**MONEY LAUNDERING AND CORRUPTION IN INTERNATIONAL BUSINESS: STUDY BASED ON NORDIC EXPERIENCES**

---

**Nordic Council of Ministers** Available online: <https://pub.norden.org/temanord2022-511/> Nordic countries are viewed as having low levels of corruption. However, Nordic businesses can be exploited in corruption or money laundering schemes. The KORPEN project (Korruption i samband med näringsverksamhet i Norden) was funded by the Nordic Council of Ministers, coordinated by the Ministry of Justice, Finland and implemented by the Police University College. The project concludes that anti-corruption and anti-money laundering (AML) efforts share the same features and actors but are still rather separated. Some shared methods could be utilised in combatting both crimes. In general, the AML frameworks are more structured, whereas corruption and bribery are not viewed as such a serious issue in the Nordic countries. There are incidents in the Nordic region of interconnected corruption and money laundering. New risk assessment approaches and technology solutions could be of help.

**A LONGITUDINAL STUDY OF SOCIETY IN A THIRD WORLD MEGACITY**

---

**Routledge** By the middle of the twenty-first century, more than fifty per cent of the world's population will live in an urban environment. Most of this new urban growth will take place in Asia and Africa, yet most governments in these two continents seem woefully unprepared for the challenges they will face in providing their urban citizens with the basic services and security from poverty, environmental degradation and crime. It is in this context that in-depth studies which lay bare the contours and characteristics of society and institutions in the urban setting of Third World countries assume importance and urgency. Most studies on urbanisation in developing countries concentrate on slums and shanty towns in isolation from the rest of the society. By contrast, Social Formation in Dhaka, 1985-2005 analyses urbanisation and urban society in a holistic manner, connecting the poor with the non-poor and delineating the change agents of the city. As the first longitudinal study of the social structure of any Third World Megacity, this book will be of interest to urban sociologists, policy-makers, NGOs, and researchers engaged in understanding the development in cities in the global south.

**INTERNATIONAL PRODUCTION BEYOND THE PANDEMIC**

---

**United Nations** The 30th edition of the World Investment Report looks at the prospects for foreign direct investment and international production during and beyond the global crisis triggered by the COVID-19 (coronavirus) pandemic. The Report not only projects the immediate impact of the crisis on

investment flows, but also assesses how it could affect a long-term structural transformation of international production. The theme chapter of the Report reviews the evolution of international production networks over the past three decades and examines the configuration of these networks today. It then projects likely course changes for the next decade due to the combined effects of the pandemic and pre-existing megatrends, including the new industrial revolution, the sustainability imperative and the retreat of laissez faire policies. The system of international production underpins the economic growth and development prospects of most countries around the world. Governments worldwide will need to adapt their investment and development strategies to a changing international production landscape. At the request of the UN General Assembly, the Report has added a dedicated section on investment in the Sustainable Development Goals, to review global progress and propose possible courses of action.
