### Scootermania

#### A celebration of style and speed

*Bloomsbury Publishing* From its origins the Italian battlefields of the Second World War, to movie roles as Audrey Hepburn's transport in Roman Holiday and Sting's stylish companion in Quadrophenia and on through the current vintage revival, the classic Italian motor scooter is an enduring design classic from the 20th century. Scootermania celebrates the superbly simple vehicles that are so symbolic of freedom, style and the modern world. Originating in the 1940s in Milan and Pontedera, Tuscany, the scooter became an enduring transport choice for young people and urban environments. Early chapters look at scooter racing and long-distance attempts, and their role as an anti-tank weapon in the French army. There is engaging coverage of place of scooters in popular culture from films, music and fashion including the way that a host of disparate groups has made the bikes their own - from the British Mods of the 1960s and 1980s to their role in American and Japanese fashion and in their Italian homeland. The evolution and design of classic models as the Vespa 150 GS and the Lambretta Li 150 Series 3 are covered while scooter stars such as Enrico Piaggio and Georges Monneret are celebrated in their own words. The book also includes a number of specially photographed features on modern scooter designers, collectors and artists.

## Knowing the Score

## How Sport teaches us about Philosophy (and Philosophy about Sport)

*Hachette UK* 'A tour de force that provides fresh insight not only into the nature of sport, but cooperation, the mind, altruism, teamwork, leadership, tribalism and ritualism. It's a book that every sports fan should read, and every sports writer should absorb' Matthew Syed 'David Papineau's book is an important contribution to our thinking about sports, society, psychology, and moral philosophy. But it is also much more than that. Gripping from start to finish, it is a terrific read full of humour and good sense. You don't even have to like sports to enjoy it' Ian Buruma Why do sports competitors choke? How can Roger Federer select which shot to play in 400 milliseconds? Should foreign-born footballers be eligible to play for England? Why do opposing professional cyclists help each other? Why do American and European golfers hate each other? Why does test cricket run in families? Why is punching tolerated in rugby but not in soccer? These may not look like philosophical questions, but David Papineau shows that under the surface they all raise long-standing philosophical issues. To get to the bottom of these and other sporting puzzles, we need help from metaphysics or ethics, or from the philosophy of mind or political philosophy, as well as numerous other philosophical disciplines. Knowing the Score will be an entertaining, fact-filled and erudite book that ranges far and wide through the sporting world. As a prominent philosopher who is also an enthusiastic amateur sportsman and omnivorous sports fan, David Papineau is uniquely well-placed to show how philosophy can illuminate sporting issues. By bringing his philosophical expertise to bear, he will add a new dimension to the way we think about sport.
