Electrophysiologic Evaluation in Otolaryngology Karger Medical and Scientific Publishers The past decade has seen a rapid increase in the application of electrophysiologic measurement techniques in evaluating patients with hearing and balance disorders. Advances in computer technology have generated new and exciting applications in the areas of electrocochleography, electroneuronography, electronystagmography, and the auditory brainstem response. This book examines these recent developments and explores new areas of the field currently under investigation. An important issue in electrocochleography today is the widened AP-SP complex. Contributors to this book evaluate its significance in patients with cerebellopontine angle tumor. The many applications of the auditory brainstem response are surveyed, as well as the current status of the mid- and long-latency evoked responses. An overview of the relatively new area of otoacoustic emissions and its clinical applications is also included. Practicing otolaryngologists, otolaryngology residents, audiologists, audiology students, and auditory and vestibular scientists will benefit most from this well-researched book.  Women 1928 A Book for the Lady Driver, Sidecar Passenger and Pillion
 Rider Steve Brown Betty and Nancy Debenham were a pair of young
 adventurous lady motorcyclists who entered trials competitions on equal
 terms with men in the 1920's. Although they were serious motorcyclists
 they never let this get in the way of their tremendous sense of fun. Their
 spirit shines through in 'Motor Cycling for Women'. A practical and yet at
 times eccentric and quirky book from a bye-gone era that will make you
 smile. WALNECK'S CLASSIC CYCLE TRADER, NOVEMBER 2008 Causey
 Enterprises, LLC Cars & Parts Facade Construction Manual Walter de
 Gruyter «Facade Construction Manual» provides a systematic survey of
 contemporary expertise in the application of new materials and energy-
 efficient technologies in facade design. It surveys the facade design
 requirements made by various types of buildings, as well as the most
 important materials, from natural stone through to synthetics, and
 documents a diversity of construction forms for a wide range of building
 types. WALNECK'S CLASSIC CYCLE TRADER, MAY 2006 Causey Enterprises,
