POLICING AMERICA

METHODS, ISSUES, CHALLENGES

Author Kenneth Peak feels that this, the fourth edition of "Policing America, " is by far "bigger and better" than its three predecessors, providing a comprehensive view of the largely misunderstood, often obscure world of policing. New to This Edition: New chapter on community oriented policing and problem solving Discussions of terrorism (and the practices and technology being developed to combat it) Less-than-lethal weapons Hate crimes Stalking Updated court decisions The fourth edition continues to provide in-depth coverage of such topics as patrol, the police subculture, accountability, civil liability, extraordinary problems and practices, the rule of law, investigations, policing in selected foreign venues, and policing in the future. The author brings more than 30 years of both scholarly and policing backgrounds to this effort; as a result, the chapters contain a "real world" flavor not found in most policing textbooks. Disseminated throughout the book are several "Practitioner's Perspectives"--short essays written by selected individuals who have expertise in particular areas of policing. From its introduction, written by Darrel W Stephens, police chief of Charlotte, North Carolina, through the final chapter, the reader is provided with a penetrating view of what is certainly one of the most difficult and challenging occupations in America.

MANAGING CRIMINAL JUSTICE ORGANIZATIONS

AN INTRODUCTION TO THEORY AND PRACTICE

Routledge This book studies the formal and informal nature of the organizations involved in criminal justice. It will acquaint readers with the historical developments and application of managerial theories, principles, and problems of managing criminal justice organizations. Covers management positions in criminal justice, historical antecedents, decisionmaking and planning, staffing and personnel, training and education.

COMMUNITY JUSTICE

Routledge *Community Justice* discusses concepts of community within the context of justice policy and programs, and addresses the important relationship between the criminal justice system and the community in the USA. Taking a bold stance in the criminal justice debate, this book argues that crime management is more effective through the use of informal (as opposed to formal) social control. It demonstrates how an increasing number of criminal justice elements are beginning to understand that the development of partnerships within the community that enhance informal social control will lead to a stabilization and possible a decline in crime, especially violent crime, and make communities more liveable. Borrowing from an eclectic toolbox of ideas and strategies - community organizing, environmental crime prevention, private-public partnerships, justice initiatives - Community Justice puts forward a new approach to establishing safe communities, and highlights the failure of the current American justice system in its lack of vision and misuse of resources. Providing detailed information about how community justice fits within each area of the criminal justice system, and

including relevant case studies to exemplify this philosophy in action, this book is essential reading for undergraduate and postgraduate students of subjects such as criminology, law and sociology.

ETHICAL JUSTICE

APPLIED ISSUES FOR CRIMINAL JUSTICE STUDENTS AND PROFESSIONALS

Academic Press This textbook was developed from an idiom shared by the authors and contributors alike: ethics and ethical challenges are generally black and white - not gray. They are akin to the pregnant woman or the gunshot victim; one cannot be a little pregnant or a little shot. Consequently, professional conduct is either ethical or it is not. Unafraid to be the harbingers, Turvey and Crowder set forth the parameters of key ethical issues across the five pillars of the criminal justice system: law enforcement, corrections, courts, forensic science, and academia. It demonstrates how each pillar is dependent upon its professional membership, and also upon the supporting efforts of the other pillars - with respect to both character and culture. With contributions from case-working experts across the CJ spectrum, this text reveals hard-earned insights into issues that are often absent from textbooks

born out of just theory and research. Part 1 examines ethic issues in academia, with chapters on ethics for CJ students, CJ educators, and ethics in CJ research. Part 2 examines ethical issues in law enforcement, with separate chapters on law enforcement administration and criminal investigations. Part 3 examines ethical issues in the forensic services, considering the separate roles of crime lab administration and evidence examination. Part 4 examines ethical issues in the courts, with chapters discussing the prosecution, the defense, and the judiciary. Part 5 examines ethical issues in corrections, separately considering corrections staff and treatment staff in a forensic setting. The text concludes with Part 6, which examines ethical issues in a broad professional sense with respect to professional organizations and whistleblowers. *Ethical Justice: Applied Issues for Criminal Justice Students and Professionals* is intended for use as a textbook at the college and university, by undergraduate students enrolled in a program related to any of the CJ professions. It is intended to guide them through the real-world issues that they will encounter in both the classroom and in the professional community. However, it can also serve as an important reference manual for the CJ professional that may work in a community that lacks ethical mentoring or leadership. First of its kind overview of the five pillars of criminal justice: academia, law enforcement, forensic services, courts and corrections Written by practicing criminal justice professionals, from across every pillar Offers a realistic overview of ethical issues confronted by criminals justice students and professionals Examines sensitive subjects often ignored in other criminal justice ethics texts Numerous cases examples in each chapter to facilitate instruction and learning

Drawn from the presentations made at this symposium and supplemented with additional input from eminent experts, *Police Without Borders: The Fading Distinction between Local and Global* reflects the current status of research on this timely and critical topic. Topics discussed include: Policing activity, human rights, and corruption Female policing in India compared to other countries Challenges and obstacles in policing in Slovenia, China, Asia, and the Pacific Strategies for preventing juvenile delinquency in Japan and Hong Kong The threat caused by nonreturnable arrest warrants in Canada An insider's look at the United Kingdom's Integrated Special Branch, an intelligence unit Virtual organized crime in cyberspace A successful public housing safety initiative in the Eastern District of New York Highlighting individual differences in police theory, style, and practice around the world, this volume opens a dialogue in which police agencies and academics can learn from other cultures, recognize their similarities, and move towards an improved global policing methodology.

CORRECTIONS: A TEXT/READER

SAGE Publications *Corrections: A Text/Reader, Second Edition* is designed for undergraduate and/or graduate corrections courses. EDUCATION-BASED INCARCERATION AND RECIDIVISM

THE ULTIMATE SOCIAL JUSTICE CRIME FIGHTING TOOL

IAP *Education-Based Incarceration and Recidivism: The Ultimate Social Justice Crime Fighting Tool* takes a penetrating look at the needs and challenges of society's disenfranchised jail populations. It is incumbent to encourage public awareness of the causes that underlie the destructive cycles plaguing these populations, including the abuse and neglect that cycle through generations. When effectively addressed through education the economic burden on society is lightened and an advocacy to increase understanding engenders a humane response. When connecting education-based incarceration to leadership and social justice, several issues come to mind, beginning with the universal understanding that definitions of social justice are based on a variety of factors, like political orientation, religious background, and political and social philosophy. An increased body of researchers in educational leadership, ethics, law, sociology, corrections, law enforcement, criminal justice, and public health agree that social justice is concerned with equal justice, not just in the courts, but in all aspects of society. Social justice demands that people promote a just society where people have equal rights and opportunities; everyone, from the poorest person on the margins of society to the wealthiest deserves an even playing field. The intended audience for this book includes academics, national and international law enforcement agencies, and correctional institutions interested in establishing and assessing the effectiveness of an education-based incarceration program. This book can be used by educators and students interested in studying organizational leadership, correctional theory, recidivism, social and restorative justice, and education-based incarceration.
