Stress-free Chicken Tractor Plans

Step -by-step Instructions

"Inside these pages, you will find step-by-step instructions for a mobile broiler chicken shelter for pastured poultry that is used by farmers and homesteaders all over the country. Raising chickens on grass provides them with a healthy lifestyle and a delicious flavor. You can raise just enough of them to feed your family or scale up to include pastured poultry as a profitable part of your farm business. John Suscovich has raised thousands of chickens using these mobile shelters, a main enterprise on his farm in Connecticut. These chicken tractors were created using the best elements from other designs. They are easy to move and provide a good life for the chickens. With a little bit of creativity, they can also be modified for seasonal egg-layer housing, rabbits, ducks and forts for your kids. Not only does this book contain the plans and supply list to build your first chicken tractor, but it gives you some insight into how to use it and what mindset you should have if you are to become a happy and successful farmer. John also walks you through the light carpentry skills you need to build these chicken tractors and teaches you the most commonly used knots on a farm. You may learn these skills for this project, but you'll be able to apply them on your farm for years to come."--Page [4] of cover.

Discipline and Punish

The Birth of the Prison

Penguin UK 'Imaginative, illuminating and innovative' *The New York Times Book Review* The grisly spectacle of public executions and torture of centuries ago has been replaced by the penal system in western society - but has anything really changed? In his revolutionary work on control and power relations in our public institutions, Michel Foucault argues that the development of prisons, police organizations and legal hierarchies has merely changed the focus of domination from our bodies to our souls. Even schools, factories, barracks and hospitals, in which an individual's time is controlled hour by hour, are part of a disciplinary society. 'Foucault's genius is called forth into the eloquent clarity of his passions ... his best book' *Washington Post*
