### DECLUTTER LIKE A MOTHER

### A GUILT-FREE, NO-STRESS WAY TO TRANSFORM YOUR HOME AND YOUR LIFE

*Thomas Nelson* **WALLSTREET JOURNAL BESTSELLER** Live lighter. Live freer. Live a bigger life with less. In **Declutter Like a Mother**, Allie Casazza comes alongside you to explore: Why decluttering calms anxiety in your heart and lessens tension in your relationships. How to ensure your house is working for you, not against you. Why kids thrive when they're not overwhelmed with options. How to make time, when you feel you don't have time, to declutter. Allie Casazza was tired of feeling it was her against the laundry in her home. She wondered if somewhere beneath her frantic days and the mountains of toys in the playroom she would ever find joy and peace in motherhood. Then she discovered the abundance . . . of less. As she purged her home of excess stuff, Allie discovered a lifestyle that strengthened her marriage, saved her motherhood, and helped her develop her gifts in a way that no amount of new kitchen appliances or new organizing system ever could. Research studies show a direct link between stress levels and the amount of physical possessions people have in their homes, and Allie has seen that truth play out in her own life and in the lives of hundreds of thousands of other moms she has mentored through her business and online courses. She proclaims: You don't need a home that's perfect. You need a home that's lighter. Discover less stress, more space. Less chaos, more peace. Less of what doesn't matter, so you have room for what matters most of all.

## GUIDE TO EASIER LIVING

---

*Gibbs Smith* Time is a valued commodity in our modern world, and everyone struggles to make the most of each minute. Russel and Mary Wright recognized decades ago that finding time to organize their lives and homes would become a priority for modern men and women. In their groundbreaking book, *Guide to Easier Living*, the Wrights offered simple ways to achieve a comfortable, well-designed, and organized living environment in any home for any family. Originally published in 1950, Gibbs Smith is proud to rerelease *Guide to Easier Living*, and to reintroduce the Wrights' time-tested and proven methods for maintaining an inviting and efficient home. From ways to make household chores as fast and painless as possible, to how to organize a room for maximum living space, the Wrights pioneered a new informal way of living for a newly suburban American public. The Wrights' ideas revolutionized American living and the way everyday people dealt with the unending job of keeping a home in order. These methods and ideas are just as relevant-if not more so today as they were a half-century ago. Russel and Mary Wright were prominent and successful designers who pioneered the fusion of modern design and informal living. Most importantly, they were known for their tabletop designs. The Wrights' most famous tabletop design, *American Modern*, was the best-selling dinnerware in American history and has just been rereleased by Oneida Ltd.

### THE WORK OF THE APPLE INDUSTRIAL DESIGN GROUP

---

*Back Stage Books* To celebrate Apple's twentieth anniversary, AppleDesign provides a rare inside look at the Industrial Design Group, examining the role this small team of creative individuals has played in the rise of Apple from a Silicon Valley garage to a billion-dollar corporation. It details the formation of the Group, outlines their method for turning great ideas into even greater products, reveals many design concepts and products that never reached the marketplace, and offers a glimpse at the triumph and turmoil than results when creative desire meets (and occasionally collides with) corporate reality. With more than 400 color illustrations and detailed discussion of more than 100 products, design concepts and works-in-progress, AppleDesign provides the most thorough examination of a corporate design group ever published. From the Macintosh to the PowerBook, the Newton MessagePad, the eMate and the just-released Twentieth Anniversary Macintosh, Apple's designers have given us some of the most compelling and enduring products of our time. Their work not only enriches the lives of more than 50 million Apple users worldwide, it influences the computer industry at large, providing strong evidence for those who argue that industrial design is as powerful and relevant an art form as painting, sculpture or architecture.

### DESIGNING AND EVALUATING USABLE TECHNOLOGY IN INDUSTRIAL RESEARCH

---

#### THREE CASE STUDIES

---

*Morgan & Claypool Publishers* This book is about HCI research in an industrial research setting. It is based on the experiences of two researchers at the IBM T. J. Watson Research Center. Over the last two decades, Drs. John and Clare-Marie Karat have conducted HCI research to create innovative usable technology for users across a variety of domains. We begin the book by introducing the reader to the context of industrial research as well as a set of common themes or guidelines to consider in conducting HCI research in practice. Then case study examples of HCI approaches to the design and evaluation of usable solutions for people are presented and discussed in three domain areas: - item Conversational speech technologies, - item Personalization in eCommerce, and - item Security and privacy policy management technologies In each of the case studies, the authors illustrate and discuss examples of HCI approaches to design and evaluation that worked well and those that did not. They discuss what was learned over time about different HCI methods in practice, and changes that were made to the HCI tools used over time. The Karats discuss trade-offs and issues related to time, resources, and money and the value derived from different HCI methods in practice. These decisions are ones that need to be made regularly in the industrial sector. Similarities and differences with the types of decisions made in this regard in academia will be discussed. The authors then use the context of the three case studies in the three research domains to draw insights and conclusions about the themes that were introduced in the beginning of the book. The Karats conclude with their perspective about the future of HCI industrial research. Table of Contents: Introduction: Themes and Structure of the Book / Case Study 1: Conversational Speech Technologies: Automatic Speech Recognition (ASR) / Case Study 2: Personalization in eCommerce / Case Study 3: Security and Privacy Policy Management Technologies / Insights and Conclusions / The Future of Industrial HCI Research
