## THE 10 BEST HABITS OF SUCCESSFUL PEOPLE

*The Publisher, LLC* What makes people successful? Is it education? Is it money? Is it something beyond the understanding of humans? Does it require certain skills? Is it just hard work? Is it just a matter of being at the right place in the right time? Is it because they had the right people to guide them? If you have been asking yourself these questions, then you are in the right place. While it is true that almost all the things mentioned above are true to some extent, no one can deny that it takes more than sheer luck to become a success. It requires a lot of hard work. ## HIGH PERFORMANCE HABITS

---

## HOW EXTRAORDINARY PEOPLE BECOME THAT WAY

---

*Hay House, Inc* THESE HABITS WILL MAKE YOU EXTRAORDINARY. Twenty years ago, author Brendon Burchard became obsessed with answering three questions: 1. Why do some individuals and teams succeed more quickly than others and sustain that success over the long term? 2. Of those who pull it off, why are some miserable and others consistently happy on their journey? 3. What motivates people to reach for higher levels of success in the first place, and what practices help them improve the most After extensive original research and a decade as the world's leading high performance coach, Burchard found the answers. It turns out that just six deliberate habits give you the edge. Anyone can practice these habits and, when they do, extraordinary things happen in their lives, relationships, and careers. Which habits can help you achieve long-term success and vibrant well-being no matter your age, career, strengths, or personality? To become a high performer, you must seek clarity, generate energy, raise necessity, increase productivity, develop influence, and demonstrate courage. The art and science of how to do all this is what this book is about. Whether you want to get more done, lead others better, develop skill faster, or dramatically increase your sense of joy and confidence, the habits in this book will help you achieve it faster. Each of the six habits is illustrated by powerful vignettes, cutting-edge science, thought-provoking exercises, and real-world daily practices you can

implement right now. If you've ever wanted a science-backed, heart-centered plan to living a better quality of life, it's in your hands. Best of all, you can measure your progress. A link to a free professional assessment is included in the book.

### THE PERFECT GUIDE OF HABITS REQUIRED TO BECOME SUCCESSFUL: HABITS OF SUCCESSFUL PEOPLE, HABITS OF SUCCESS, GOOD HABITS, SEVEN HABITS, SUCCESSFUL HAPPY

---

*Independently Published* Habit of successful people Willpower is not all that you need in adopting a new habit because saying, "I want to read books each day" is never a guarantee that you will actually read a book each day. You need more than willpower to help you adopt a new habit. What you really need is a well thought-out plan to help you fix the habit into your life. Habit formation is easy because it is something you want to condition your body to get used to. The following steps can help you build good habits that stick: 1.Start Small and Slowly Work Your Way up The problem with most people is that they think that there is a direct formula to help them adopt a habit overnight; that is why most people fail. You need to understand that patience pays and learning from the bottom and working your way up is the best way. 2.Tackle one habit at a time Dealing with too many new things at a time increases the risk of failure. I know you would like to adopt many beneficial habits so that you can achieve your goals but you need to deal with one habit at a time. Pick out one of the easiest habits then work on it. After you have successfully adopted it, you can move on to another one. This is the only way you can be sure of being able to succeed in developing the habits. The idea here is to create some kind of order so that you can avoid the stress of having to deal with technical habits all at the same time. 3.Anchor Your Habit to an Already Existing One Forgetting to perform the habit you want to adopt is the first step towards failure. This might be because you have forgotten to perform the habit as in most cases because the habit has not yet stuck and become autonomic. Therefore, you need to make sure that you remember to perform the habit by attaching the habit to an already existing one, which is similar to it or leads to it. If you want to adopt the habit of doing some exercises each morning you wake up, then the best way is anchoring the habit to something that you already do every morning like brushing your teeth; so that each morning after you brush your teeth you will exercise. 4.Reward Yourself Motivating and encouraging yourself is a good way to making sure that you succeed in everything that you are doing. In our case, you need to reward yourself each time you develop a habit successfully so that you can make it fun. This reward doesn't have to be that much of a deal but even celebrating with family or a friend is enough, so that you can be motivated to adopting the next habit on the list. ### THE MOTHER'S SECRET TO SUCCESS

---

*CreateSpace* A selection of Charlotte Mason's writings on the topic of Habit Formation in children. Her teachings on the topic of education required six large volumes to cover. This book makes it simple for homeschooling parents to find exactly what they need to learn about Charlotte Mason's thoughts on establishing good habits. The teachings and philosophies of Charlotte Mason, a British educator from the last century, are currently experiencing a revival, especially among American private and home schools. Mason's educational ideas were originally used by governesses in England to educate the children in their charge. Eventually, schools based on her philosophies sprung up throughout England, and her original training school became a college to supply teachers for the Parents' Union Schools throughout the world. Mason developed a lifetime love of learning in her students by actively engaging children firsthand with nature, literature, science, history, art, music, and avoiding dumbed-down materials - what she referred to as twaddle - as much as possible. The content of Habits: The Mother's Secret to Success was compiled and adapted by Deborah Taylor-Hough, long time homeschooling mother of three, author of A Twaddle-Free Education: An Introduction to Charlotte Mason's Timeless Educational Ideas, and editor of the Charlotte Mason eMagazine. CONTENTS INCLUDE: Habit May Supplant "Nature" The Formation of Habit Childhood and Nursery Habits Habits of Mind and Morals The Habit of Attention The Habit of Obedience Habits of Truth and Temper .... and more!
