REINVENTING ANARCHY

WHAT ARE ANARCHISTS THINKING THESE DAYS?

Routledge

REINVENTING ANARCHY, AGAIN

AK Press This book brings together the major currents of social anarchist theory in a collection of some of the most important writers from the United States, Canada, England, and Australia. The book is organized into eight sections: "What is Anarchism?," "The State and Social Organization," "Moving Toward Anarchist Society," "Anarcha-feminism," "Work," "The Culture of Anarchy," "The Liberation of Self," and, finally, "Reinventing Anarchist Tactics."

CONTEMPORARY ANARCHIST STUDIES

AN INTRODUCTORY ANTHOLOGY OF ANARCHY IN THE ACADEMY

Routledge This volume of collected essays by some of the most prominent academics studying anarchism bridges the gap between anarchist activism on the streets and anarchist theory in the academy. Focusing on anarchist theory, pedagogy, methodologies, praxis, and the future, this edition will strike a chord for anyone interested in radical social change. This interdisciplinary work highlights connections between anarchism and other perspectives such as feminism, queer theory, critical race theory, disability studies, post-modernism and post-structuralism, animal liberation, and environmental justice. Featuring original articles, this volume brings together a wide variety of anarchist voices whilst stressing anarchism's tradition of dissent. This book is a must buy for the critical teacher, student, and activist interested in the state of the art of anarchism studies.

THE PALGRAVE HANDBOOK OF ANARCHISM

Springer This handbook unites leading scholars from around the world in exploring anarchism as a political ideology, from an examination of its core principles, an analysis of its history, and an assessment of its contribution to the struggles that face humanity today. Grounded in a conceptual and historical approach, each entry charts what is distinctive about the anarchist response to particular intellectual, political, cultural and social phenomena, and considers how these values have changed over time. At its heart is a sustained process of conceptual definition and an extended examination of the core claims of this frequently misunderstood political tradition. It is the definitive scholarly reference work on anarchism as a political ideology, and should be a crucial text for scholars, students, and activists alike.

ANARCHISM AND AUTHORITY

A PHILOSOPHICAL INTRODUCTION TO CLASSICAL ANARCHISM

Routledge Examining the political theory of anarchism from a philosophical and historical perspective, Paul McLaughlin relates anarchism to the fundamental ethical and political problem of authority. The book pays particular attention to the authority of the state and the anarchist rejection of all traditional claims made for the legitimacy of state authority, the author both explaining and defending the central tenets of the anarchist critique of the state. The founding works of anarchist thought, by Godwin, Proudhon and Stirner, are explored and anarchism is examined in its historical context, including the influence of such events as the Enlightenment and the French Revolution on anarchist thought. Finally, the major theoretical developments of anarchism from the late-nineteenth century to the present are summarized and evaluated. This book is both a highly readable account of the development of anarchist thinking and a lucid and well-reasoned defence of the anarchist philosophy.

ANARCHISM AND AUTHORITY

A PHILOSOPHICAL INTRODUCTION TO CLASSICAL ANARCHISM

Ashgate Publishing, Ltd. Examining the political theory of anarchism from a philosophical and historical perspective, Paul McLaughlin

relates anarchism to the fundamental ethical and political problem of authority. The book pays particular attention to the authority of the state and the anarchist rejection of all traditional claims made for the legitimacy of state authority, the author both explaining and defending the central tenets of the anarchist critique of the state. The founding works of anarchist thought, by Godwin, Proudhon and Stirner, are explored and anarchism is examined in its historical context, including the influence of such events as the Enlightenment and the French Revolution on anarchist thought. Finally, the major theoretical developments of anarchism from the late-nineteenth century to the present are summarized and evaluated. This book is both a highly readable account of the development of anarchist thinking and a lucid and well-reasoned defence of the anarchist philosophy.

NEW PERSPECTIVES ON ANARCHISM

Rowman & Littlefield The study of anarchism as a philosophical, political, and social movement has burgeoned both in the academy and in the global activist community in recent years. Taking advantage of this boom in anarchist scholarship, Nathan J. Jun and Shane Wahl have compiled twenty-six cutting-edge essays on this timely topic in *New Perspectives on Anarchism*. This collection of essays is unique in its global and multi-cultural scope, as its contributors hail from across the globe. The scholars and activists featured in *New Perspectives on Anarchism* view anarchism from a variety of disciplinary perspectives, including philosophy, political science, religion, sociology, and ecology. Together, they attest to the vibrancy, intrepidity, and diversity of contemporary anarchist studies both within and without the academy. *New Perspectives on Anarchism's* broad approach to anarchism will make it appealing to scholars and political activists from a variety of disciplinary backgrounds.

FOR ANARCHISM (RLE ANARCHY)

Routledge This collection discusses both the history and theory of anarchism and in particular examines Italian anarchism, the relationship between Marxism and anarchism, the influence of Kropotkin, new social movements and the anarchist theory of history.

FILM AND THE ANARCHIST IMAGINATION

Verso From the early cinema of Griffith and René Clair, to the work of Godard, Lina Wertmüller and Ken Loach, this book offers a comprehensive survey of anarchism in film.

WOMEN AND REVOLUTION

A DISCUSSION OF THE UNHAPPY MARRIAGE OF MARXISM AND FEMINISM

Black Rose Books Ltd. *Women and Revolution* deals with contemporary feminist political theory and practice. It is a debate concerning the importance of patriarchy and sexism in industrialized societies - are sexual differences and kin relations as critical to social outcome as economic relations? What is the dynamic between class and sex? Is one or the other dominant? How do they interact? What are the implications for social change? In *The Unhappy Marriage of Marxism and Feminism*, Hartmann argues that class and patriarchy are equally important and that neither a narrow feminism nor an economist Marxism will suffice to help us understand or change modern society - instead we need a theory that can integrate the two analyses.

ANARCHISM AND THE CRISIS OF REPRESENTATION

HERMENEUTICS, AESTHETICS, POLITICS

Susquehanna University Press Current theories of knowledge, art, and power are locked into sterile debates around the question of representation. This book examines the limits of antirepresentationalism in these fields and argues that the anarchist tradition can point the way beyond our contemporary crisis of representation. The author rereads the theory and practical experiences of anarchism from the nineteenth century to the present, proposing a radical revision of received notions of the subject - from the equation of anarchy with literary decadence to the interpretation of anarchism as yet another discourse founded on a notion of the human essence. What emerges, instead, is a complex portrait of anarchism as a body of thought that provides the framework for a kind of critical realism, with implications for fields ranging from aesthetics to economics, from philosophy to politics. Jesse Cohn teaches English at Purdue University North Central.

RULES WITHOUT RULERS

THE POSSIBILITIES AND LIMITS OF ANARCHISM

John Hunt Publishing This book is about the possibility of organising society without the state, but, crucially, it makes the claim, contrary to much anarchist theory, that such a life would not entail absolute freedom; rather, as the title suggests, it would mean creating new forms of social organisation which, whilst offering more freedom than state-capitalism, would nonetheless still entail certain limits to freedom. In making this argument, a secondary point is made, which highlights the book's originality; namely, that, whilst anarchism is defended by an increasing number of radicals, the reality of what an anarchist society might look like, and the problems that such a society might encounter, are rarely discussed or acknowledged, either in academic or activist writings.

UNDERSTANDING DOGMAS AND DREAMS

A TEXT

CQ Press Nancy Love's concise yet complete volume aims to inform students of their choices among political values. By exploring the assumptions of various ideologies and comparing their positions, students begin to understand political alternatives to be able to choose among them—in essence, they learn to think democratically. Offering historical and analytic context for the selections in her

companion reader, *Dogmas and Dreams*, Love challenges students to consider the various ways ideological frameworks shape political actions. Reframing her approach in this second edition, Love examines how traditional left/right ideologies—liberalism and conservatism, socialism and fascism—are shifting to adapt to new political realities in an ever turbulent, post-9/11 world. She also discusses why alternative ideologies—feminism, environmentalism, fundamentalism, and globalization—may better convey our global political future. While pushing the boundaries of the left/right political spectrum, she looks at how grassroots social movements offer alternative ways to view ideological differences, from cluster-concepts to micro-discourses, and even a planetary galaxy. Expanded coverage includes: a new chapter on nationalism and globalization, which examines the work of Samuel Huntington, Kenichi Ohmae, Benjamin Barber, and many more, to explore fundamentalism in Islamic politics increased coverage of global environmental politics, including Shiva's *Stolen Harvest* and Kelly's *Thinking Green*, examining the relationships between developed and developing countries fresh material on socialist politics post-1989 and the rise of neo-fascist movements in the United States and Europe, including analysis of Hayden and Flacks' "The Port Huron Statement at 40" and Bob Moser's "The Age of Rage" an updated feminism chapter that considers the impact of third-wave, post-colonial, and so-called "power" feminists and incorporates new analysis of Wollstonecraft's *A Vindication of the Rights of Woman* and Mohanty's *Under Western Eyes Revisited* A thinking person's package... Nancy Love wrote *Understanding Dogmas and Dreams* with her edited collection in mind—the two work together as a seamless package and give students great value for their money. Order the two books shrink-wrapped at significant savings. Please specify ISBN 0-87289-287-5. For the full table of contents of Love's reader, *Dogmas and Dreams*, [click here](#).

EMERGENT POSSIBILITIES FOR GLOBAL SUSTAINABILITY

INTERSECTIONS OF RACE, CLASS AND GENDER

Routledge It must be acknowledged that any solutions to anthropogenic Global Climate Change (GCC) are interdependent and ultimately inseparable from both its causes and consequences. As a result, limited analyses must be abandoned in favour of intersectional theories and practices. *Emergent Possibilities for Global Sustainability* is an interdisciplinary collection which addresses global climate change and sustainability by engaging with the issues of race, gender, and class through an intersectional lens. The book challenges readers to foster new theoretical and practical linkages and to think beyond the traditional, and oftentimes reductionist, environmental science frame by examining issues within their turbulent political, cultural and personal landscapes. Through a variety of media and writing styles, this collection is unique in its presentation of a complex and integrated analysis of global climate change and its implications. Its companion book, *Systemic Crises of Global Climate Change*, addresses the social and ecological urgency surrounding climate change and the need to use intersectionality in both theory and practice. This book is a valuable resource for academics, researchers and both undergraduate and post-graduate students in the areas of Environmental Studies, Climate Change, Gender Studies and International studies as well as those seeking a more intersectional analysis of GCC.

LEADERS FROM THE 1960S: A BIOGRAPHICAL SOURCEBOOK OF AMERICAN ACTIVISM

A BIOGRAPHICAL SOURCEBOOK OF AMERICAN ACTIVISM

ABC-CLIO The throngs at Woodstock, Jane Fonda in Hanoi, I Have a Dream, burning draft cards, fire in the streets--these images of the 1960s are still very much alive today. What happened to the people and principles that dominated that decade? Which leaders from those turbulent years had the most lasting effect on our lives today? How well have the principles for which those leaders fought so strongly withstood the test of time? This thought-provoking biographical dictionary allows the reader to study the leaders, both conservative and liberal, their ideals, and their enduring influence. With major sections on racial democracy, peace and freedom, sexuality and gender, the environment, radical culture, and visions of alternative societies, *Leaders from the 1960s* includes entries on a wide selection of nationally prominent activists of the 1960s. In addition to those who dominated only the sixties, the volume includes earlier activists who came into prominence in the 1960s and activists of the era who came into prominence since the 1960s. Each entry provides a biographical sketch, but the focus of the entries is on the person's basic concepts or the essence of his or her work and the public response it generated. Included are extensive bibliographies on the individuals and the period.

EYES TO THE SOUTH

FRENCH ANARCHISTS AND ALGERIA

AK Press A comparative study of the porous intellectual and political borders between a colonial power and the colonized.

FROM BAKUNIN TO LACAN

ANTI-AUTHORITARIANISM AND THE DISLOCATION OF POWER

Lexington Books In its comparison of anarchist and poststructuralist thought, *From Bakunin to Lacan* contends that the most pressing political problem we face today is the proliferation and intensification of power. Saul Newman targets the tendency of radical political theories and movements to reaffirm power and authority, in different guises, in their very attempt to overcome it. In his examination of thinkers such as Bakunin, Lacan, Stirner, and Foucault Newman explores important epistemological, ontological, and political questions: Is the essential human subject the point of departure from which power and authority can be opposed? Or, is the humanist subject itself a site of domination that must be unmasked? As it deftly charts this debate's paths of emergence in political thought, the book illustrates how the question of essential identities defines and re-defines the limits and possibilities of radical politics today.

THE CHOMSKY EFFECT

A RADICAL WORKS BEYOND THE IVORY TOWER

MIT Press Noam Chomsky as political gadfly, groundbreaking scholar, and intellectual guru: key issues in Chomsky's career and the sometimes contentious reception to his ideas. "People are dangerous. If they're able to involve themselves in issues that matter, they may change the distribution of power, to the detriment of those who are rich and privileged."—Noam Chomsky Noam Chomsky has been praised by the likes of Bono and Hugo Chávez and attacked by the likes of Tom Wolfe and Alan Dershowitz. Groundbreaking linguist and outspoken political dissenter—voted "most important public intellectual in the world today" in a 2005 magazine poll—Chomsky inspires fanatical devotion and fierce vituperation. In *The Chomsky Effect*, Chomsky biographer Robert Barsky examines Chomsky's positions on a number of highly charged issues—Chomsky's signature issues, including Vietnam, Israel, East Timor, and his work in linguistics—that illustrate not only "the Chomsky effect" but also "the Chomsky approach." Chomsky, writes Barsky, is an inspiration and a catalyst. Not just an analyst or advocate, he encourages people to become engaged—to be "dangerous" and challenge power and privilege. The actions and reactions of Chomsky supporters and detractors and the attending contentiousness can be thought of as "the Chomsky effect." Barsky discusses Chomsky's work in such areas as language studies, media, education, law, and politics, and identifies Chomsky's intellectual and political precursors. He charts anti-Chomsky sentiments as expressed from various standpoints, including contemporary Zionism, mainstream politics, and scholarly communities. He discusses Chomsky's popular appeal—his unlikely status as a punk and rock hero (Eddie Vedder of Pearl Jam is one of many rock and roll Chomskyites)—and offers in-depth analyses of the controversies surrounding Chomsky's roles in the "Faurisson Affair" and the "Pol Pot Affair." Finally, Barsky considers the role of the public intellectual in order to assess why Noam Chomsky has come to mean so much to so many—and what he may mean to generations to come.

ENERGIES BEYOND THE STATE

ANARCHIST POLITICAL ECOLOGY AND THE LIBERATION OF NATURE

Rowman & Littlefield This volume contributes to advancing an 'ecology of freedom,' which can critique current anthropocentric environmental destruction, as well as focusing on environmental justice and decentralized ecological governance.

DECISIONS WITHOUT HIERARCHY

FEMINIST INTERVENTIONS IN ORGANIZATION THEORY AND PRACTICE

Routledge *Decisions Without Hierarchy* is based on a two-year examination of three feminist organizations: a peace group, health collective, and business women's group. From these case studies, Iannello constructs a model of organizations that, while structured, is nevertheless non-hierarchical. She terms this organization from the "modified consensus model." Her case studies show that modified consensus does not give way to pressures toward formal hierarchy and that, therefore, the model merits the attention of feminists and organization theorists alike.

SOCIAL ANARCHISM

ROUTLEDGE INTERNATIONAL ENCYCLOPEDIA OF WOMEN

GLOBAL WOMEN'S ISSUES AND KNOWLEDGE

Routledge For a full list of entries and contributors, sample entries, and more, visit the *Routledge International Encyclopedia of Women* website. Featuring comprehensive global coverage of women's issues and concerns, from violence and sexuality to feminist theory, the *Routledge International Encyclopedia of Women* brings the field into the new millennium. In over 900 signed A-Z entries from US and Europe, Asia, the Americas, Oceania, and the Middle East, the women who pioneered the field from its inception collaborate with the new scholars who are shaping the future of women's studies to create the new standard work for anyone who needs information on women-related subjects.

TALKING POLITICS

A WORDBOOK

Routledge *Talking Politics* is a philosophical examination of some of the basic concepts of political discourse. Its primary focus is on the ordinary; on what is said by politicians, in newspapers and by people in pubs, rather than on the works of political theorists. This is a work of, but not on political theory. *Talking Politics* is: * Invaluable as a source of reference for students, and contains a detailed index * Arranged thematically, around topics such as 'Nation'. Each entry has copious cross-references and suggestions for further reading. A. W. Sparkes is uniquely qualified to write such a book, combining some thirty years' teaching as a philosopher with wide experience of, and a life-long fascination with, politics. His attitude is that of a critical, but uncynical, observer.

ANARCHISM

A DOCUMENTARY HISTORY OF LIBERTARIAN IDEAS

Black Rose Books Limited Continuing where volume one left off, this anthology documents anarchist writings from World War II up until the present day. Many of the translations (from Africa, India, China, Latin America, and Europe) have never before been published in English. Contributors include Noam Chomsky, Murray Bookchin, Emma Goldman, George Woodcock, Marie Louise Berneri, Herbert Read, Alex Comfort, Martin Buber, Paul Goodman, Carole Pateman, Colin Ward, Paul Feyerabend, Pierre Clastres, Chaia Heller, Ivan Illich, Daniel Guérin, Luce Fabbri, and many more. Robert Graham is the editor of *Anarchism: A Documentary History of*

Libertarian Ideas, Volume One: From Anarchy to Anarchism (300CE to 1939).

TERRORISM, MEDIA, LIBERATION

Rutgers University Press "Historical overview of terrorism and how it has been depicted in the media, especially films and television. In turn, these depictions have shaped terrorist tactics, and public reaction to terrorism"--Provided by publisher.

DEMOCRACY AND TECHNOLOGY

Guilford Press Intended for anyone interested in democracy and public policy, social justice and empowerment, political economy and business or the social consequences of technology and architecture.

ANARCHIST THINKERS AND THOUGHT

AN ANNOTATED BIBLIOGRAPHY

Greenwood This selected and annotated bibliography reflects the growing interest among scholars in anarchist thinkers and thought. This guide to primarily English sources, over a lengthy period of time, is fully annotated and covers works by and about major anarchist thinkers, philosophers, and others who are important or are on the margins of anarchist or liberal theory. It also describes important sources of information about the anarchist experience in 18 countries around the world. The volume provides useful listings of books, journals, theses, bibliographies, and other sources of information and is carefully indexed to authors, thinkers, activists, and varied subjects.

THE POLITICAL PHILOSOPHY OF POSTSTRUCTURALIST ANARCHISM

Penn State Press The political writings of the French poststructuralists have eluded articulation in the broader framework of general political philosophy primarily because of the pervasive tendency to define politics along a single parameter: the balance between state power and individual rights in liberalism and the focus on economic justice as a goal in Marxism. What poststructuralists like Michel Foucault, Gilles Deleuze, and Jean-François Lyotard offer instead is a political philosophy that can be called tactical: it emphasizes that power emerges from many different sources and operates along many different registers. This approach has roots in traditional anarchist thought, which sees the social and political field as a network of intertwined practices with overlapping political effects. The poststructuralist approach, however, eschews two questionable assumptions of anarchism, that human beings have an (essentially benign) essence and that power is always repressive, never productive. After positioning poststructuralist political thought against the background of Marxism and the traditional anarchism of Bakunin, Kropotkin, and Proudhon, Todd May shows what a tactical political philosophy like anarchism looks like shorn of its humanist commitments—namely, a poststructuralist anarchism. The book concludes with a defense, contra Habermas and Critical Theory, of poststructuralist political thought as having a metaethical structure allowing for positive ethical commitments.

ANARCHISM

Twayne Pub This series explores the major movements in European intellectual and cultural history by providing insight into the areas of literature, philosophy, political theory, aesthetics and science.

ENCYCLOPEDIA OF POLITICAL ANARCHY

Abc-Clio Incorporated Examines the ancient roots of the movement, key individuals, and important organizations, events, laws, court cases, and theories.

UNDERSTANDING DOGMAS AND DREAMS

A TEXT

Chatham House Pub This text is intended to be used with its companion volume, "Dogmas and Dreams: A Reader in Modern Political Ideologies". Placing the study of ideologies in historical and analytic context, it is a study of political ideologies in their role as the "translators" of ideas into

BRITISH COUNTER-CULTURE 1966-73

A STUDY OF THE UNDERGROUND PRESS

Springer

IDLE HANDS AND EMPTY HEARTS

WORK AND FREEDOM IN THE UNITED STATES

Praeger In this thought-provoking new book Schleuning searches for the meaning of work in our society. Compellingly written, *Idle Hands and Empty Hearts* is a comprehensive critique, from a humanistic-anarchistic perspective, of the system of work, production, and consumption under capitalism in the United States, and of scientific-technological and ideological dimensions of the culture in which it is imbedded. Schleuning places ideas about work in their historical and cultural context and offers new ideas about what work should be, and what role it should play in our lives.

ANARCHY IN ATHENS

AN ETHNOGRAPHY OF MILITANCY, EMOTIONS AND VIOLENCE

Manchester University Press The battles between Athenian anarchists and the Greek state have received a high degree of media attention recently. But away from the intensity of street protests militants implement anarchist practices whose outcomes are far less visible. They feed the hungry and poor, protect migrants from fascist beatings and try to carve out an autonomous political, social and cultural space. Activists within the movement share politics centred on hostility to the capitalist state and all forms of domination, hierarchy and discrimination. Based on extensive ethnographic fieldwork among Athenian anarchists and anti-authoritarians, *Anarchy in Athens* unravels the internal complexities within this milieu and provides a better understanding of the forces that give the space its shape.

TO END WAR

THE DESTRUCTION IN ART SYMPOSIUM (DIAS)

THE RADICAL CULTURAL PROJECT OF EVENT-STRUCTURED LIVE ART

THE AMERICAN AS ANARCHIST

REFLECTIONS ON INDIGENOUS RADICALISM

JHU Press Instead he contends that American culture is far more radical than that of any socialist state and the implications of American radicalism are far more revolutionary than forms of Marxism-Leninism.

ECOLOGY OR CATASTROPHE

THE LIFE OF MURRAY BOOKCHIN

Oxford University Press Murray Bookchin was not only one of the most significant and influential environmental philosophers of the twentieth century--he was also one of the most prescient. From industrial agriculture to nuclear radiation, Bookchin has been at the forefront of every major ecological issue since the very beginning, often proposing a solution before most people even recognized there was a problem. *Ecology or Catastrophe: The Life of Murray Bookchin* is the first biography of this groundbreaking environmental and political thinker. Author Janet Biehl worked as his collaborator and copyeditor for 19 years, editing his every word. Thanks to her extensive personal history with Bookchin as well as her access to his papers and archival research, *Ecology or Catastrophe* offers unique insight into his personal and professional life. Founder of the social ecology movement, Bookchin first started raising environmental issues in 1952. He foresaw global warming in the 1960s and even then argued that we should look into renewable energy sources as an alternative to fossil fuels. Wary of pesticides and other chemicals used in industrial agriculture, he was also an early advocate of small-scale organic farming, which has developed into the present locavore movement and the revival of organic markets. Even Occupy can trace the origins of its leaderless structure and general assemblies to the nonhierarchical organizational form Bookchin developed as a libertarian socialist. Bookchin believed that social and ecological issues were deeply intertwined. Convinced that capitalism pushes businesses to maximize profits and ignore humanist concerns, he argued that eco-crises could be resolved by a new social arrangement. His solution was Communalism, a new form of libertarian socialism that he developed. An optimist and utopian, Bookchin believed in the potentiality for human beings to use reason to solve all social and ecological problems.

ANARCHISM

A BIBLIOGRAPHY

ROUTLEDGE LIBRARY EDITIONS: LINGUISTICS

Routledge Routledge Library Editions: Linguistics brings together as one set, mini-sets, or individual volumes, a series of previously out-of-print classics from a variety of academic imprints. With titles ranging from *Applied Linguistics and Language Learning* to *Experimental Psycholinguistics and Sociolinguistics Today: International Perspectives*, this set provides in one place a wealth of important reference sources from a wide range of authors expert in the field.
