Jesus and the Samurai

The Shining Religion and the Samurai

iUniverse By 250 AD, Christianity had spread throughout India and China. Known as the Shining Religion or the Luminous Teaching, it drew adherents from Buddhism and Hinduism who were seeking a faith that taught the possibility of achieving a society founded on love and compassion for their fellow man. The new doctrine reached the island nation of Japan where it was so well received that Christianity threatened to supplant Buddhism as the dominant religion. By the close of the 16th century Japanese Christians numbered in the millions. Fifty years later Christianity was officially proscribed and Christians faced execution for openly practicing their faith. Jesus and the Samurai tells their fascinating story with facts drawn from ancient and modern sources.

Our Patchwork Nation

The Surprising Truth About the "Real" America

[Penguin](#) A revolutionary new way to understand America's complex cultural and political landscape, with proof that local communities have a major impact on the nation's behavior-in the voting booth and beyond. In a climate of culture wars and tremendous economic uncertainty, the media have often reduced America to a simplistic schism between red states and blue states. In response to that oversimplification, journalist Dante Chinni teamed up with political geographer James Gimpel to launch the Patchwork Nation project, using on-the-ground reporting and statistical analysis to get past generalizations and probe American communities in depth. The result is Our Patchwork Nation, a refreshing, sometimes startling, look at how America's diversities often defy conventional wisdom. Looking at the data, they recognized that the country breaks into twelve distinct types of communities, and old categories like "soccer mom" and "working class" don't matter as much as we think. Instead, by examining Boom Towns, Evangelical Epicenters, Military Bastions, Service Worker Centers, Campus and Careers, Immigration Nation, Minority Central, Tractor Community, Mormon Outposts, Emptying Nests, Industrial Metropolises, and Monied Burbs, the authors demonstrate the subtle distinctions in how Americans vote, invest, shop, and otherwise behave, reflect what they experience on their local streets and in their daily lives. Our Patchwork Nation is a brilliant new way to debate and examine the issues that matter most to our communities, and to our nation.
