### Life on Ice

## A History of New Uses for Cold Blood

**University of Chicago Press** *Preface: frozen spirits -- Introduction: within cold blood -- The technoscience of life at low temperature -- Latent life in biomedicine's ice age -- Temporalities of salvage -- "As yet unknown": life for the future -- "Before it's too late": life from the past -- Collecting, maintaining, reusing, and returning -- Managing the cold chain: making life mobile -- When futures arrive: lives after time -- Epilogue: thawing spirits*

## Cowen's History of Life

**John Wiley & Sons** *A newly revised and fully updated edition of the market-leading introduction to paleontology Designed for students and anyone else with an interest in the history of life on our planet, the new edition of this classic text describes the biological evolution of Earth's organisms, and reconstructs their adaptations and the ecology and environments in which they functioned. Cowen's History of Life, 6th Edition includes major updates, including substantial rewrites to chapters on the origins of eukaryotes, the Cambrian explosion, the terrestrialization of plants and animals, the Triassic recovery of life, the origin of birds, the end-Cretaceous mass extinction, and human evolution. It also features new chapters on plants, soils and transformation of the land; the Mesozoic marine revolution; and the evolution of oceans and climates. Beginning with the origin of the Earth and the earliest life on earth, the book goes on to offer insightful contributions covering: the evolution of Metazoans; the early vertebrates; life of vertebrates on land; and early amniotes and thermoregulation. The book also looks at: dinosaur diversity, as well as their demise; early mammals; the rise of modern mammals; the Neogene Savannas; primates; life in the ice ages; and more. Covers the breadth of the subject in a concise yet specific way for undergrads with no academic background in the topic Reorganizes all chapters to reflect the geological series of events, enabling a new focus on big events Updated with three brand new chapters and numerous revised ones Put together by a new editorial team internationally recognized as the global leaders in paleontology Filled with illustrations and photographs throughout Includes diagrams to show internal structures of organisms, cladograms, time scales and events, and paleogeographic maps Supplemented with a dedicated website that explores additional enriching information and discussion, and which features images for use in visual presentations Cowen's History of Life, 6th Edition is an ideal book for undergraduate students taking courses in introductory paleontology, as well those on global change and earth systems.*

## The Cryopolitics of Reproduction on Ice

## A New Scandinavian Ice Age

**Emerald Group Publishing** *Reproduction has entered a new ice age. Using cryopolitics as an interdisciplinary framework to help understand the contemporary state of cryo-fertility, this book explores the ways in which visions of desirable reproductive futures entangle with advances in freezing technologies.*

## History of Soy Ice Cream and Other Non-Dairy Frozen Desserts (1899-2013)

## Extensively annotated bibliography and sourcebook

**Soyinfo Center**

## Worlds of Ice

## A Guide to the Life and History of the Arctic and Antarctic

**Createspace Independent Pub** *This brief textbook gives in-depth detail of the types of life forms that are commonly discovered in the Arctic Circle and around the continent of Antarctica. It provides rich information about specific animals, both those living on the land and in the icy waters. It is perfect for anyone wishing to expand their knowledge of the fauna in these ecosystems. Written with enough detail to inform those who are new to Arctic studies of the minor subtleties of life in this area, it is a great starting point for those thirsting to know of these worlds. It is a great book, whether you have previous knowledge or not!*

## Finding the Edge: My Life on the Ice

**HarperCollins** *Figure skating icon and U.S. National Champion Karen Chen tells the amazing story of her rise to the top, featuring never-before-seen photos and behind-the-scenes details from her journey on and off the ice! At seventeen years old, Karen Chen has already achieved what some girls only dream of—and yet it's only the beginning for this incredibly talented athlete. The daughter of Taiwanese immigrants, Karen began to figure skate at just five years old. Ten years and many grueling training sessions later, she broke out at the 2015 US Championships with a bronze medal. This was after sustaining a nearly career-ending ankle fracture a year earlier. In 2017, Karen became the US National Champion, winning gold in two programs and receiving the highest score ever recorded for the short program at the US National level. Now for the first time, Karen shares the story of how she got where she is today—and where she's going next. Karen has already overcome astounding obstacles, and her grit, determination, and positive attitude have made her future truly limitless. In Finding the Edge, she shares, in her own words, what it's like to be Karen Chen—and what it takes to achieve the impossible. Features a foreword from Kristi Yamaguchi, the Olympic champion, two-time World champion, and U.S. champion.*

## God's Feminist Movement

## Redefining a “Woman's Place” From a Biblical Perspective

**Destiny Image Publishers** *Experience True Liberation by Seeing Your Beauty, Femininity, and Freedom From Heavens Point of View Has Christianity kept women trapped in the stone age? In many ways, yes; but this is not by Gods design. As society offers women opportunities to explore outer-space and govern nations, the church often stifles and limits them. The tide is changing, though. Amber Picotas Gods Feminist Movement is a new covenant manifesto calling women to embrace their true identity in Christ and fulfill their destiny as revolutionaries who shape the course of history with the Kingdom of God. There is a powerful new feminist movement emerging in the body of Christ. Its not politically driven and its not being championed by an uprising of angry man-haters. Based on an intense study of Scripture, factoring in historical and contextual hermeneutics and original languages, Picota shares a practical, non-legalistic, and non-traditional (yet deeply Biblical) look at topics that women commonly face, such as: Dating and Modesty Female Leaders in the Church Submission in Marriage Beauty and Self-Image Celebrate the power and beauty of womanhood. God has given you permission to change the world by being you! Break off religious traditions that keep women trapped in old school legalism and move beyond Christian clichs that minimize a womans true position in Christ!*

## On the Origin of Mind

## Life's Need to Re-represent Itself

**On the origin of Mind** *"On the origin of Mind" is a detailed description of how the mind works. It explains the dynamics from the neuronal level upwards to the scale of group behaviour, society and culture."*—Publisher's website.

## A New History of Life

## The Radical New Discoveries about the Origins and Evolution of Life on Earth

**Bloomsbury Publishing** *An estimated 4.6 billion years ago, the Earth and Moon were formed in a violent impact. On this, many agree, and even more that a long time after that, life began. However, few know that the first life on the Earth may not have emerged on this planet, but could, in fact, have begun on Mars, brought here by meteorites. In this revolutionary book, leading scientists Peter Ward and Joe Kirschvink rewrite the principal account of the history of life on Earth. They show not only how the rise of animals was delayed for billions of years, but also what it was that first forced fish out of the sea and onto the land. Together, the two scientists explain how developments in the environment led to multiple Ice Ages before the emergence of dinosaurs and other giant animals, and what the true cause of these great beasts' eventual extinction was. Finally, charting the course of our own evolution, they explore whether this generation will see the end of the human species. A New History of Life proves not only that much of what we think we know should be unlearned, but also that the true history of life on Earth is much more surprising and wonderful than we could ever have imagined.*

## Media Hot and Cold

**Duke University Press** *In Media Hot and Cold Nicole Starosielski examines the cultural dimensions of temperature to theorize the ways heat and cold can be used as a means of communication, subjugation, and control. Diving into the history of thermal media, from infrared cameras to thermostats to torture sweatboxes, Starosielski explores the many meanings and messages of temperature. During the twentieth century, heat and cold were broadcast through mass thermal media. Today, digital thermal media such as bodily air conditioners offer personalized forms of thermal communication and comfort. Although these new media promise to help mitigate the uneven effects of climate change, Starosielski shows how they can operate as a form of biopower by determining who has the ability to control their own thermal environment. In this way, thermal media can enact thermal violence in ways that reinforce racialized, colonial, gendered, and sexualized hierarchies. By outlining how the control of temperature reveals power relations, Starosielski offers a framework to better understand the dramatic transformations of hot and cold media in the twenty-first century.*

## Leading from the Ice

**Createspace Independent Pub** *"We need to refocus on leadership as a value important to our American republic. The book is a small effort in restarting the dialogue to stimulate the effort to produce more and better leadership on the ice and off.*

## The Frozen Water Trade

## How Ice from New England Lakes Kept the World Cool

**HarperCollins Publishers** *Weightman tells the story of the frozen-water trade through the remarkable life of Frederick Tudor, the wealthy Boston "Ice King" who had a crucial role in establishing this booming industry in 19th-century America.*

## At Home

## A Short History of Private Life

**Random House** *In At Home, Bill Bryson applies the same irrepressible curiosity, irresistible wit, stylish prose and masterful storytelling that made A Short History of Nearly Everything one of the most lauded books of the last decade, and delivers one of the most entertaining and illuminating books ever written about the history of the way we live.*

## Why and How the Ice Age Ended & The True History of the Pontic (White) Race

Lulu.com

## West Richardson Street

## A Novel about High Wycombe

**CreateSpace** *'Life is one big road with a lot of signs, signs and more signs you've got to make up your mind to face reality all the time.' Badmarsh & Shri/Tenor Saw/Bob Marley Shiraz is a newly appointed Police Community Support Officer who discovers the body of an Asian prostitute Mandy in a skip in West Richardson Street, High Wycombe. The investigations lead him to a local taxi driver Asif and a journalist Stacy who works for a local newspaper. Running alongside this is the story of Anna the daughter of a furniture worker in High Wycombe in 1913 and her adventures during these heady times in the town's history. In the background is the spectre of the Assassin whose agenda of racial terrorism drives the story to a profound climax. West Richardson Street is about the past and the present histories of High Wycombe. About lives lost over pieces of dirt and how particular roads and areas of the town resonate with dark and unspoken tales. It's about placing the arrival of Asian and African Caribbean people to Buckinghamshire in a historical context and making them part of this history rather than existing outside of it. West Richardson Street looks at the town throughout the ages but in particular before the war where the furniture industry in High Wycombe was at its height, the early eighties where there were riots and finally 2007 and the paranoid times after the 2006 terror raids. 'The lie was powerful. It had wrapped itself over the Chiltern Hills and the fabric of the County. It was embedded into the DNA of the mighty and the powerful and covered up a multitude of sins.'*

## Old and new London: a narrative of its history, its people and its places, by W.

## Thornbury (E. Walford).

## Coming Out of the Ice

## An Unexpected Life

*This American's memoirs tell of the 45 years he lived in the Soviet Union, experiencing acclaim as a parachutist, imprisonment, marriage, and banishment to Siberia.*

## He Walks with Dragons

**Mystic Dragon Publishing** *"He Walks with Dragons" takes place when what was, what is, and what shall be were one in the same. Draig, a boy on the verge of his manhood, is summoned to the majestic mountain by the Great Ones. There he finds out he is about to transcend the ages and risk his life to prevent the destruction of mankind. Born into the naïve innocence of ancient man, Draig lives a simple pastoral existence in a quiet, small village. But one day he is flung on a magical journey into a forbidden new world. There, Draconos, a dragon, befriends the boy, training him in the art of warfare. From this day forward, the young boy finds himself in awe at the wonders the world holds for him. Not only has Draig become a man, but he is living like a dragon and learning their mystical powers. "From the time Man first crawled upon this earth...we found him worthy to take his rightful place among the creatures that walk upon the earth. While hiding in the shadows, we have protected him. We have nurtured him all these many ages. But now man grows in great numbers and makes war on everything he sees." And when the time comes, will Draig be willing to lay down his life for the sake of saving the dragons? And when the dragons are gone, where will he go? He is no longer just a man.*

## Ice!

## The Amazing History of the Ice Business

**Calkins Creek Books** *Presents a history of the ice business, detailing the processes of harvesting, storage, and distribution, with particular emphasis on activities at Rockland Lake, the "Icebox of New York City."*

## Ice

## The Nature, the History, and the Uses of an Astonishing Substance

**Knopf** *Like the adventurer who circled an iceberg to see it on all sides, Mariana Gosnell, former Newsweek reporter and author of Zero Three Bravo, a book about flying a small plane around the United States, explores ice in all its complexity, grandeur, and significance. More brittle than glass, at times stronger than steel, at other times flowing like molasses, ice covers 10 percent of the earth's land and 7*

percent of its oceans. In nature it is found in myriad forms, from the delicate needle ice that crunches underfoot in a winter meadow to the massive, centuries-old ice that forms the world's glaciers. Scientists theorize that icy comets delivered to Earth the molecules needed to get life started, and ice ages have shaped much of the land as we know it. Here is the whole world of ice, from the freezing of Pleasant Lake in New Hampshire to the breakup of a Vermont river at the onset of spring, from the frozen Antarctic landscape that emperor penguins inhabit to the cold, watery route bowhead whales take between Arctic ice floes. Mariana Gosnell writes about frostbite and about the recently discovered 5,000-year-old body of a man preserved in an Alpine glacier. She discusses the work of scientists who extract cylinders of Greenland ice to study the history of the earth's climate and try to predict its future. She examines ice in plants, icebergs, icicles, and hail; sea ice and permafrost; ice on Mars and in the rings of Saturn; and several new forms of ice developed in labs. She writes of the many uses humans make of ice, including ice-skating, ice fishing, iceboating, and ice climbing; building ice roads and seeding clouds; making ice castles, ice cubes, and iced desserts. Ice is a sparkling illumination of the natural phenomenon whose ebbs and flows over time have helped form the world we live in. It is a pleasure to read, and important to read—for its natural science and revelations about ice's influence on our everyday lives, and for what it has to tell us about our environment today and in the future.

## The Color of Cold and Ice

Two families are fated to come together. Emerald and Sybil, two sisters, run an offbeat coffee shop in New York. Emerald has a small child to raise alone. She can't seem to move on after having lost her husband in a freak accident three years earlier. Sybil, somewhat of a clairvoyant, saw the accident in a dream. What she can't see is her own fate. John, a doctor, has what most would consider the perfect life: a wife, two children, a nice house, and a successful medical practice. But he is at the point in his life where he is questioning everything, and so is his wife, Allison. Then, there is Mark, Allison's younger brother, a struggling musician with a stream of failed relationships and the complete opposite of his OCD sister. It is color and cold that lead them on a world of discovery from New York to Amsterdam and back.

## Meat!

## A Transnational Analysis

**Duke University Press** What is meat? Is it simply food to consume, or a metaphor for our own bodies? Can "bloody" vegan burgers, petri dish beef, live animals, or human milk be categorized as meat? In pursuing these questions, the contributors to *Meat!* trace the shifting boundaries of the meanings of meat across time, geography, and cultures. In studies of chicken, fish, milk, barbecue, fake meat, animal sacrifice, cannibalism, exotic meat, frozen meat, and other manifestations of meat, they highlight meat's entanglements with race, gender, sexuality, and disability. From the imperial politics embedded in labeling canned white tuna as "the chicken of the sea" to the relationship between beef bans, yoga, and bodily purity in Hindu nationalist politics, the contributors demonstrate how meat is an ideal vantage point from which to better understand transnational circuits of power and ideology as well as the histories of colonialism, ableism, and sexism. Contributors Neel Ahuja, Irina Aristarkhova, Sushmita Chatterjee, Mel Y. Chen, Kim Q. Hall, Jennifer A. Hamilton, Anita Mannur, Elspeth Probyn, Parama Roy, Banu Subramaniam, Angela Willey, Psyche Williams-Forsen

## The Hidden Life of Ice

## Dispatches from a Disappearing World

**Hachette UK** A pioneering glaciologist's illuminating account of a single day's work researching in the Arctic, capturing the urgency of his work and revealing the secret history and ever-more-inevitable future of Greenland's polar ice caps

## A Brief History Of International Ice Hockey

**ShieldCrest** In the 19th century, the sport of ice hockey was first played in the eastern part of Canada, and by the latter part of the century, the new winter game began spreading to other countries like the United States, Great Britain, and Czechoslovakia. As the 20th century unfolded, Sweden, Finland, and the Soviet Union became fully involved with the game. During that same period, a North American league, the National Hockey League (NHL), and two major international competitions such as the World Ice Hockey Championship, and the Winter Olympics' Ice Hockey Tournament were introduced to the hockey world. Today, in the 21st century, people from all corners of the globe participate in the game, and this book illustrates on how the sport was formed and developed in the some of the top ice hockey nations in the world.

## Oliver Goldsmith

## A Biography

## Ice Blink

## The Tragic Fate of Sir John Franklin's Lost Polar Expedition

**John Wiley & Sons Incorporated** Follows the trail of the expedition by Sir John Franklin, which sailed north from Greenland in 1845 with two iron-plated ships and 128 men, only to be swallowed up by the ice and snow

## Memoirs of a Muppets Writer

## (You Mean Somebody Actually Writes That Stuff?)

In his 20 year affiliation with Jim Henson's Muppets Joseph A. Bailey was a staff writer on both Sesame Street and The Muppet Show. He also co-wrote the television specials *Big Bird in China*, *Christmas Eve on Sesame Street* and *Rocky Mountain Holiday*, starring John Denver and the Muppets on location in Aspen, Colorado. Additionally, Mr. Bailey wrote Sesame Street song lyrics, albums, five 90-minute Sesame Street Live! musicals, Muppet Business Meeting Films and special material for Big Bird's appearances in the White House and Carnegie Hall. The Muppet Show guest stars he wrote for include George Burns, Bob Hope, Steve Martin, Rudolf Nureyev, John Cleese, Milton Berle and Peter Sellers. For his writing, Mr. Bailey has garnered 5 Emmys, 3 Emmy nominations, a Writers Guild of America Award and a George Foster Peabody Award. Mr. Bailey lives in Manhattan with his wife, Gail. He indulges in occasional long-distance motorcycle trips and claims to speak French and play piano to the equal amusement of others.

## The Memorial History of the City of New-York

## From Its First Settlement to the Year 1892

## A New History of the Isle of Man: Evolution of the natural landscape

**Liverpool University Press** This volume provides a fascinating account of the natural forces which shaped the Island's landscape from its formation some 500 million years ago to the present nature of the Manx environment and landscape. The story of the island's colonisation by plants and animals sets the scene for the later volumes which deal with the impact of man's arrival. A key element of the volume is an in depth examination of the contemporary landscape, with an appraisal of how the environment has affected man and how man has affected the environment.

## The Little Ice Age

## How Climate Made History 1300-1850

**Basic Books** The groundbreaking history of how climate change transformed Europe and the world, from a renowned archaeologist -- updated with a new preface on the latest climate research *The Little Ice Age* tells the fascinating story of the turbulent, unpredictable, and often very cold years of modern European history. Using sources ranging from the dates of long-ago wine harvests and the business records of medieval monasteries to modern chemical analysis of ice cores, renowned archaeologist Brian Fagan reveals how a 500-year cold snap began in the fourteenth century. As Fagan shows, the increasingly cold and stormy weather dramatically altered fishing and farming practices, and it shaped familiar events, from Norse exploration to the settlement of North America, from the French

Revolution to the Irish potato famine to the Industrial Revolution. Now updated with a new preface discussing the latest historical climate research, *The Little Ice Age* offers deeply important context for understanding today's age of global warming. As the Little Ice Age shows, climate change does not come in gentle, easy stages, and its influence on human life is profound.

## Deliver Me from Negative Self-Talk Expanded Edition

### A Guide to Speaking Faith-Filled Words

*Change Your Words, Change Your World!* Admit it, you talk to yourself. Whether you speak the words out loud or think them in your mind, you are always talking to yourself... about yourself. The important question: what are you saying? Much of what we say is negative, hurtful and damaging, setting us up for failure. If you want to live the victorious, abundant life God has for you, start by changing what you say to yourself. This has the power to radically transform everything! In her relatable, down-to-earth style, Lynn Davis offers scriptural self care for the soul in need of encouragement. Learn how changing your self talk will help you: \* Experience victory over fear, bad habits and addictions \* Overcome negative emotions \* Think God's thoughts about yourself by changing your meditation \* Receive healing from sickness \* Increase your self-esteem \* Make declarations that strengthen your faith Get delivered from negative self talk today and begin speaking powerful, faith-filled words that unleash God's purpose, joy, and healing in your life!

### Inside Jazz (inside Bebop)

**Da Capo Press, Incorporated** Critic Leonard Feather was one of the earliest and most persistent champions of bop. It was he who persuaded RCA Victor that the new music was worth recording. His *Inside Jazz* is a full-length account of bop: its origins and development and the personalities of the musicians who created it. Numerous photographs and anecdotes bring this innovative era in jazz history back to life once more.

In this soft word for the sensitive ear, there is a deep cleansing for those inaccessible areas of the feminine heart. This book will help to fight back the infections of life. *Woman, Thou Art Loosed!* will break the bands off the neck of every woman who dares to read it!

### Ice-pack and Tundra

### An Account of the Search for the Jeannette and a Sledge Journey Through Siberia

**New York : C. Scribner's Sons ; London : S. Low, Marston, Searle & Rivington** Narrative of Jeannette Relief Expedition on board USS Rodgers, 1881-82.

### The Secret History of Pythagoras

*THE Translation of this venerable Piece of Antiquity is undertook upon a double Score; being designed as well to entertain the Curiosity of the Learned, as to supply the Defects of the Ignorant. If the original Language would have been more acceptable to the one, it would have been less intelligible to the other. I cannot, without uttering a Falsity, venture to affirm that so singular and valuable a Piece will be made Public, at least as yet: And in the mean Time I shall flatter myself, that this little Essay may contribute in some sort or other to the diversion, if not Instruction, of People in every Condition of Life. If this is well received, the other Parts will make their Appearance at proper Distances of Time. I publish no more at present, because I would not be thought to impose too much upon any one's Patience; as for losing my own Labour, I am under no bad Apprehensions about that; for the Reader cannot reject with a greater Disdain, than I have translated with Pleasure, the Contents of this Book.*

### Ghost of a Rose

**Createspace Independent Pub** Includes the booklet *Narcissism "The Killer of Love"* What could drive an individual who is emotionally strong and highly successful, with a hearty appetite for life, to suddenly lose all desire to live? What could possibly strip a religious person of all belief in God with the blink of an eye? Those vital questions are about to be answered. A Beautifully Disturbing Saga of Love and Survival. Within the throes of a madly passionate romance is the most ghastly soul rape and mind crime conceivable. The Great American "Psychopathic" Love Story exists in a world where nothing is real as perceived. Beneath the surface of what seems to be a fairy tale romance is the outline for what may very well be the perfect murder, and if you are naive enough to think it can't happen to you, you're wrong... dead wrong. Steven lives a life that most can only dream of. At a young age, he achieved fame in the music industry with the now iconic heavy metal band Slayer, and later as a world-renowned airbrush artist. He has everything that a man could want, except for what he desires most, which is, true love. A handsome, successful, charming man that lives and breathes romance, but has been unable to find the one woman that can captivate his heart. One glorious afternoon, Ashley stumbles into his life, and she is everything that he's hoped for and dreamed of. Their story begins as a passionate, tender, and erotic tale of two people falling in love. Together they seem to have the love that dreams are made of and fairy tales are written about. But do they really? Sometimes when it seems too good to be true, the love of your life may not be the person you think they are. On the surface, Steven and Ashley are the quintessential portrait of an enchanted romance, but underneath an illusion of ideal love is a transparent layer of lies, manipulation, and deceit. Unknowingly, Steven has become trapped in the lethal world of a pathological psychopath. Be prepared to have every one of your emotions assaulted by this unique true story. You will laugh, feel the passion and intense love, you'll get angry, experience excruciating pain, and yes, there will be tears. Live the story as the author experienced it. A memoir that is insanity in the raw, and just when you think it is all over, it begins again before leading to a shocking ending that will not soon be forgotten. *Ghost of a Rose* is the first romance of it's kind. Without any knowledge of its existence, the author documented from the beginning to end of his relationship with a pathological narcissist. The media has incorrectly portrayed Narcissistic Personality Disorder long enough. This is the true nature of the beast, and as melodramatic it may seem at times, this is what a victim experiences when having the life sucked out of him or her by an emotional vampire. You'll witness first hand the idealization "honeymoon" stage, the gaslighting phase, the abandonment, the torment, confusion, awakening, and healing as it all took place. Through the eyes of the author, you'll bear witness to a man systematically destroyed by a narcissist until his life is left in ruin. 'Dynamic personal stylized writing. Brilliant! A death to birth with a delivery that is painful as bloody hell.' - Becky Joyce Reed "This book saved my life!" - Debbie Perez

### History of the New Netherlands, Province of New York, and State of New York

**Cosimo, Inc.** In this two-volume set, first published in 1839, students and history scholars will find William Dunlap's extensive history of New Netherlands, an area from the St. Lawrence river to the Delaware Bay, stretching from the coast westward through what is now upstate New York. In this second volume, Dunlap begins with the American Revolutionary War and the capture of Fort Ticonderoga, and continues with a detailed account of the battles of Revolution. He discusses the major leaders of the war, including Washington, Gates, and Ethan Allen. Dunlap concludes this history of New York with the signing of the Constitution and the establishment of the United States. American historian and playwright WILLIAM DUNLAP (1766-1839) was born in Perth Amboy, New Jersey. He managed the John Street Theatre and the Park Theatre in New York. Among his many plays are *Andre* (1798) and *The Virgin of the Sun* (1800).
