ELECTRICAL ENGINEERING

AN INTRODUCTION

Oxford University Press on Demand This comprehensive revision of a popular text helps non-electrical engineering majors--the future users, rather than the designers of electrical devices, systems, and machines--gain a conceptual understanding of electrical engineering. Early coverage of systems and an emphasis on an IC (integrated circuits) "building block" approach motivates non-majors. The text features integration of analog and digital technology with cutting-edge coverage of op-amps, feedback and analog systems. A section on SPICE, the leading computer-aided circuit analysis software, introduces students to computerized analysis of circuits. Chapter-end Applications capture student interest by relating material to contemporary topics such as automobile suspension systems, high-fidelity audio, and hand-held computers.

EVIDENCE-BASED HEALTH PROMOTION

Wiley-Blackwell This volume will challenge those involved with health promotion to think more broadly about what 'doing the right thing' and 'doing things right' mean, and to use this thinking to inform their practice. It is, therefore, essential reading for those who are involved in health promotion as part of their practice, health-promotion specialists, managers responsible for purchasing or providing services, and students.

SURF LIKE A GIRL

Prestel Publishing Whether they're threading a barrel or shredding a swell, these amazing women are making enormous waves in the world of surfing. If you thought surfing was a male-dominated sport, think again. The thirty women surfers profiled in this thrilling collection can rip a wave with the best of them. Hailing from all over the world, each surfer is featured in spectacular photography and with their own inspirational words. There's American professional surfer Lindsay Steinriede on how her father's death has inspired her career; French board shaper Valerie Duprat on how she got her start "sculpting foam"; Conchita Rossler, founder of Mooana Retreat in Portugal, on connecting mind, body, and spirit; and Australian photographer Cait Miers on empowering women. You'll also meet surfers who are over sixty, who surf while pregnant, who captain boats, teach yoga, and make movies. Breathtaking photography captures these women from every angle, on and off the waves, in some of the world's most visually stunning locations. The perfect gift for surfing enthusiasts, this unique compilation of stunning pictures and hard-won wisdom proves that the thrill of catching a wave, riding it, and kicking out belongs to everyone.

CITY OF MY HEART**FOUR ACCOUNTS OF LOVE, LOSS AND BETRAYAL IN NINETEENTH-CENTURY DELHI**

Hachette UK Dilli, Hindustan ka Dil... Through nuanced translations of four Urdu narratives spanning the period of turmoil that led to the Revolt of 1857, and culminated in the fall of the Mughal Empire, this compelling volume reveals the tragic and affecting story of a royalty in decline. Vividly documenting the twilight years of not just a historical era but also an entire way of life, these first-hand accounts - gleaned from princes and paupers alike - provide rare insight into how the royals and their subjects experienced life on either side of the cataclysm. Tales of suffering describe the perfidy of the British and the plight of the last royals as they are disbanded and pushed into dire poverty; livelier accounts of fealty and treachery detail palace intrigues; and nostalgic reminiscences recreate the days of past glory and communal comity - of feasting and festivals, and shared faith and devotion. An intimate chronicle of a crucial era in India's history, City of My Heart is the saga of a changing city and a people experiencing the end of life as they know it.

CYBER-PHYSICAL SYSTEMS FOR NEXT-GENERATION NETWORKS

IGI Global The use of cyber-physical systems in recent computing, communication, and control methods to design and operate intelligent and autonomous systems using cutting-edge technologies has led to many advances. By studying emerging trends in these systems, programming techniques can be optimized and strengthened to create a higher level of effectiveness. Cyber-Physical Systems for Next-Generation Networks provides emerging research on using cyber-physical systems (CPS) as a method to control design and operation of intelligent systems through next-generation networks. While highlighting issues such as increasing CPS complexity due to components within physical and industrial systems, this publication explores information on real-time sensing, reasoning, and adaptation for cyber-physical systems while gaining an understanding of evolutionary computing for it. This book is a valuable resource for engineers, academicians, researchers, and graduate-level students seeking current research on CPS in cutting-edge technologies.

A TAMIL HAND-BOOK**OR FULL INTRODUCTION TO THE COMMON LANGUAGE OF THAT DIALECT, ON THE PLAN OF OLLENDORF AND ARNOLD****CUT-PIECES****CELLULOID OBSCENITY AND POPULAR CINEMA IN BANGLADESH**

Columbia University Press Imagine watching an action film in a small-town cinema hall in Bangladesh, and in between the gun battles and fistfights a short pornographic clip appears. This is known as a cut-piece, a strip of locally made celluloid pornography surreptitiously spliced into the reels of action films in Bangladesh. Exploring the shadowy world of these clips and their place in South Asian film culture, Lotte Hoek builds a rare, detailed portrait of the production, consumption, and cinematic pleasures of stray celluloid. Hoek's innovative ethnography plots the making and reception of Mintu the Murderer (2005, pseud.), a popular, Bangladeshi B-quality action movie and fascinating embodiment of the cut-piece phenomenon. She begins with the early scriptwriting phase and concludes with multiple screenings in remote Bangladeshi cinema halls, following the cut-pieces as they appear and disappear from the film, destabilizing its form, generating controversy, and titillating audiences. Hoek's work shines an unusual light on Bangladesh's state-owned film industry and popular practices of the obscene. She also reframes conceptual approaches to South Asian cinema and film culture, drawing on media anthropology to decode the cultural contradictions of Bangladesh since the 1990s.

HUMAN DEVELOPMENT IN AN UNEQUAL WORLD

Oxford University Press Human Development in an Unequal World deals with the twenty-first-century challenges of unstable economic growth and sustainability and the re-emergence of deprivations and inequalities in multiple realms. It argues that the broader perspective of human development is most suited in reorienting development towards a more equitable, sustainable, and empowering world. The authors discuss the concept and philosophy of the capabilities and human development approach, its measurement, the links between economic growth and human development, and the role of social sector policy, gender equality, and securing sustainability. In doing so, they analyse frameworks, processes, institutions, and actors, and weave together concepts, methods, and evidence from numerous developing countries. The chapters offer an integrated understanding of the importance of capabilities, freedoms, and human flourishing in the process of development. This volume calls for an approach that focuses on the humanness of development and brings people back to the centre stage—a phenomenon that has receded to the background in the neoliberal era.

INDIA'S FIGHT AGAINST THE COVID-19 PANDEMIC

Penguin Books When will India win the fight against the COVID-19 pandemic? How long do we have to use masks? When can we expect a safe and effective vaccine? Do we need to wear masks even after we get a vaccine? What if there is no definitive treatment against COVID-19? How can we protect our family from this disease? How should we respond to this 'new normal' as an individual and as a community? What is the way forward? Offering insights on how India continues to fight the pandemic, Till We Win is a must-read for everyone. It is a book for the people, for political leaders, policymakers and physicians, with the promise and potential to transform public health in India.

BESIEGED

VOICES FROM DELHI-1857

Penguin UK Translated by Mahmood Farooqui, with notes on the Mutiny Papers and governance in Delhi 1857 by the translator When Delhi lay under siege for five harrowing months in the summer of 1857, the people of the city described the events as ghadar: a time of turbulence. Resources within the besieged city fell dangerously low and locals found the rebelling sepoys presence and the increased levies insufferable. Nonetheless, an extraordinary effort was launched by the government of Bahadur Shah Zafar to fight the British. Thousands of labourers and tonnes of materials were mobilized, funds were gathered, the police monitored food prices and a functioning bureaucracy was vigilantly maintained right until the walled city's fall. Then, as Delhi was transformed by the victorious British, these everyday sacrifices and the efforts of thousands of people to save their country were lost forever. In this groundbreaking work, Mahmood Farooqui presents the first extensive translations into English of the Mutiny Papers documents dating from Delhi's 1857 siege, originally written in Persian and Shikastah Urdu. The translations include such fascinating pieces as the constitution of the Court of Mutineers, letters from soldiers threatening to leave Delhi if they were not paid their salaries, complaints to the police about unruly soldiers, and reports of troublesome courtesans, spies, faqirs, doctors, volunteers and harassed policemen. Shifting focus away from the conventional understanding of the events of 1857, these translations return ordinary and anonymous men and women back into the history of 1857. Besieged offers a view of how the rebel government of Delhi organized the essential requirements of war food and labour, soldiers salaries, arms and ammunition but more than that, this deeply evocative book reveals the hopes, beliefs and failures of a people who lived through the tragic end of an era.

THE TRIAL OF BAHADUR SHAH ZAFAR

Bahadur Shah Zafar, the poet-king, was catapulted into the limelight when the mutineers from Meerut arrived in Delhi on 11 May 1857. After the mutiny, the last of the great Mughals went on trial on 27 January 1858 for aiding and abetting the mutineers of 1857. The 21-day trial in the Diwan-i-Khas, the Hall of Special Audience, in Zafar's own palace, saw the British produce dozens of witnesses and documents to demonstrate Zafar's complicity in the Mutiny. He was eventually found guilty and exiled to Burma, where he died years later. The proceedings of this historic trial was first published in 1858, but has remained largely absent from studies and histories of colonial India. The current edition reproduces the text, documents and witness accounts of the day-by-day account of the trial. The Introduction, beginning with a short but comprehensive history of the East India Company and the Mutiny, places the trial in the context of the colonial state and its ideological structures. It then moves on to a reading of the trial's key narrative and rhetorical features. The text of the trial constitutes a great historical drama. The vast archive of evidence captures the theatre, the violence, the betrayals and the British anger. The legal arguments and eye-witness accounts reveal the human, political and bureaucratic dimensions of the trial of the nineteenth century. The Trial of Bahadur Shah Zafar makes for fascinating reading for the history buff and anyone interested in India 1857.

ECONOMIST GANDHI

THE ROOTS AND THE RELEVANCE OF THE POLITICAL ECONOMY OF THE MAHATMA

Portfolio Examining Mahatma Gandhi through an unconventional lens, this book is an original and thought-provoking contribution to Gandhian literature. A refreshing take on the Mahatma's economic philosophy, Economist Gandhi tells us why we need to look at him as an unlikely management guru and an original thinker who enriched the discourse around market capitalism. The book explains Gandhi's positive approach towards business: even though he greatly reduced his individual wants, he was against poverty and wanted every Indian to enjoy a materially comfortable life. Economist Gandhi is probably the first book on Gandhi that claims that he was not against business and capitalists. It not only provides insights into a hidden facet of Gandhi's personality—his thoughts on economics and capitalism—but also enlightens the reader about some of Gandhi's views on religion, ethics, human nature, education and society. The book unveils a Gandhi who is brilliant, daring and, most importantly, distinctive.
