ANAC'S CORE CURRICULUM FOR HIV / AIDS NURSING

Jones & Bartlett Publishers The Association of Nurses in AIDS Care (ANAC) presents the essential information needed by every nurse working with HIV/AIDS patients in any setting. The text provides an educational framework for HIV/AIDS clinical content and serves those preparing for specialty certification in HIV/AIDS training. The text covers: A) Infection, transmission, and prevention B) Clinical management of a variety of patient types C) Symptomatic conditions and symptom management D) Special populations E) Psychosocial concerns for patients. ANAC's Core Curriculum for HIV/AIDS Nursing, Third Edition includes the following new topics: Updates to the evidence basis underlying the nursing care of persons with HIV/AIDS. New issues and challenges including the care for pediatric patients and adults with giardia, syphilis and bipolar disease. New text features including case studies and quizzes.

HOME CARE NURSING PRACTICE

CONCEPTS AND APPLICATION

Elsevier Health Sciences "This text covers conceptual information, leadership skills and current issues and trends. It provides clear and concise information about the best practices and quality improvement for the most common clinical conditions seen in home care." --Cover.

ANNUAL REVIEW OF NURSING RESEARCH, VOLUME 25, 2007

VULNERABLE POPULATIONS

Springer Publishing Company This 25th anniversary edition of the Annual Review of Nursing Research is focused on nursing science in vulnerable populations. Identified as a priority in the nursing discipline, vulnerable populations are discussed in terms of the development of nursing science, diverse approaches in building the state of the science research, integrating biologic methods in the research, and research in reducing health disparities. Topics include: Measurement issues Prevention of infectious diseases among vulnerable populations Genomics and proteomics methodologies for research Promoting culturally appropriate interventions Community-academic research partnerships with vulnerable populations Vulnerable populations in Thailand: women living with HIV/AIDS As in all volumes of the Annual Reviews, leading nurse researchers provide students, other researchers, and clinicians with the foundations for evidence-based practice and further research.

ALEXANDER'S NURSING PRACTICE E-BOOK

HOSPITAL AND HOME - THE ADULT

Elsevier Health Sciences The most comprehensive UK Adult Nursing core text, now in its fourth edition, for the next generation of nurses... This best-selling textbook has been fully revised by a team of experienced nurses for nurses focusing on the issues that are important to them. It provides a comprehensive source of the knowledge and skills required for competent, evidence-based nursing practice. Elsevier Health Sciences Staff Development Nursing Secrets is a practical guide for nurse educators working in staff development. The question and answer format helps provide readers with specific answers to their everyday questions and challenges. The text explores the state of today's healthcare world and identifies the myriad of competencies and skills necessary for a nurse educator to succeed. In addition, nurse educators will gain useful tips and knowledge regarding the planning, implementation and evaluation of many types of educational programming. The text concludes with a section on the nuts and bolts of common staff development programs. Engaging, interactive Q & A format Concise answers with valuable pearls, tips, memory aids, and "secrets" 22 succinct chapters written for quick review All the most important, "need-to-know" questions and answers in the proven format of the highly acclaimed Secret Series® Thorough, highly detailed index

SILENCING THE SELF ACROSS CULTURES

DEPRESSION AND GENDER IN THE SOCIAL WORLD

Oxford University Press Offering new perspectives on social and psychological aspects of the complex dynamic of depression, the authors use Silencing the Self theory, which details the negative psychological effects when individuals silence themselves in close relationships and the importance of the social context in precipitating depression.

ONCOLOGY NURSING SECRETS

Elsevier Health Sciences Using a question-and-answer format, this book provides practical pearls of wisdom and tricks of the trade to enhance your oncology nursing skills and aid in effective decision-making when caring for your patients. Written by experts in the field, this reference provides insightful answers, bulleted lists, and tables so you get the best information in an easy-to-read format. Keep it on hand every day in the clinical setting, use it to review for certification, or add it to your professional library at home! The 75 Top Secrets, listed in the front of the book, highlight the key points you should know about oncology nursing. Key Points boxes in each chapter outline important points to remember. Internet Resources boxes direct you to more information on a variety of topics via the

web.Versatile question-and-answer format, written by experts in the field, makes this book great for both the experienced and new nurse. A chapter on sleep-wake disturbances enables you to help patients get the rest they need.Expanded content in chapters on carcinogenesis and genetics, biologic and targeted therapy, leukemia and myeloidyplastic syndrome, and disseminated intravascular coagulation provides a deeper look into these important aspects of oncology nursing.

A CROSS SECTION OF NURSING RESEARCH

JOURNAL ARTICLES FOR DISCUSSION AND EVALUATION

Taylor & Francis • The 39 research articles in this collection illustrate a wide variety of models for both quantitative and qualitative nursing research. •The lines in each article are sequentially numbered, which facilitates classroom discussions by allowing professors and students to pinpoint specific parts of an article. •The articles have been carefully selected for use with students who are just beginning their study of research methods. The difficulty level will challenge but not overwhelm. •Factual Questions at the end of each article draw students' attention to methodologically important points. •Questions for Discussion request students' opinions on unique aspects of each article. •Helps instructors avoid copyright infringement problems. The publisher has paid fees to the copyright holders for permission to include the research articles in this book. • New to this edition: A copy of our Bonus Articles for A Cross Section of Nursing Research booklet is included free of charge. •The research articles are classified under these major headings: •nonexperimental quantitative research •true experimental research •quasi-experimental research •pre-experimental research •qualitative research •combined qualitative and quantitative research •test reliability and validity research •meta analysis. The articles have been drawn from a wide variety of journals such as: •Behavior Modification •Cancer Nursing •Computers in Nursing •Computers, Informatics, Nursing •Health Education & Behavior •Issues in Mental Health Nursing •Journal for Nurses in Staff Development •Journal of Community Health Nursing •Journal of Gerontological Nursing •Journal of Nursing Care Quality •Journal of Pediatric Nursing •Journal of Research in Nursing •Journal of the Society of Pediatric Nurses •Nurse Educator •Nursing Research •Psychological Reports •Public Health Nursing •Rehabilitation Nursing •Research in Nursing & Health •The Journal of Nursing Administration •Western Journal of Nursing Research

ANAC'S CORE CURRICULUM FOR HIV/AIDS NURSING

SAGE Written by nurses for nurses, this thoroughly revised edition of ANAC's Core Curriculum for HIV/AIDS Nursing highlights the extraordinary improvements in clinical and symptom management in HIV/AIDS over the last 10 years. Containing not only the essential information that every practitioner needs to know (such as taking a medical and social history, physical examination, symptomatic conditions and management, HIV testing, and laboratory and diagnostic evaluation), ANAC's Core Curriculum also covers specialized nursing information such as case management, ethical and legal concerns, infection control, and patient education.

MEDICAL-SURGICAL NURSING - E-BOOK

CONCEPTS FOR INTERPROFESSIONAL COLLABORATIVE CARE

Elsevier Health Sciences Master the essential medical-surgical nursing content you'll need for success on the Next Generation NCLEX® Exam (NGN) and safe clinical practice! Medical-Surgical Nursing: Concepts for Interprofessional Collaborative Care, 10th Edition uses a conceptual approach to provide adult health knowledge and help you develop the clinical nursing judgment skills that today's medical-surgical nurses need to deliver safe, effective care. "Iggy" emphasizes three emerging trends in nursing — interprofessional collaborative care, concept-based learning, and clinical judgment and systems thinking — trends that will ground you in how to think like a nurse and how to apply your knowledge in the classroom, simulation laboratory, and clinical settings. A perennial bestseller, "Iggy" also features NCLEX Exam-style Challenge and Mastery questions to prepare you for success on the NGN! Consistent use of interprofessional terminology promotes interprofessional collaboration through the use of a common healthcare language, instead of using isolated nursing-specific diagnostic language. UNIQUE! Enhanced conceptual approach to learning integrates nursing concepts and exemplars, providing a foundation in professional nursing concepts and health and illness concepts, and showing their application in each chapter. Unparalleled emphasis on clinical reasoning and clinical judgment helps you develop these vital skills when applying concepts to clinical situations. Emphasis on QSEN and patient safety focuses on safety and evidence-based practice with Nursing Safety Priority boxes, including Drug Alert, Critical Rescue, and Action Alert boxes. Direct, easy-to-read writing style features concise sentences and straightforward vocabulary. Emphasis on health promotion and community-based care reflects the reality that most adult health care takes place in environments outside of high-acuity (hospital) settings.

ORTHOPEDIC NURSING SECRETS

Elsevier Health Sciences Orthopedic Nursing Secrets provides pearls of knowledge, or nursing secrets to nurses who provide care to patients with musculoskeletal disorders. Not only is this a useful reference for orthopedic nurses, but also for nurses who provide care to orthopedic patients in a variety of settings including the ER, OR, ICU, Med/Surg units, outpatient clinics, etc. This book provides

essential nursing considerations from a wide variety of orthopedic nursing topic areas. Each chapter has been developed upon thought-provoking questions and straightforward answers. - Engaging, interactive Q & A format - Concise answers with valuable pearls, tips, memory aids, and secrets - 18 succinct chapters written for quick review - All the most important, need-to-know questions and answers in the proven format of the highly acclaimed Secret Series - Thorough, highly detailed index

MEDICAL-SURGICAL NURSING

PATIENT-CENTERED COLLABORATIVE CARE, SINGLE VOLUME

Elsevier Health Sciences Using a unique collaborative care approach to adult health nursing, *Medical-Surgical Nursing: Patient-Centered Collaborative Care, 8th Edition* covers the essential knowledge you need to succeed at the RN level of practice. Easy-to-read content includes evidence-based treatment guidelines, an enhanced focus on QSEN competencies, and an emphasis on developing clinical judgment skills. This edition continues the book's trendsetting tradition with increased LGBTQ content and a new Care of Transgender Patients chapter. Written by nursing education experts Donna Ignatavicius and M. Linda Workman, this bestselling text also features NCLEX® Exam-style challenge questions to prepare you for success on the NCLEX Exam. Cutting-edge coverage of the latest trends in nursing practice and nursing education prepares you not just for today's nursing practice but also for tomorrow's. UNIQUE! Collaborative care approach organizes all medical, surgical, nursing, and other interventions within the framework of the nursing process, mirroring the nurse's role in the coordination/management of care in the real world of medical-surgical nursing. UNIQUE! A focus on nursing concepts relates concepts learned in *Nursing Fundamentals* with the disorders you will study in *Medical-Surgical Nursing*. Easy to read, direct-address writing style makes this one of the most readable medical-surgical nursing textbooks available. UNIQUE! A focus on QSEN emphasizes patient safety and evidence-based practice with Nursing Safety Priority boxes including Drug Alerts, Critical Rescues, and Action Alerts. UNIQUE! Emphasis on clinical judgment teaches you to develop skills in clinical reasoning and clinical decision-making when applying concepts to clinical situations, with Clinical Judgment Challenge questions throughout the chapters. An emphasis on prioritization stresses the most important patient problems and nursing interventions, with patient problems presented in a single prioritized list of nursing diagnoses and collaborative problems. UNIQUE! NCLEX preparation tools include chapter-opening Learning Outcomes and chapter-ending Get Ready for the NCLEX Examination! sections organized by NCLEX® Client Needs Categories, plus NCLEX Examination Challenge questions, with an answer key in the back of the book and on the Evolve companion website. Practical learning aids include NCLEX Examination Challenges, Clinical Judgment Challenges, Best Practice for Patient Safety & Quality Care charts, common examples of drug therapy, concept maps, laboratory profiles, and more. A clear alignment with the language of clinical practice reflects the real world of nursing practice with NANDA diagnostic labels where they make sense, and non-NANDA diagnostic labels when these are more common descriptions of patient problems. Student Resources on an Evolve companion website help you prepare for class, clinicals, or lab with video and audio clips, animations, case studies, a concept map creator, NCLEX exam-style review questions, and more. UNIQUE! Concentration on essential knowledge for the RN level of medical-surgical nursing practice focuses your attention on need-to-know content to pass the NCLEX Examination and practice safety as a beginning nurse. NEW! Enhanced focus on QSEN (Quality and Safety Education for Nurses) competencies includes new icons identifying QSEN competency material and new Quality Improvement boxes describing projects that made a dramatic difference in patient outcomes. UPDATED learning features include an expanded emphasis on developing clinical judgment skills; on prioritization, delegation, and supervision skills; on long-term care issues; and on preparation for the NCLEX® Examination and consistency with the 2013 NCLEX-RN® Test Plan. NEW! UNIQUE! Care of Transgender Patients chapter discusses the unique health care needs and issues specific to the transgender community. Improved delineation of NANDA-I nursing diagnoses clearly differentiate NANDA diagnoses from collaborative problems. NEW photos and drawings show patient care skills as well as the latest in nursing education and practice.

TRIAGE NURSING SECRETS

Mosby Part of the Nursing Secrets Series (R) and written in a question & answer format, *Triage Nursing Secrets* begins with an overview of triage nursing and moves to a significant section on symptoms and a final section on issues and competencies. This practical resource is a collection of pearls of wisdom and tricks of the trade to aid effective nurse triage decisions. Content includes guiding principles, objective criteria, mnemonics/memory aids, discriminators, determinants from standardized triage systems and differences between the typical presentation of men vs. women in various conditions including stroke, chest pain, and domestic violence. Written by experts in the field of triage nursing for the most authoritative information. Key Points boxes emphasize the most important material in each chapter. Internet Resources in appropriate chapters provide sources for further studying and reference. Mnemonics/memory aids help readers remember important concepts. Top Secrets of triage nursing are included in the front matter for quick reference. Topical chapters are included on disaster and terrorism issues, as well as the always-changing regulatory issues in triage nursing. Engaging, straightforward Question-and-Answer format makes it easy to look up needed facts and information in any setting. Visually appealing two-color design makes material accessible and reader-friendly.

NURSING THEORISTS AND THEIR WORK

Elsevier Health Sciences The most comprehensive of its kind, *Nursing Theorists and Their Work, 8th Edition* provides an in-depth look at 39 theorists of historical, international, and significant importance. Each chapter features a clear, consistent presentation of a key nursing philosophy or theory. Case studies, critical thinking activities, and in-depth objective critiques of nursing theories help bridge the gap

between theory and application. Critical Thinking Activities at the end of each theorist chapter help you to process the theory presented and apply it to personal and hypothetical practice situations. A case study at the end of each theorist chapter puts the theory into a larger perspective, demonstrating how it can be applied to practice. A Brief Summary in each theorist chapter helps you review for tests and confirm your comprehension. A Major Concepts & Definitions box included in each theorist chapter outlines the theory's most significant ideas and clarifies content-specific vocabulary. Each theorist chapter is written by a scholar specializing in that particular theorist's work, often having worked closely with the theorists, to provide the most accurate and complete information possible. Beginning chapters provide a strong foundation on the history and philosophy of science, logical reasoning, and the theory development process. Diagrams for theories help you visualize and better understand inherently abstract concepts. Pictures of theorists, as well as a listing of contact information for each individual, enables you to contact the source of information directly. Theorist chapters have been reviewed and edited by the theorist, validating the accounts set forth in the text for currency and accuracy. An extensive bibliography at the conclusion of each theorist chapter outlines numerous primary and secondary sources of information, ideal for both undergraduate and graduate research projects. NEW! Quotes from the theorist make each complex theory more memorable. NEW! Chapter on Afaf Meleis profiles a theorist who has shaped theoretical development in nursing and explores her "transition theory." NEW! Need to Know Information is highlighted to streamline long, complex passages and help you review key concepts. NEW! Points for Further Study at the end of each chapter direct you to assets available for additional information.

TRANSPLANTATION NURSING SECRETS

Transplantation Nursing Secrets serves as a reference guide for nurses caring for solid organ transplant candidates, recipients and living donors. Each chapter is written by a clinician who is an expert in the care of this complex patient population. The book focuses on the pre- and post-operative periods and also addresses long-term issues such as infection, rejection, nutrition, healthy lifestyles, drug interactions and psychosocial adaptation. Information contained in each chapter reflects current practice based on literature reviews, outcomes of research and professional experiences. The goal of this book is to share best practices and "pearls" of knowledge accumulated by experienced transplant nurses, pharmacists, social workers and dietitians. Readers will gain insights into the multidisciplinary, comprehensive team approach necessary in the care of transplant candidates, recipients, and living donors. Engaging, interactive Q & A format Concise answers with valuable pearls, tips, memory aids, and "secrets" 25 succinct chapters written for quick review All the most important, "need-to-know" questions and answers in the proven format of the highly acclaimed Secret Series® Thorough, highly detailed index

INFECTION CONTROL AND MANAGEMENT OF HAZARDOUS MATERIALS FOR THE DENTAL TEAM - E-BOOK

Elsevier Health Sciences Emphasizing patient safety and disease prevention in the dental office, *Infection Control and Management of Hazardous Materials for the Dental Team*, 6th Edition, is a go-to text for all members of the dental team. With discussions ranging from microbiology concepts to protocols for clinical asepsis, this comprehensive, highly practical text features the most up-to-date regulatory recommendations, as well as new chapters on patient safety preparation and infection control breaches. Step-by-step instructions make it easy for you to perform safety procedures and use the supplies and equipment needed to prevent the spread of infectious disease, and new case scenarios present opportunities for critical thinking and application. Comprehensive coverage looks at infection control and prevention from the perspective of all dental team members. Easy-to-follow, step-by-step procedures are provided for skills that dental team members must master, each presented with a goal, materials, chronological steps, and rationales for the performance of each step. Review questions ensure your comprehension of the material and provide practice for classroom and board examinations, with 10 to 20 multiple-choice questions at the end of each chapter. Key terms begin each chapter and are highlighted within text discussions and defined in a back-of-book glossary. Chapter quizzes on the Evolve companion website provide instant-feedback self-assessment. A highly approachable writing style makes this text a trusted educational tool, as well as a refresher on infection control. Trusted author and oral biology and infection control expert, Chris Miller, delivers the most up-to-date content needed to ensure patient safety and clinical competence within the dental office. Logically organized into three parts with brief chapters that move from foundational biology through specific areas of infection control and application to a dental office. Eight practical appendices offer easy access to the most significant regulatory agency rules and recommendations for infection control. Chapter objectives help you set goals for what you will accomplish, and serve as checkpoints for comprehension and study tools in preparation for examinations. Summary tables and boxes make study easier by highlighting key concepts and procedures and serve as useful review tools. NEW! Updated content based on the CDC's Summary of Infection Prevention Practices in Dental Settings, which includes additional topics and information to augment the 2003 Guidelines for Infection Control in Dental Health-Care Settings. NEW! Two new chapters cover preparing for patient safety (focusing on training for dental personnel) and infection control breaches within dental offices. NEW! Case scenarios added to specific chapters examine an infection control incident, along with its potential consequences, possible preventive measures, and related recommendations and regulations. NEW and EXPANDED! Additional full-color images focus on disease states, disease transfer, and safety culture, helping improve teaching and learning.

SCIENCE OF CARING

CERTIFICATION REVIEW FOR PERIANESTHESIA NURSING - E-BOOK

Elsevier Health Sciences The only question-based CAPA and CPAN exam review available, *Certification Review for PeriAnesthesia Nursing*, 3rd Edition is written by the American Society of PeriAnesthesia Nurses (ASPAN) -- the leading organization for perianesthesia nursing education, practice, standards and research. A total of 600 multiple-choice review questions includes case study and clinical application questions, answers, comprehensive rationales, and references to current research. Questions are updated to reflect the latest standards of practice and ABPANC's examination blueprints. From Barbara Putrycus and Jacqueline Ross, this ASPAN practice tool helps you review the core knowledge and essential skills you need for in-hospital or ambulatory certification. It has come to our attention that there are errors in the 3rd edition of ASPAN/Putrycus/Ross: *Certification Review for Perianesthesia Nursing*. Those errors have now been corrected. Please contact Customer Service at 1-800-545-2522 and mention part number 9996090566 to receive the corrections. We sincerely apologize for any problems this may have caused. UNIQUE! Review is based on the latest CPAN and CAPA examination blueprints, preparing you for the four core areas of knowledge tested: physiological, behavioral and cognitive, safety, and patient advocacy. Essential core concepts and cross references to ASPAN's *PeriAnesthesia Nursing Core Curriculum*, 2nd Edition, are listed in the beginning of each chapter. Case study and clinical application questions include answers, correct answer rationales, and individual rationale references for each question. Chapters are broken into sets, with at least 20 multiple-choice questions included in each set. Convenient index is organized by question number rather than page number. Questions are revised or completely new to reflect the latest standards of practice and ABPANC's examination blueprints. Updated rationales and references are provided. New format features answers and rationales after each set of questions and also provides an answer key for all chapters at the end of the book. A chapter outline is included at the beginning of every chapter, and thumb tabs help you navigate more easily through the book.

THE PERSON WITH HIV/AIDS

NURSING PERSPECTIVES, FOURTH EDITION

Springer Publishing Company "This is an excellent reference for those caring for clients with HIV/AIDS. I strongly recommend this book." --Doody's HIV/AIDS is no longer a certain death sentence. Patients

fighting the chronic symptoms of HIV/AIDS are now living longer, fuller lives due to recent scientific and pharmaceutical breakthroughs. As a result, the new generation of caregivers must keep pace with cutting-edge, evidence-based practices to better serve patients who may live with HIV/AIDS for several decades. This updated edition is a vital resource for nurses and other health care professionals providing care to HIV-positive persons in the 21st century. The contributors present essential information on the medical assessment and management of symptoms, the prevention of infection, ethical and legal dimensions of care, and much more. With a greater emphasis on the international dimensions of the HIV pandemic and the treatment of minority populations, this book serves as an essential guide for nurses and health care practitioners serving patients with HIV/AIDS. Key topics include: HIV screening, testing, and counseling HIV/AIDS nursing case management within the global community HIV and gay, lesbian, bisexual, and transgender persons Children and HIV prevention and management HIV in corrections facilities and the care of incarcerated patients Sex workers and the transmission of HIV

BALANCING THE SECRETS OF PRIVATE DISCLOSURES

Routledge This book joins together disclosure, privacy, and secrecy to pursue a greater understanding of how people are both public and private in their interactions. To be social yet autonomous, known yet unknown, independent yet dependent on others is essential to the communicative world. How do people manage these seemingly incongruous goals? This book argues that they actively work at balancing simultaneous needs of being both public and private. It highlights many different ways that people balance their public needs with their privacy needs underscoring the multidimensional nature of balance. The chapters also show that the opposing needs occur within a variety of contexts, from health issues, such as HIV/AIDS, to television talk shows. Readers will discover that avoiding disclosure is a dominant theme. In this way, the authors demonstrate how people balance privacy and secrecy by deemphasizing openness. Taken as a whole, this volume offers a refreshing new look at age-old concerns.

STIGMA, DISCRIMINATION AND LIVING WITH HIV/AIDS

A CROSS-CULTURAL PERSPECTIVE

Springer Science & Business Media Up until now, many articles have been written to portray stigma and discrimination which occur with people living with HIV/AIDS (PLWHA) in many parts of the world. But this is the first book which attempts to put together results from empirical research relating to stigma, discrimination and living with HIV/AIDS. The focus of this book is on issues relevant to stigma and discrimination which have occurred to individuals and groups in different parts of the globe, as well as how these individuals and groups attempt to deal with HIV/AIDS. The book comprises chapters written by researchers who carry out their projects in different parts of the world and each chapter contains empirical information based on real life situations. This can be used as an evidence for health care providers to implement socially and culturally appropriate services to assist individuals and groups who are living with HIV/AIDS in many societies. The book is of interest to health care providers who have their interests in working with individuals and groups who are living with HIV/AIDS from a cross-cultural perspective. It will be useful for students and lecturers in courses such as anthropology, sociology, social work, nursing, public health and medicine. In particular, it will assist health workers in community health centres and hospitals in understanding issues related to HIV/AIDS and hence provide culturally sensitive health care to people living with HIV/AIDS from different social and cultural backgrounds. The book is useful for anyone who is interested in HIV/AIDS-related stigma and discrimination in diverse social and cultural settings.

EMERGENCY NURSING CORE CURRICULUM E-BOOK

Elsevier Health Sciences Whether you are a new or an experienced emergency nurse, you'll find that the Emergency Nursing Core Curriculum, 6th Edition is an essential tool for your practice. Authored by the Emergency Nurses Association (ENA), this highly-respected resource will help you build and verify your knowledge, develop practice standards, improve quality of care, and educate nursing staff as well as patients and families. The Emergency Nursing Core Curriculum, 6th Edition is also the ideal resource to help you prepare for the Certification for Emergency Nurses (CEN) exam. Authored by ENA, you can rely on this text to be the most authoritative and up-to-date resource available. The text's outline format and alphabetical listing of the Clinical Emergencies chapters mean you can find the information you need - fast! The most recent CEN examination content is included to ensure that you're prepared and confident. Nine new chapters incorporate the latest information about: Triage Complementary and Alternative Therapies Cultural Dimensions and Emergency Nursing End-of-Life Issues in the Emergency Department Hemodynamic Monitoring Hematologic/Oncologic Emergencies Mechanism of Injury Weapons of Mass Destruction Forensic Nursing Practice A new unit on trauma emergencies reorganizes information from the previous edition to help you more easily find the facts you need. More illustrations and tables are included to enhance your understanding of key information.

POTTER & PERRY'S FUNDAMENTALS OF NURSING - AUS VERSION - E-BOOK

Elsevier Health Sciences Potter and Perry's Fundamentals of Nursing, 4th ANZ edition ebook is the leading fundamentals text for nursing students in Australia and New Zealand. The dynamic fourth edition

of Potter and Perry's Fundamentals of Nursing presents an engaging approach to the fundamentals of nursing while building on its renowned reputation as the foremost text for nursing students across Australia and New Zealand. The new editorial team presents a critical thinking approach, to encourage the critical skills and understandings students require to maintain a high level of active engagement in the development of their practice within the health care systems they will work throughout their careers. Meaningful clinical examples combined with critical thinking questions, promote reflection and support deeper learning. These examples underscore how putting quality nursing knowledge and skills into practice can mean the difference between patient recovery and independence versus life threatening complications and patient decline. Current research examples encourage students to see the dynamic nature of evidence for nursing practice and gain understanding that ongoing change in practice is the norm and should be embraced. Potter and Perry's Fundamentals of Nursing, 4th ANZ edition ebook is supported by the Fundamentals of Nursing: clinical skills workbook 2nd edition. The skills in this indispensable workbook are directly aligned to the National Competency Standards for the Registered Nurse for Australia and New Zealand and support the theory and practice of each skill. A mobile study app for iOS called ClinicalCases is also available via the Apple App store for purchase. The ClinicalCases app takes an engaging approach to learning and revision. Students will find it the perfect exam preparation and study tool. It consists of 24 progressive case studies with MCQs and explanations for all answers. It also features over 150 Flash card key terms and a Word game. A great way to learn at your own pace, whenever, wherever... Elsevier's Evolve platform also offers a wealth of online resources for nursing students and lecturers, including an impressive suite of Australian nursing clinical skills videos to be used in conjunction with the text and workbook. These videos are ideal for viewing in class or during independent study and are a valuable tool for revision prior to assessment. Other online resources include PowerPoint presentations, an exam view test bank, critical thinking questions and answers, integrated lesson plans, images, weblinks and a chapter on the Essentials of Care.

PRACTICE GUIDELINES FOR ACUTE CARE NURSE PRACTITIONERS - E-BOOK

Elsevier Health Sciences PRACTICE GUIDELINES FOR ACUTE CARE NURSE PRACTITIONERS, 2nd Edition is the only comprehensive clinical reference tailored to the needs of advance practice nurses. With discussions of more than 230 of the most common conditions experienced by adult patients in acute care, this reference includes everything you need on a day-to-day basis. Plus, quick reference is easy with a spiral binding and content organized by body system. Each condition lists a concise outline of defining terms, incidence/predisposing factors, subject and physical examination findings, diagnostic tests, and management strategies so you can find everything you need to know quickly. Includes discussion of body systems, nutritional considerations, fluid/electrolyte imbalances, shock, trauma, gerontological concerns, professional issues, and trends in advanced practice. Nursing guidelines for more than 230 of the most common conditions experienced by adult patients in acute care serve as an invaluable resource in the field. Conditions are organized by body system for quick reference when treating patients. Each condition lists defining terms, incidence/predisposing factors, subjective and physical examination findings, diagnostic tests, and management strategies to provide help every step of the way. Coverage also includes discussion of body systems, nutritional considerations, fluid/electrolyte imbalances, shock, and trauma for a complete look at patient care and diagnosis. An entire chapter dedicated to congestive heart failure gives you a deeper look at the disease. Specific content, as well as online references, for diseases such as SARS and West Nile Virus give you the most current information available on these evolving diseases. New chapters on admission, pre-op and post-op orders prepare you for every step of the patient treatment process. Addition of ICD-9 codes within the chapters makes classifying diseases with ICD codes easy. New content on Parkinson's disease, gout, testicular cancer, multiple sclerosis, bite management (including spider, snake, animal, and human) better prepare you for these situations. Updated and expanded content reflects changes in current guidelines and evidence-based practice, an important part of working in the field. Updated and expanded content on coronary artery disease and inclusion of the new JNC 7 national hypertension guidelines features more information on these common diseases. Expanded and updated coverage of postmenopausal women and hormone replacement therapy.

INFECTION CONTROL AND MANAGEMENT OF HAZARDOUS MATERIALS FOR THE DENTAL TEAMS

INFECTION CONTROL AND MANAGEMENT OF HAZARDOUS MATERIALS FOR THE DENTAL TEAM

Elsevier Health Sciences Emphasizing patient safety and infection prevention in the dental office, Infection Control and Management of Hazardous Materials for the Dental Team, 5th Edition, covers everything from basic concepts in microbiology to protocols for clinical asepsis. Clear, step-by-step instructions make it easy for you to perform safety procedures and use the supplies and equipment needed to prevent the spread of infectious disease. New to this edition are full-color photographs and four new chapters on emerging topics. Written by oral biology and infection control expert Chris Miller, this resource is a must read for every member of the dental team. Comprehensive coverage follows dental assisting and dental hygiene curricula requirements for infection control, ensuring that you learn essential principles and procedures for clinical competence. Easy-to-follow, step-by-step procedures are provided for skills that dental team members must master, each presented with a goal, materials, chronological steps, and rationales for the performance of each step. Key terms begin each chapter and are highlighted within text discussions and defined in a back-of-book glossary. Summary tables and boxes make study easier by highlighting key concepts and procedures. Review questions ensure your comprehension of the material with 5 to 20 multiple-choice questions at the end of each chapter. Practical appendices offer easy access to the most significant regulatory agency rules and recommendations for infection control. Student resources on the Evolve companion website include practice exercises plus review questions and quizzes. NEW! Full-color photographs show the latest equipment, supplies, and procedures and accurately depict concepts in microbiology and the nature of infectious

disease. Four NEW chapters cover changing and emerging topics and trends in infection control, including Hand Hygiene, Preventing Sharps Injuries, General Office Asepsis, and Cross-contamination Between Work and Home. NEW! Case scenarios on the Evolve companion website examine an infection control incident along with its potential consequences, possible preventive measures, and related recommendations and regulations. UPDATED content includes new areas such as technology involving surface and equipment asepsis, dental water unit air quality, and green infection control.

LEGAL ISSUES IN SCHOOL HEALTH SERVICES

A RESOURCE FOR SCHOOL ADMINISTRATORS, SCHOOL ATTORNEYS, SCHOOL NURSES

iUniverse Legal Issues in School Health Services offers a legal resource never before available for education and health professionals, and their legal advisors. All professionals involved in the development, implementation, and evaluation of school health services will find this an exceptional tool. This book addresses the spirit and letter of the laws, the related standards, the conflict between them, and how they affect the delivery of school health services in regular and special education. Special attention is given to pertinent issues for school administrators, school attorneys, and school nurses, in order to foster school practices that are safe and effective. Designed as a guide and reference work, this book is written by 15 highly-credentialed nurses, attorneys, and educators and offers detailed discussions of the legal challenges that exist in the 21st century. KEY FEATURES School nursing practice, standards, and performance issues Risk management strategies for school administrators, school boards, and attorneys Multi-disciplinary approaches in ethico-legal problem solving Collaborative approaches in promoting student learning and success Financial, special education, record confidentiality, and future genetic challenges In-depth legal references, citations, and research, plus a comprehensive glossary and table of federal statutes and regulations

THE ENDANGERED SELF

IDENTITY AND SOCIAL RISK

Routledge To date, the majority of HIV/AIDS research has concentrated on education and prevention for those with a seronegative status, while studies of HIV positive individuals have been concerned with their potential to infect others. The Endangered Self however, focuses on how the discovery of an HIV positive status affects the individual's sense of identity, on the experience of living with HIV and its effects on the individual's social relationships. In this comparative study of the UK and US, Green and Sobo explore identity change and the stigma attached to an HIV positive status within the context of the sociology of risk. Chapters discuss issues such as: *identity, social risk and AIDS *stigma *living and coping with HIV *the danger of disclosure *reported reactions in health care settings and sexual settings *risk and reality *seropositivity. The Endangered Self will be of interest to all those infected with HIV and to their families, partners, friends and caregivers who are affected by it. It will be essential reading for health-care professionals and those studying medical anthropology, sociology and health and risk studies.

NURSING DIAGNOSIS HANDBOOK E-BOOK

AN EVIDENCE-BASED GUIDE TO PLANNING CARE

Elsevier Health Sciences Get nursing care plans right! Ackley's Nursing Diagnosis Handbook: An Evidence-Based Guide to Planning Care, 12th Edition helps practicing nurses and nursing students select appropriate nursing diagnoses and write care plans with ease and confidence. This convenient handbook shows you how to correlate nursing diagnoses with known information about clients on the basis of assessment findings, established medical or psychiatric diagnoses, and the current treatment plan. Extensively revised and updated with the new 2018-2020 NANDA-I approved nursing diagnoses, it integrates the NIC and NOC taxonomies, evidence-based nursing interventions, and adult, pediatric, geriatric, multicultural, home care, safety, and client/family teaching and discharge planning considerations to guide your students in creating unique, individualized care plans. Step-by-step instructions shows you how to use the Guide to Nursing Diagnoses and Guide to Planning Care sections to create a unique, individualized plan of care. UNIQUE! Provides care plans for every NANDA-I approved nursing diagnosis Promotes evidence-based interventions and rationales by including recent or classic research that supports the use of each intervention. Presents examples of and suggested NIC interventions and NOC outcomes in each care plan. 150 NCLEX exam-style review questions are available on Evolve. Easy-to-follow sections I and II guide you through the nursing process and selection of appropriate nursing Appendixes provide you with valuable information in an easy-to-access location. Clear, concise interventions are usually only a sentence or two long and use no more than two references. Safety content emphasizes what must be considered to provide safe patient care. Classic evidence-based references promote evidence-based interventions and rationales. List of Nursing Diagnosis Index on inside front cover of book for quick reference. Alphabetical thumb tabs allow quick access to specific symptoms and nursing diagnoses. NEW! Includes comprehensive, up-to-date information on the new 2018-2020 NANDA-I approved nursing diagnoses, complete with 17 new diagnoses. NEW! and UPDATED! Provides the latest NIC/NO C, interventions, and rationales for every care plan NEW! Section I: Gender identity discussion includes information about the caregiver's responsibility for adapting care accordingly. NEW! Interventions reorganized by priority helps you quickly identify the information you're searching for. NEW! Section II: Bullying, Gender Dysphoria, Medical marijuana, Military

families/personnel, Opioid use/abuse, Service animals, Technology addiction, and Veterans. NEW! Additional clarification of use of QSEN throughout book in Section I NEW! Concept map creator added from Yoost textbook. NEW! Updated rationales include evidence-based references 5 years or less.

TRAUMA NURSING SECRETS

Focused and concise, this book provides trauma nurses with all the essential, need-to-know information for this specialty -- from injury prevention through rehabilitation, from pediatrics to geriatrics, from head trauma to musculoskeletal trauma, and from bioterrorism to forensics. The question-and-answer format and informal tone make the text enjoyable as well as useful.

COMMUNITY & PUBLIC HEALTH NURSING

EVIDENCE FOR PRACTICE

Lippincott Williams & Wilkins Ensuring students meet the competencies outlined in the Quad Council of Public Health Nursing Organizations (ACHNE, 2011) and AACN's (2008) publication Essentials of Baccalaureate Education for Professional Nursing Practice Community and Public Health Nursing, the 3rd Edition of Community & Public Health is a primer to community, public, and population health nursing that develops students' abstract critical thinking skills and complex reasoning abilities through case studies, exercises, and examples throughout the highly illustrated text. Authors DeMarco & Healey-Walsh introduce public health concepts from an evidence-based perspective, allowing students to make connections between data and practice decisions. Because evidence-based practice guides quality performance improvements, the authors teach students to gather, assess, analyze, apply, and evaluate evidence— derived from epidemiology and other sources— for making public health practice decisions and for planning the care of individuals, families, and groups in the community. Examples assist students in interpreting and applying statistical data. The authors integrate timely topics (major challenges to nursing practice in the community, community and public health nursing specialties, cultural diversity, health disparities, globalism, epidemiology and basic biostatistics, and ethical considerations, Preventative immunizations, political proactiveness, advanced practice preparation, sustainable health goals, ebola, telehealth, opioid epidemic, veterans and LBGO as a underserved populations, iPrepare, health literacy, health promotion conferences, and Healthy People 2020.) Special attention will be given to add additional features and ancillaries that allow students to actively learn. Healthy People 2020, and students will complete short active learning activities/questions will allow students apply the goals to real-life scenarios. NEW to this edition's ancillary package are unfolding case studies related to our new clinical replacement solution Lippincott Clinical Experiences: Community, Public, and Population Health. Our PowerPoints have been enhanced and are now heavily illustrated.

OCCUPATIONAL THERAPY WITH ELDERS - E-BOOK

STRATEGIES FOR THE OCCUPATIONAL THERAPY ASSISTANT

Elsevier Health Sciences The only comprehensive book on geriatric occupational therapy designed specifically for the COTA, Occupational Therapy with Elders: Strategies for the COTA, 3rd Edition provides in-depth coverage of each aspect of geriatric practice, from wellness and prevention to death and dying. A discussion of foundational concepts includes aging trends and strategies for elder care, and coverage of emerging areas includes low-vision rehabilitation, mobility issues including driving, and Alzheimer's disease and other forms of dementia. Expert authors René Padilla, Sue Byers-Connon, and Helene Lohman offer an unmatched discussion of diverse populations and the latest on geriatric policies and procedures in this fast-growing area of practice. Unique! A focus on the occupational therapy assistant highlights the importance of COTAs to the care of elder clients. Case studies illustrate principles and help you apply what you've learned to actual situations. Key terms, chapter objectives, and review questions highlight important content in each chapter. Use of the term "elder" reduces the stereotypical role of dependent patients and helps to dispel myths about aging. A multidisciplinary

approach demonstrates how the OT and the COTA can collaborate effectively. Unique! Attention to diverse populations and cultures prepares you to respect and care for clients of different backgrounds. Unique! The companion Evolve website makes review easier with more learning activities, references linked to MEDLINE abstracts, and links to related OT sites. Unique! A discussion of elder abuse, battered women, and literacy includes information on how the COTA can address these often-overlooked issues. New information on alternative treatment settings for elders reflects new trends in OT care. Updated information on Medicare, Medicaid, and HIPAA regulations discusses the latest policies and how to incorporate the newest procedures into practice. Significant additions are made to the chapters on public policy, dementia, and oncology.
