THE ASHES

A CELEBRATION

Random House (Australia) **After 130 years, the Ashes, the world's longest running international sporting competition is still going strong. Hotly contested between Australia and England, it captivates public interest in the UK and Australia and exemplifies the fierce but friendly rivalry between the two cricket-loving nations. Bestselling author and cricket enthusiast, Roland Perry, charts the history and highlights of this great sporting competition; from the first English tours of Australia when the colonials aspired to beat Mother England at her own game, to the historic Ashes tour of 2005 when Britain reclaimed the Ashes in a surprise upset after years of Australian dominance on the pitch. THE ASHES: A CELEBRATION recounts the memorable tours, players and amazing individual performances that created the legend of the Ashes. Such as the inaugural match in March 1877 when an Australian team beat England at the MCG in the first ever international cricket match. A terrific win for the colony, it only raised eyebrows in England; seeing was believing after all. When Australia beat England again by seven runs on home turf in a thriller at the Oval in 1882, the Ashes competition was born.**

TOP GEAR: MY DAD HAD ONE OF THOSE

Random House **Good old Dad and his good old Dad's car. As solid and dependable as the man himself, if a little less balding, Dad's car was almost a member of the family, whisking you to exciting days out, or just to visit boring relatives in distant parts of the country to the chant of 'are we nearly there yet?' Like the man behind the wheel, Dad's car made you feel safe and secure, because it was as reassuring and sensible as he was. Maybe in an idle moment Dad dreamt of driving something rakish and fast, just like in idle moments he dreamt that your Mum was Twiggy, but the demands of family life meant soft tops, hard suspension and anything even remotely sporty were off the cards. Even anything less than four doors would have been wildly hedonistic. But although the family car may not have been the very essence of rock 'n' roll, Dad was proud of it. Spanning the 1950s to the '80s, this is a celebration of the heyday of the Dad car. From much loved family workhorses like the Ford Cortina and Vauxhall Viva to the rakish excitement and playground kudos of the Rover 3500 and Citroen CX, all the great Dad cars are here. Reflecting a time before people carriers and lifestyle off roaders, when the nearest thing to an airbag was hiding behind your fat brother, this is a celebration of simple, honest cars that were as flawed and as loveable as your Dad himself.**

HABITS OF CHANGE

AN ORAL HISTORY OF AMERICAN NUNS

OUP USA Rev. ed. of: Poverty, chastity, and change.

HABITS OF MIND ACROSS THE CURRICULUM

PRACTICAL AND CREATIVE STRATEGIES FOR TEACHERS

ASCD Distinguished educators Arthur L. Costa and Bena Kallick present this collection of stories by educators around the world who have successfully implemented the habits in their day-to-day teaching in K-12 classrooms. The collective wisdom and experience of these thoughtful practitioners provide readers with insight into the transdisciplinary nature of the 16 Habits of Mind—intelligent behaviors that lead to success in school and the larger world—as well as model lessons and suggestions for weaving the habits into daily instruction in language arts, music, physical education, social studies, math, foreign language, and other content areas. Readers will come to understand that, far from an "add-on" to the curriculum, the habits are an essential element for helping students at all grade levels successfully deal with the challenges they face in school and beyond. As in all their books on the Habits of Mind, Costa and Kallick have a broad and worthwhile goal in mind. As they say in the concluding chapter of this volume, "If we want a future that is much more thoughtful, vastly more cooperative, greatly more compassionate, and a whole lot more loving, then we have to invent it. That future is in our homes, schools, and classrooms today. The Habits of Mind are the tools we all can use to invent our desired vision of the future."

Fourteen months later, they had cycled 23,000 kilometres, from Bali to Buckingham Palace, across more than 20 countries and adventured through some of the most exotic parts of the world. They battled extreme heat, sub-zero temperatures, culture shock and loneliness as they pushed their bodies to their limits. They overcame injury, illness, heartbreak, and, above all, their own fears and self-doubt. It was the time of their lives. Packed with stunning photography by Sean Wakely, The Big Bike Trip is an inspirational account of self-discovery, friendship and turning your dreams into reality.
