Saxon Publications Math in Focus presents the Singapore approach to math in a way that is easy to use and understand. Available for Kindergarten through 5th grade, Math in Focus: The Singapore Approach is the United States edition of Singapore's most widely used program. Carefully paced instruction that focuses on teaching fewer math topics per year to a level of mastery. Consistent use of visual models and manipulatives that carefully bridge the concrete and the abstract encouraging algebraic thinking, facilitating communication of math ideas, and solidifying learning. Instruction centered around problem solving using multiple models to help students visualize and understand the math concepts. Ample practice for continuous ongoing assessment."

Carson-Dellosa Publishing Singapore Math creates a deep understanding of each key math concept, is a direct complement to the current textbooks used in Singapore, includes an introduction explaining the Singapore Math method, and includes step-by-step solutions in the answer key. Singapore Math, for students in grades 2 to 5, provides math practice while developing analytical and problem-solving skills. Learning objectives are provided to identify what students should know after completing each unit, and assessments are included to ensure that learners obtain a thorough understanding of mathematical concepts. Perfect as a supplement to classroom work, these workbooks will boost confidence in problem-solving and critical-thinking skills!
