references and corrected the footnotes to assist the present-day reader.**

# Jack London's Racial Lives

## A Critical Biography

University of Georgia Press **Jack London (1876-1916), known for his naturalistic and mythic tales, remains among the most popular and influential American writers in the world. Jack London's Racial Lives offers the first full study of the enormously important issue of race in London's life and diverse works, whether set in the Klondike, Hawaii, or the South Seas or during the Russo-Japanese War, the Jack Johnson world heavyweight bouts, or the Mexican Revolution. Jeanne Campbell Reesman explores his choices of genre by analyzing racial content and purpose and judges his literary artistry against a standard of racial tolerance. Although**

he promoted white superiority in novels and nonfiction, London sharply satirized racism and meaningfully portrayed racial others--most often as protagonists--in his short fiction. Why the disparity? For London, racial and class identity were intertwined: his formation as an artist began with the mixed "heritage" of his family. His mother taught him racism, but he learned something different from his African American foster mother, Virginia Prentiss. Childhood poverty, shifting racial allegiances, and a "psychology of want" helped construct the many "houses" of race and identity he imagined. Reesman also examines London's socialism, his study of Darwin and Jung, and the illnesses he suffered in the South Seas. With new readings of *The Call of the Wild*, *Martin Eden*, and many other works, such as the explosive Pacific stories, Reesman reveals that London employed many of the same literary tropes of race used by African American writers of his period: the slave narrative, double-consciousness, the tragic mulatto, and ethnic diaspora. Hawaii seemed to inspire his most memorable visions of a common humanity.
