## Financialization at Work

## Key Texts and Commentary

Crisis with US sub-prime mortgages, paralysis in global credit markets and the run on Northern Rock all wake-up calls to the growing influence of finance and financial markets on the lives of ordinary people. Social scientists began debating financialization in the late 2000s much as they debated globalization in the 1990s, and this important book prepares the way by allowing readers to (re)define financialization for themselves. The articles are grouped by discourse, covering not only inter-war liberal collectivism and current cultural economy, but also the agency theory of mainstream finance and political economy of various kinds. Helpful commentaries introduce each individual reading while section introductions analyze the assumptions, core propositions, achievements and limits in each distinct literature. This book will challenge readers to bring a new understanding to the financialization of present day capitalism. It is an invaluable resource for students and researchers from business and management, plus all the social sciences with interests in political and cultural economy.

## Biography in Theory

## Key Texts with Commentaries

*Walter de Gruyter GmbH & Co KG* This textbook is an anthology of significant theoretical discussions of biography as a genre and as a literary-historical practice. Covering the 18th to the 21st centuries, the reader includes programmatic texts by authors such as Herder, Carlyle, Dilthey, Proust, Freud, Kracauer, Woolf and Bourdieu. Each text is accompanied by a commentary placing its contribution in critical context. Ideal for use in undergraduate seminars, this reader may also be of interest for academic researchers in the areas of literary studies and history aiming to get an overview of historical questions in biographical theory. This revised and updated English language edition also includes new translations of texts by J. G. Herder and Stefan Zweig, as well as an introductory discussion on the possibility of a 'theory of biography'.

## Conciliar Octet

## A Concise Commentary on the Eight Key Texts of the Second Vatican Council

*Ignatius Press* A lively debate continues in the Roman Catholic Church about the character of the teaching provided by the Second Vatican Council (1962-1965). Did it represent a decisive rupture with previous doctrine, or the continuation of its earlier message under new conditions? Much depends on whether the Council texts are read in the light of subsequent events, which shook and sometimes smashed the life, worship and devotion of traditional Catholicism – rather than considered for themselves, in their own right as documents with a prehistory that historians can know. In this work Dominican scholar and writer Aidan Nichols maintains that the Council texts must be interpreted in the light of their genesis, not their aftermath. They must be seen in the light of the public debates in the Council chamber, not the hopes (or fears) of individuals behind the scenes. On this basis, he provides a concise commentary on the eight most significant documents produced by the Council, documents which cover pretty comprehensively all the major aspects of the Church's life. Nichols describes the Council as a gathering where the Conciliar minority – guarded, prudent, and concerned for explicit continuity at all points with the preceding tradition – played a beneficial role in steadying the Conciliar majority, enthused as the latter was by the movements of biblical, patristic and liturgical 'return to the sources' and a desire to reach out to the world of the (then) present-day in generosity of heart. The texts that emerged from this often impassioned debate remain susceptible to a reading of a classically Christian kind. That is precisely what Nichols offers in this book.

## Reading Philosophy of Language

## Selected Texts with Interactive Commentary

*Wiley-Blackwell* Designed for readers new to the subject, Reading Philosophy of Language presents key texts in the philosophy of language together with helpful editorial guidance. A concise collection of key texts in the philosophy of language Ideal for readers new to the subject. Features seminal texts by leading figures in the field, such as Austin, Chomsky, Davidson, Dummett and Searle. Presents three texts on each of five key topics: speech and performance; meaning and truth; knowledge of language; meaning and compositionality; and non-literal meaning. A volume introduction from the editors outlines the subject's principal concerns. Introductions to each chapter locate the pieces in context and explain relevant terminology and theories. Interactive commentaries help readers to engage with the texts.

## Fifty Key Texts in Art History

*Routledge* Fifty Key Texts in Art History is an anthology of critical commentaries selected from the classical period to the late modern. It explores some of the central and emerging themes, issues and debates within Art History as an increasingly expansive and globalised discipline. It features an international range of contributors, including art historians, artists, curators and gallerists. Arranged chronologically, each entry includes a bibliography for further reading and a key word index for easy reference. Text selections range across issues including artistic value, cultural identity, modernism, gender, psychoanalysis, photographic theory, poststructuralism and postcolonialism. Rozsika Parker and Griselda Pollock Old Mistresses, Women, Art & Ideology (1981) Victor Burgin's The End of Art Theory: Criticism and Postmodernity (1986) Homi Bhabha The Location of Culture: Hybridity, Liminal Spaces and Borders (1994) Geeta Kapur When was Modernism in Indian Art? (1995) Judith Butler's Gender Trouble (1999) Georges Didi Huberman Confronting Images. Questioning the Ends of a Certain History of Art (2004)

## Philosophy: Key Texts

*Springer* Designed for complete beginners, Philosophy: Key Texts is an introduction to philosophy and gives a clear, readable overview of some of the major texts by Plato, Descartes, Hume, Sartre, Mill and Nietzsche.

## A Study of Petrine Christology from Key Texts in 2 Peter

*Wipf and Stock Publishers* Second Peter is full of christological language. Scholars have often overlooked the christological richness as they have focused heavily on the issues of eschatology and authorship. The uniqueness of the Son from the Father as well as the divinity of Jesus are at the forefront of the short epistle. Further, Ernst Kasemann famously criticized 2 Peter for being void of Christology and the cross, and thus the gospel. The author analyzes the Christology of 2 Peter, particularly as it relates to the Petrine view of the divinity of Jesus and the distinctness and uniqueness of the Son from the Father. This study examines the christological depth in these key areas as a response to critics like Kasemann. Kasemann first looked into the eschatological arguments of 2 Peter and claimed he was not able to find any christological orientation. The student of 2 Peter must not look through eschatology to see the rich Christology which fills the verses of the epistle. However, when the reader examines the christological language and themes within 2 Peter, he/she is faced with a beautiful portrayal of Jesus and the Father.

## Key Texts in American Jewish Culture

*Rutgers University Press* Key Texts in American Jewish Culture expands the frame of reference used by students of culture and history both by widening the "canon" of Jewish texts and by providing a way to extrapolate new meanings from well-known sources. Contributors come from a variety of disciplines, including American studies, anthropology, comparative literature, history, music, religious studies, and women's studies. Each provides an analysis of a specific text in art, music, television, literature, homily, liturgy, or history. Some of the works discussed, such as Philip Roth's novel *Counterlife*, the musical *Fiddler on the Roof*, and Irving Howe's *World of Our Fathers*, are already widely acknowledged components of the American Jewish studies canon. Others such as *Bridget Loves Bernie*, infamous for the hostile reception it received among American Jews+ may be considered "key texts" because of the controversy they provoked. Still others, such as Joshua Liebman's *Piece of Mind* and the radio and TV sitcom *The Goldbergs*, demonstrate the extent to which American Jewish culture and mainstream American culture intermingle with and borrow from each other.

## Betty A. Reardon: Key Texts in Gender and Peace

*Springer* This book presents a rich collection of Betty A. Reardon's writing on gender studies, sexism and the war system, and human security from a feminist perspective. Betty A. Reardon is a pioneer of gender studies who, as a feminist, identified the structural relationship between sexism and the war system and, as a scholar, a shift from national to human security. As a pioneer in contemporary theories on gender and peace, Betty A. Reardon has continually developed research on the integral relationship between patriarchy and war, and has been an outspoken advocate of gender issues as an essential aspect of peace studies, of problems of gender equity as the subject of peace research, and of gender experience as a crucial factor in defining and attaining human security. Her work evolved in the context of international women's movements for human rights, peace and the United Nations, and is widely drawn upon by activists and educators in order to introduce a gender perspective to peace studies and education and a peace perspective to women's studies.

## Duns Scotus on Divine Love

## Texts and Commentary on Goodness and Freedom, God and Humans

*Routledge* The medieval philosopher and theologian John Duns Scotus (1266-1308) was one of the great thinkers of Western intellectual culture, exerting a considerable influence over many centuries. He had a genius for original and subtle philosophical analysis, with the motive behind his philosophical method being his faith. His texts are famous not only for their complexity, but also for their brilliance, their systematic precision, and the profound faith revealed. The texts presented in this new commentary show that Scotus' thought is not moved by a love for the abstract or technical, but that a high level of abstraction and technicality was needed for his precise conceptual analysis of Christian faith. Presenting a selection of nine fundamental theological texts of Duns Scotus, some translated into English for the first time, this book provides detailed commentary on each text to reveal Scotus' conception of divine goodness and the nature of the human response to that goodness. Following an introduction which includes an overview of Scotus' life and works, the editors highlight Scotus' theological insights, many of which are explored here for the first time, and shed new light on topics which were, and still are, hotly discussed. Scotus is seen to be the first theologian in the history of Christian thought who succeeds in developing a consistent conceptual framework for the conviction that both God and human beings are essentially free. Offering unique insights into Scotus' theological writings and faith, and a particular contribution to contemporary debate on Scotus' ethics, this book contributes to a clearer understanding of the whole of Scotus' thought.

## The Key Texts of Political Philosophy

*Cambridge University Press* This book introduces readers to analytical interpretation of seminal writings and thinkers in the history of political thought, including Socrates, Plato, Aristotle, the Bible, Thomas Aquinas, Machiavelli, Bacon, Hobbes, Locke, Montesquieu, Rousseau, Tocqueville, Marx, and Nietzsche. Chronologically arranged, each chapter in the book is devoted to the work of a single thinker. The selected texts together engage with 2000 years of debate on fundamental questions, which include: What is the purpose of political life? What is the good life, for us as individuals, and for us as a political community? What is justice? What is a right? Do human beings have rights? What kinds of human virtues are there and which regimes best promote them? The difficulty of accessing the texts included in this volume is the result not only of their subtlety but also of the dramatic change in everyday life. The authors shed light on the texts' vocabulary and complexities of thought and help students understand and weigh the various interpretations of each philosopher's thought. • Accessible interpretive essays on the greatest texts in the history of political thought, from Plato to Nietzsche. • Includes key passage plus a succinct discussion that glosses the text, examines later-day interpretations, and guides students in forming their own interpretations. • Allows students to learn from, rather than only about, each thinker, and to apply their thought to the present day.

## Key Texts: Classical Anglophone Philosophy

*Herbert Utz Verlag* Key Texts: Classical Anglophone Philosophy introduces a rich philosophical tradition in its original language. From Bacon to Dewey, the texts of this collection were all written in the English language over a 300-year span. Much more unites the authors, of course, but most importantly they all share that common language and the history associated with the island of Great Britain – whether subjects of its crown or not. That history is both distinctly European and distinct from the European continent even in the branches that developed apart from the British island, most notably in North America. The 16th-century English Reformation and World War 1 bracket the time frame adopted for the present collection. This was a period when British political power extended around the globe. The ideas developed by this collection's Anglophone philosophers had perhaps even wider reach and impact.

## The Key Texts of the Rosicrucians

*Lulu.com*

## The Occult World

*Routledge* This volume presents students and scholars with a comprehensive overview of the fascinating world of the occult. It explores the history of Western occultism, from ancient and medieval sources via the Renaissance, right up to the nineteenth and twentieth centuries and contemporary occultism. Written by a distinguished team of contributors, the essays consider key figures, beliefs and practices as well as popular culture.

## A Text-book of Geography for the Use of Schools

### Key Texts in Human Geography

*SAGE* "A book that will delight students... Key Texts in Human Geography is a primer of 26 interpretive essays designed to open up the subject's landmark monographs of the past 50 years to critical interpretation... The essays are uniformly excellent and the enthusiasm of the authors for the project shines through... It will find itself at the top of a thousand module handouts." - THE Textbook Guide "Will surely become a 'key text' itself. Read any chapter and you will want to compare it with another. Before you realize, an afternoon is gone and then you are tracking down the originals." - Professor James Sidaway, University of Plymouth "An essential synopsis of essential readings that every human geographer must read. It is highly recommended for those just embarking on their careers as well as those who need a reminder of how and why geography moved from the margins of social thought to its very core." - Barney Warf, Florida State University Undergraduate geography students are often directed to 'key' texts in the literature but find them difficult to read because of their language and argument. As a result, they fail to get to grips with the subject matter and gravitate towards course textbooks instead. Key Texts in Human Geography serves as a primer and companion to the key texts in human geography published over the past 40 years. It is not a reader, but a volume of 26 interpretive essays highlighting: the significance of the text how the book should be read reactions and controversies surrounding the book the book's long-term legacy. It is an essential reference guide for all students of human geography and provides an invaluable interpretive tool in answering questions about human geography and what constitutes geographical knowledge.

### A Key to the Apocalypse. By George Allan. [With the text.] Copious MS. notes [by John Henning].

### Fortress Commentary on the Bible

#### Two Volume Set

*Fortress Press* The Fortress Commentary on the Bible: The Old Testament and Apocrypha and Fortress Commentary on the Bible: The New Testament present a balanced synthesis of current scholarship on the Bible, enabling readers to interpret Scripture for a complex and pluralistic world. Introductory articles in each volume discuss the dramatic challenges that have shaped contemporary interpretation of the Bible. Commentary articles set each book of the Old and New Testaments and the Apocrypha in its historical and cultural context, discuss the themes in each book that have proven most important for the Christian interpretive tradition, and introduce the most pressing questions facing the responsible use of the Bible today. The writers are renowned authorities in the historical interpretation of the Old and New Testaments, sensitive to theological and cultural issues arising in our encounter with the text, richly diverse in social locations and vantage points, representing a broad array of theological commitment—Protestants, Catholics, Jews, and others, and alive to the ethical consequences of interpretation today. A team of six scholar editors and seventy contributors provide clear and concise commentary on key sense units in each book of the Old Testament, Apocrypha, and New Testament. Each unit is explored through the lenses of three levels of commentary based on these critical questions. The result is a commentary that is comprehensive and useful for gaining insights on the texts for preaching, teaching, and research. In addition to the commentary essays on each book, the volumes also contain major essays that introduce each section of Scripture and explore critical questions as well as up-to-date and comprehensive bibliographies for each book and essay.

### Economy and State

*John Wiley & Sons* Should governments be involved in economic affairs? Challenging prevailing wisdom about the benefits of self-regulating markets, Nina Bandelj and Elizabeth Sowers offer a uniquely sociological perspective to emphasize that states can never be divorced from economy. From defining property rights and regulating commodification of labor to setting corporate governance standards and international exchange rules, the state continuously manages the functioning of markets and influences economic outcomes for individuals, firms and nations. The authors bring together classical interventions and cutting-edge contemporary research in economic sociology to discuss six broad areas of economy/state connection: property, money, labor, firms, national economic growth, and global economic exchange. A wealth of empirical examples and illustrations reveals that even if the nature of state influence on economy varies across contexts, it is always dependent on social forces. This accessible and engaging book will be essential reading for upper-level students of economic sociology, and those interested in the major economic dilemmas of our times. .

### Introducing Translation Studies

#### Theories and Applications

*Routledge* Introducing Translation Studies remains the definitive guide to the theories and concepts that make up the field of translation studies. Providing an accessible and up-to-date overview, it has long been the essential textbook on courses worldwide. This fourth edition has been fully revised and continues to provide a balanced and detailed guide to the theoretical landscape. Each theory is applied to a wide range of languages, including Bengali, Chinese, English, French, German, Italian, Punjabi, Portuguese and Spanish. A broad spectrum of texts is analysed, including the Bible, Buddhist sutras, Beowulf, the fiction of García Márquez and Proust, European Union and UNESCO documents, a range of contemporary films, a travel brochure, a children's cookery book and the translations of Harry Potter. Each chapter comprises an introduction outlining the translation theory or theories, illustrative texts with translations, case studies, a chapter summary and discussion points and exercises. NEW FEATURES IN THIS FOURTH EDITION INCLUDE: new material to keep up with developments in research and practice, including the sociology of translation, multilingual cities, translation in the digital age and specialized, audiovisual and machine translation revised discussion points and updated figures and tables new, in-chapter activities with links to online materials and articles to encourage independent research an extensive updated companion website with video introductions and journal articles to accompany each chapter, online exercises, an interactive timeline, weblinks, and powerpoint slides for teacher support This is a practical, user-friendly textbook ideal for students and researchers on courses in Translation and Translation Studies.

### The Consequences of Modernity

*John Wiley & Sons* In this major theoretical statement, the author offers a new and provocative interpretation of the institutional transformations associated with modernity. We do not as yet, he argues, live in a post-modern world. Rather the distinctive characteristics of our major social institutions in the closing period of the twentieth century express the emergence of a period of 'high modernity,' in which prior trends are radicalised rather than undermined. A post-modern social universe may eventually come into being, but this as yet lies 'on the other side' of the forms of social and cultural organization which currently dominate world history. In developing an account of the nature of modernity, Giddens concentrates upon analyzing the intersections between trust and risk, and security and danger, in the modern world. Both the trust mechanisms associated with modernity and the

distinctive 'risk profile' it produces, he argues, are distinctively different from those characteristic of pre-modern social orders. This book build upon the author's previous theoretical writings, and will be of fundamental interest to anyone concerned with Gidden's overall project. However, the work covers issues which the author has not previously analyzed and extends the scope of his work into areas of pressing practical concern. This book will be essential reading for second year undergraduates and above in sociology, politics, philosophy, and cultural studies.

## The Appropriation of Divine Life in Cyril of Alexandria

*Oxford University Press on Demand* Daniel A. Keating presents a comprehensive account of sanctification and divinization in Cyril. He argues that Cyril correlates the somatic and pneumatic means of our union with Christ, and integrates the ontological and ethical aspects of our sanctification and divinization.

## A Postcolonial Commentary on the New Testament Writings

*T&T Clark* A comprehensive analysis of the New Testament from the perspective of postcolonial criticism, this title enables readers to relate biblical texts more sharply to the perennial geopolitical issues of imperialism and colonialism.

## What is a Madrasa?

*Edinburgh University Press* The prospects for peace in Afghanistan, dialogue between Washington and Tehran, the UN's bid to stabilise nuclear-armed Pakistan, understanding the largest Muslim minority in the world's largest democracy in India, or the largest Muslim population in the world in Indonesia all require some knowledge of the traditional religious sectors in these countries and of what connection traditional religious schooling has (or not) to their geopolitical situations. Moosa delves into the world of madrasa classrooms, scholars and texts, recounting the daily life and discipline of the inhabitants. He shows that madrasa are a living, changing entity, and the site of contestation between groups with varying agendas, goals and notions of modernity. Reading this unique and engaging introduction will provide readers with a clear grasp of the history, place and function of the madrasa in today's Muslim world (religious, cultural and political). It will also investigate the ambiguity underlying the charge that the madrasa is at heart a geopolitical institution.

## The History of English Literature; with an Outline of the Origin and Growth of the English Language

## Feminist Critical Policy Analysis I

*Routledge* This text sets out to challenge the traditional power basis of the policy decision makers in education. It contests that others who have an equal right to be consulted and have their opinions known have been silenced, declared irrelevant, postponed and otherwise ignored. Policies have thus been formed and implemented without even a cursory feminist critical glance. The chapters in this text illustrate how to incorporate critical and feminist lenses and thus create policies to meet the lived realities, the needs, aspirations and values of women and girls. A particular focus is the primary and secondary sectors of education.

## Contrastive Analysis of English and Polish Surveying Terminology

*Cambridge Scholars Publishing* This book, with a focus on English and Polish, is a study of surveying terminology, which may be considered as an under-researched area when compared to legal, medical or business terminologies. It examines differences between terms and concepts in the two languages. The purpose of the book is three-fold: firstly, to investigate how surveying terms are created and how they are named in English and Polish; secondly, to analyse concept systems of the two languages with respect to surveying terminology; and thirdly, to indicate the areas of surveying in which terminological and conceptual differences occur, the factors that trigger them and translation strategies which are used to solve them. The book offers a systematic, corpus-based approach to terminology. Data for analyses come from the English and Polish surveying corpora compiled specifically for this project. The author of the book attempts to provide a wide picture of surveying terminology by looking at problems that diversified groups of users may identify. The book is directed towards terminologists and lexicographers, for whom it provides a set of guidelines on how to enrich the content of surveying dictionaries, translators and technical writers, who may find information on how to deal with conceptual mismatches, and to specialists in the surveying field, who are interested in finding equivalents for problematic terms.

## Glossator: Practice and Theory of the Commentary

*Glossator* Volume 3 of the journal *Glossator: Practice and Theory of the Commentary*. <http://glossator.org>

## The student's text-book of the science of music

## Commentaries on the Holy Books and Other Papers

## The Equinox, Volume Four, Number One

*Red Wheel* This new issue of the Equinox is a companion volume to The Holy Books of Thelema (also published by Samuel Weiser), and a coherent text book in its own right. It covers the essentials of the A ??? A ??? system of initiation, from the preliminary stage of Student to the attainment of the Knowledge and Conversion of the Holy Guardian Angel. The centerpiece of the book is the Master Therion's penetrating commentary to the inspired writing THE BOOK OF THE HEART.

## The Athanasian Creed and Its Early Commentaries

## Common Core

## Paradigmatic Shifts

*Cambridge Scholars Publishing* *Common Core: Paradigmatic Shifts* is a timely and protean educator resource and reference, designed to be of immediate use in the classroom and in Professional Learning Communities. In addition, this book also provides a "looking glass," allowing educators to peer briefly back in history to ascertain the origin of standards, as they came to be in the United States educational system, and as they earnestly impacted English language arts. *Common Core: Paradigmatic Shifts* identifies and provides curricular approaches speaking to teachers' concerns regarding

content preparedness. In addition, this book includes teacher narratives from around the country, describing their approaches and strategies with the Common Core initiative and its impact on their students, as well as those who do not use the Core. Essentially, *Common Core: Paradigmatic Shifts* will spark further proactive, engaged, and reconstructive conversation among teachers regarding both students and themselves. Ignited by the advent of the Core, their conversation today is about just how do they use standards to create vibrant, engaged, immersive, and relevant instruction that lives beyond the traditional walls of the classroom. *Common Core: Paradigmatic Shifts* will prove to be a “go to” resource that provides useful information and instructional approaches beyond Common Core.

## Social Capital

*John Wiley & Sons* Social capital is a principal concept across the social sciences and has readily entered into mainstream discourse. In short, it is popular. However, this popularity has taken its toll. Social capital suffers from a lack of consensus because of the varied ways it is measured, defined, and deployed by different researchers. It has been put to work in ways that stretch and confuse its conceptual value, blurring the lines between networks, trust, civic engagement, and any type of collaborative action. This clear and concise volume presents the diverse theoretical approaches of scholars from Marx, Coleman, and Bourdieu to Putnam, Fukuyama, and Lin, carefully analyzing their commonalities and differences. Joonmo Son categorizes this wealth of work according to whether its focus is on the necessary preconditions for social capital, its structural basis, or its production. He distinguishes between individual and collective social capital (from shared resources of a personal network to pooled assets of a whole society), and interrogates the practical impact social capital has had in various policy areas (from health to economic development). *Social Capital* will be of immense value to readers across the social sciences and practitioners in relevant fields seeking to understand this mercurial concept.

## Class-book of geography

## Global and Multinational Advertising

*Psychology Press* Few applied disciplines are more sensitive to cross-cultural issues than marketing and consumer psychology. The chapters prepared for this volume reflect awareness of both similarities and differences within and across cultures. They include analyses of methodological issues, theoretical investigations of cultural and social values and their implications for marketing specialists, studies of gender- and sub-culture specific advertising, and investigations of advertising efforts in several different international markets. The scholars and advertising professionals who contributed these chapters will have much to say to consumer psychologists and marketing specialists alike.

## Progressive Geography for the Use of Schools, Etc

## Commentary on the Book of Judges

## Bible Study Notes and Comments

Bible study notes and commentary on the Old Testament book of Judges, with explanation and practical applications. Designed for diligent Bible students, including teachers and preachers. Written from the conservative viewpoint of faith in the Bible as the absolute, inerrant, verbally inspired word of God. Topics discussed include: \* Sin and punishment of the nation of Israel \* God's mercy on those who repent \* Lives of Gideon, Jephthah, Deborah, Barak, Samson, and other judges \* Danger of idolatry and immorality

## Herodotus, the Seventh, Eighth, & Ninth Books: pt. I. Introduction. Book VII. (text and commentaries)
